This will include letters, newspapers, magazines, packages and even "franked" matter. Everything will be counted piece by piece. Postmaster General Hitchcock has for some time been making an effort to reduce the deficit in the Postoffice Department, and it is believed that the recent order is in line with his policy to reduce the operating expenses wherever possible. This will mean a considerable amount of work for the Honesdale office as the mail for 10,000 people is handled in this place every day. AMUSEMENTS.

"The Arrival of Kitty."

Know what repeaters are? One is the political breed that votes early and often; another is the theatrical variety which may not get there early but does get there often. "The Arrival of Kitty" is of the latter class, which is creditable and desirable. As a repeater the Norman Lee Swartout play has a reputation which dwarfs into insignificance that of any ward voter in the land. The public is responsible for it. It made "The Arrival of Kitty" a repeater, and still insists that it shall continue its course, and the public is not to be denied. So this play will keep on repeating this season as it did last, prospering therein and repaying its instigators the length and breadth of the continent whenever it comes. We in this place will the participants in this entertainment, and joyous ones, for "The Arrival of Kitty," with Hal Johnson as Billy Brown, will be at the Lyric on Friday, May 5, when everybody will be on hand to give it the support and encouragement it justly deserves.

"The Confession," James Hallock Reid's great moral play that has created so much talk in New York City is now playing in its third month at the Bijou Theatre. The play while dealing with a subject in a reverent, intelligent manner, does not depend upon that alone for its large audiences of interested spectators. Its powerful dramatic situations, knit together with gripping power, hold Protestant, Jew and Catholic alike, breathless to the end of the play. However, it is the only theatrical amusement that members of the Catholic faith have been advised to attend during Lent. The author deserves immense credit for the reverent and intelligent manner in which he has handled his play.

FOUST REAPPOINTED.

James Foust, Altoona, was last Wednesday reappointed Dairy and Food Commissioner for a term of four years and Governor Tener will send his name to the Senate for confirmation on Monday. Mr. Foust's reappointment was made because of the excellent work he has done at the head of the division, which has made rapid progress since he took hold and which is now known throughout the country. Mr. Foust, who was formerly chief of police of Altoona and coroner of Blair county, has been connected with the division since 1900, when he was made a special agent. Governor Stuart made him commissioner in 1907 and his administration has been characterized by vigor and advance in methods. He was the author of numerous laws to bring about purity of foods and the credit for chasing many of the "doped" products out of the State is due to him. The commissioner is president of the Association of State Food Commissioners of the United States and treasurer of the National Pure Food Officers' Association.

We print dance invitations.
