

ENGLAND AS AN AMERICAN STATE

Cecil Rhodes Favored a World Republic.

WOULD MEAN LASTING PEACE.

W. T. Stead Tells of Interview With Rhodes in Which the "Colossus of South Africa" Favored the Different Parts of the British Empire Becoming Parts of the American Union.

W. T. Stead recently published a statement to the effect that "Cecil Rhodes said if the Anglo-American union could not be obtained otherwise than by applying for admission as states federated with the American Union he would apply."

This aroused the interest of Andrew Carnegie, who wrote to Stead for particulars. In response the English editor made the significant assertion that Rhodes was ready to have England and all her colonies apply for admission as states in the American Union. Says Stead:

"Mr. Carnegie's inquiry suggests the possibility that other readers may be glad of a reminder as to the attitude of Cecil Rhodes in relation to the great question which has once more been brought prominently to the front by the reciprocity agreement between Canada and the United States.

"The statement to which Mr. Carnegie refers was made to me personally at the office of the Review of Reviews, Mowbray House, in 1891. It represented the ultimate stage in the evolution of Mr. Rhodes' mind on the subject in question.

"When Mr. Rhodes was a young man without a penny in his pocket he drew up a will leaving any money that he might hereafter acquire for the attainment of his ideals. His idea was the formation of a kind of secular church which should have its members in every part of the British empire working with one object and one idea and especially advocating the closer union of England and her colonies, crushing all disloyalty and every movement for the severance of our empire.

Wanted England to Absorb America.

"Hence in his will he defined, among other objects of the secret society, 'the ultimate recovery of the United States of America as an integral part of the British empire, the inauguration of a system of colonial representation in the imperial parliament which may tend to weld together the disjointed members of the empire and finally the foundation of so great a power as to hereafter render wars impossible and promote the best interests of humanity.'

"That was what we may call his jumping off point before he adequately realized that the United States had by its growth, its power and its compactness become the predominant partner of the English speaking race. From this crude undergraduate's idea of 'the recovery of the United States' to the recognition of the fact that it might be necessary to merge the British empire in the United States is a long stage, but Rhodes traversed it slowly and steadily, never turning back.

"I did not meet him until eleven years after he had made his first will. From that time I can speak authoritatively as to the movement of his mind. He wrote to me declaring that the practical solution of the great political problem was the union with America, brought about by a commercial war for the purpose of securing a commercial union and the adoption of the principles of the American constitution as the basis of the reunited English speaking world.

Ready For America to Absorb England.

"Again and again Mr. Rhodes returned to his dominant conception until at last his theory that the supremacy of the world must be placed in the hands of the English speaking race assumed almost the character of a religious dogma.

"In the year 1891 he talked to me for three hours concerning his claims, his plans, his hopes and his ideas. After he had been discoursing in his usual vehement fashion as to what might be done if the republic and the empire were united in a fraternal union I said to him:

"I agree with every word that you say, but I go further. I say that if I were convinced that it would be impossible to secure the union of the English speaking race on any other terms than that the states under the British flag should apply for union as states of the American republic I would be prepared to take that step."

"He stopped in his walk, for he was pacing the room backward and forward as he talked, and said sharply: 'Say that again!'

"I repeated slowly and with emphasis the declaration I had just made. He stopped for a minute and then said, 'Upon my word, Stead, I agree with you!'

"From that moment the ideal of English speaking reunion, even if it could only be obtained by the merging of the British empire in the United States, assumed its natural and final place as the center of his political aspirations. The Rhodesian ideal, therefore, was the promotion of racial unity on the basis of the principles embodied in the American constitution."

Three Young Men Destined to Wear Crowns and Govern Nations

Prince Frederick William of Germany. Prince Alexander of Serbia. Prince George of Saxony.

HERE are three young men destined by nature to rule kingdoms at some time in the future unless revolutions or other causes prevent. One of them is Crown Prince Frederick William of Germany, and his chance of being kaiser some day is excellent, much better than the prospects of the other young men pictured above. For instance, Crown Prince Alexander of Serbia has not much of a throne to sit on, and it is rather unstable—so unstable, in fact, that Alexander's elder brother, George, renounced his right to it two years ago and let his younger brother take the title of crown prince and the dangers that go with it. His father, Peter I., has had trouble ever since he was declared king in 1903, after the assassination of King Alexander and Queen Draga. He is only a few generations in descent from a peasant who led a successful insurrection against Turkey in 1804 and thus made himself a king. Crown Prince George of Saxony comes of a much older family. He is related by ties of blood to the royal houses of Great Britain, Prussia, Portugal, Belgium, Bulgaria and several of the smaller kingdoms that help make up the German empire. But his father's place on the throne is not secure, and for a time after he became king in 1904 it was extremely precarious. The elopement of his consort, the Princess Louise, with a music teacher a year before he ascended the throne caused friction between the people and the crown that has not been smoothed over.

The Story of a Famous Hymn.

The famous hymn beginning "God moves in a mysterious way," known as "Cowper's Hymn," had its origin as follows: Cowper was all his life the victim of melancholia and more than once attempted suicide. One day, bent upon destroying himself, he got into a cab and ordered the driver to take him to a certain point on the river where he intended to drown himself. The cabman, noticing his strange appearance and feeling that all might not be right with him, drove him about the city and finally stopped in front of the poet's door. Stepping out and recognizing the old familiar surroundings and shocked at the thought of his narrow escape, Cowper exclaimed, "God moves in a mysterious way his wonders to perform," and, rushing in, immediately composed the immortal hymn.

The Man With a Cold.

The sympathy given to the man with a hard cold is purely humanitarian. We know, or at least we think we know, that he will not die. We know that he is thoroughly wretched, yet we are equally certain that in three days or so he will be coming upstairs two at a time. This does not comfort him, though he may know it himself. He therefore feels himself an outcast, a pariah. He is cut off from the ordinary human relations. If he so much as kisses his wife or child he is a blackguard, mentally self convicted of it. Nobody loves him, and he may go out into the kitchen and drink cough syrup.—Boston Transcript.

Keeping the Actors Clean.

Some years ago, when playing in Leeds, I started a swimming competition among the members of my company and to encourage them offered as a prize a silver loving cup (won by the way, by the late Edward Lunden). The event apparently created some interest in the town, and a friend heard two men engage in a discussion as follows:

First Man—I say, durst to know this 'ere Terry's given a coop to bes' swimmer I company?
Second Man—Aye. What's that for?
First Man—Oh, I suppose it's to keep them play actors clean.—Edward Terry in Era annual.

Not "a Royal Maggot."

I a royal maggot! I am a soldier, I come from the people, I have made myself! Am I to be compared with Louis XVI.? I listen to everybody, but my own mind is my only counselor. There are some men who have done France more harm than the wildest revolutionaries—the talkers and the rationalists. Vague and false thinkers, a few lessons of geometry would do them good.—Napoleon (Quoted in "The Corsican").

A Friendly Tip.

"My husband always is the severest critic of the gowns I wear."
"Well, judging from what I have heard, he has to go some if he is."—Chicago Record-Herald.

Japanese Logic.

A teacher of English in Japan recently gave as an examination question, "What is a ventilator?" Besides the number of answers that were approximately correct, there were two which indicated that the students must have been absent either in body or mind on the day when the school-room ventilator had been discussed. The first was, "The ventilator lives in the mountains," the second, "Columbus was a great ventilator." When occasion offered the teacher reminded his class that attention and application are requisite for acquiring knowledge and seriously asked them why any one should have given an answer such as the one concerning Columbus. One of the best spokesmen in the class essayed an explanation somewhat as follows:

"Columbus brought new ideas back to the old world; he changed the current of thought and opened a great door into the new and outer world; therefore he was a great ventilator."—Youth's Companion.

Washing Your Hands.

When you go to the washstand and carefully wash your hands with a generous application of soap and hard brush do not think for an instant that your hands are clean. The tenacious microbe refuses to be disturbed and clings to the flesh throughout the whole operation. There are some chemical compounds which will dislodge the busy bacilli to a certain extent, but not entirely. According to the investigations of a medical authority of the Prussian army, the best results in the direction of giving the hands a sanitary cleaning are accomplished by the use of alcohol. A bath of pure alcohol will remove about 99 per cent of the germs. Where it is desired to clean the hands hygienically it is recommended that the hands be not first washed with water, for this will so adulterate the alcohol that it cannot accomplish its work as effectively as otherwise.

MILLIONS OF LIVES.

An Awful Toll Collected by Consumption—Many Unnecessary Deaths.

If people could only understand that systematic catarrh is an internal disease that external applications cannot cure, they would not need to be warned so often about this malady, which, when neglected, paves the way oftentimes for consumption, at the cost of millions of lives every year. Yet catarrh may be cured, if the right treatment is employed.

The only way to successfully treat catarrh is by employing a medicine which is absorbed and carried by the blood to all parts of the system, so that the mucous membrane or internal lining of the body is toned up and made capable of resisting the infection of consumption and other diseases.

We have a remedy prepared from the prescription of a physician who for thirty years studied and made catarrh a specialty, and whose record was a patient restored to health in every case where his treatment was followed as prescribed. That remedy is Rexall Mucuo-Tone. We are so positive that it will completely overcome catarrh in all its various forms, whether acute or chronic, that we promise to return every penny paid us for the medicine in every case where it fails or for any reason does not satisfy the user.

We want you to try Rexall Mucuo-Tone on our recommendation and guarantee. We are right here where you live, and you do not contract any obligation or risk when you try Rexall Mucuo-Tone on our guarantee. We have Rexall Mucuo-Tone in two sizes, 50 cents and \$1.00. Very often the taking of one 50-cent bottle is sufficient to make a marked impression upon the case. Of course in chronic cases a longer treatment is necessary. The average in such instances is three \$1.00 bottles. Remember you can obtain Rexall Remedies only at our store—The Rexall Store A. M. LEINE.
