It will show you that the 1911 model Jackson cars which have been advertised in Scranton papers at 1-2 price by the Gorson Automobile Co., of Philadelphia, are absolutely fakes.

Mr. E. A. Dorflinger, White Mills, Pa.

Dear Sir:-

In reference to the advertising being run by the GORSON AUTOMOBILE CO. of Philadelphia, where they advertise 1911 Jackson cars, we wish to assure you that this is absolutely a fake and that there is no truth whatever in the statements which they make. The facts of this case are that they never had any correspondence with the JACKSON AUTOMOBILE CO.; never bought any cars from them and these machines that they have were purchased from the FULLER BUGGY CO. and were made up from scraps which the FULLER BUGGY CO. had left over last year when they decided to discontinue making automobiles. Any one who examines these cars closely will discover at once that they are assembled from a scrap pile as practically every engine is different and there are no two cars exactly alike. The FUL-LER BUGGY CO. had quite an accumulation of this junk and rather than throw it away they had the opportunity of making it up into cars and selling it to GORSON. GORSON is taking advantage of the fact that MR. G. A. MATTHEWS is a large stockholder in both the JACKSON AUTOMOBILE CO. and FULLER BUGGY CO. and also of the fact that the JACKSON CO. did make cars last year similar to the cars made by the FULLER CO.

We would say however, that any one who purchases one of these cars will get badly stung because, as stated above, they are made out of scraps and have no guarantee whatever attached to them. The JACKSON CO. will prosecute GORSON for advertising these cars as JACKSON'S as they are certainly misrepresenting this matter. THE JACKSON AUTOMOBILE CO. HAVE NOT ANY SURPLUS STOCK and you need not be alarmed that they ever will have. They are one of the best companies in business to-day and are very strong financially. They are also conservative and will never manufacture more cars than they can dispose of at regular list prices.

> Very truly yours, JACKSON MOTOR CO.

Although advertised as genuine, they are not Jackson cars. are made from scraps.
