

THE COUNTY

HAWLEY.

[Special to The Citizen.]

HAWLEY, Pa., May 2.—Miss Blanche Westbrook and Miss Elizabeth Gregg were week-end visitors in Scranton.

The High school pupils observed Arbor Day with appropriate exercises.

William Watta has purchased a lot on the corner of River street and Main avenue, opposite the I. O. O. F. Hall, where he will erect a two-story building to be used for a garage and for housing hardware implements, he previously having rented several different rooms about the town for this purpose at the same time having a large stock in his store.

Dr. Russell Wall leaves this week for Scranton where he will enter the Moses Taylor hospital and begin his professional duties as assistant surgeon.

Mrs. Ella Hittinger will accompany her friend, Mrs. Annie Swingle, to the Electric City on Tuesday where the latter will enter the State hospital to undergo a serious operation advised by her physician, Dr. R. H. Ely.

Ira Resigue and family, Hamlin, also his daughter, Miss Edna, Honesdale, visited with relatives here Friday and Saturday.

Samuel James is recovering nicely from a relapse of his recent critical illness.

Mrs. Annie Decker, who spent the winter with her niece, Mrs. Ray Ammerman, at Wilkes-Barre, arrived in town Wednesday.

Hawley now has twenty-three automobiles. This is one machine for every \$7.74 of our inhabitants. With so many dust raisers on hand the people are getting busy applying oil on Church street from the Eddy bridge to E. L. Schlager's residence. How much farther they will extend this good work remains to be seen.

At Wilsonville William Masten has moved from there to town in a house on Bellemonte Hill.

John Martin, Sr., has moved into a house near Tafton, while Mr. Hope will occupy the house vacated by Mr. Masten.

E. Frisbie has moved into the house near the saw mill built for the sawyer. Farmer Miller is occupying the large house at the watering trough and will keep a number of boarders. It is a house of sixteen large rooms and well suited for that purpose.

Irvin Daniels, Lakeville, has purchased of his father a heavy pair of horses with which he commenced on Monday hauling for the Paupack Power Company.

Exciting Runaway.

George Heichelbeck, driver of the team that ran away last week, said that he was in no way at fault. He was driving home and wishing to make some purchases he securely tied the horses in front of Ewerding's store on the old Wilsonville turnpike. While in the store the horses became frightened, pulling over the tie post and breaking the tie strap and dashing up the turnpike at a terrific rate of speed. Two drivers who were a short distance above saw by the cloud of dust a warning and were able to avoid a collision. William Mordwaune, who was driving towards his home at Uswick, was not so fortunate. The team ran into him, smashing one of the wheels of his wagon. The next one they met was P. J. Keary who was near the gravel bank on his way home. He made an effort to get out of their way but was unsuccessful. They dashed into his wagon, upsetting it and spilling Mr. Keary out and turning his team down an embankment a distance of twenty feet, but fortunately neither man nor team was seriously injured. The runaway team was caught at Wilsonville by Patrick Ryan with but slight bruises.

A fire which started in the neighborhood of Adella on Friday and was sweeping through the woods between that place and Wilsonville, caused a great commotion with those interested in the lumbering business of the latter section. A force of men was hurriedly sent to fight the flames. They managed to head it off on the old Bone Ridge road. Not much damage was done except the burning over of the same piece of wood-land which is burned over nearly every year.

The grading and leveling of the tram road is about half completed. The foreman said that it was to be completed in one month, but owing to the difficulty that he has had in getting a sufficient number of laborers it will now take at least two months. The distance is about two miles or 10,560 feet. He estimated that one man would grade eight feet a day and at that rate forty men would complete the job in thirty-three days. He said his estimate so far was about correct but not having the necessary number of men is what is hindering him from completing the job at the specified time. The engine which will be used on the track arrived on Tuesday. It was shipped from Virginia.

While ex-county commissioner George Hittinger was driving up Main avenue on Wednesday his horse became frightened by an automobile and ran up the street at a frightful pace. Mr. Hittinger being a man nearly 80 years of age did well to manage the frightened horse so well. After crossing the bridge and before reaching the railroad crossing he had the horse under control, but a sudden shriek from a nearby engine gave the horse another fright running him into the bridge, striking with such force that it threw him over the dash board, striking on his head and shoulders. Dr. Voigt found him in a critical condition and advised that he be taken to a Scranton hospital to which place he was taken that evening.

The first ball game of the season was played here on Saturday afternoon between the High school and Ariel team. The result was 9 to 10 in favor of the latter.

SHERWIN WILLIAMS PAINTS & VARNISHES

An appeal to the pride of the owner of a home

Everyone who owns a home is anxious that that home shall make the best appearance possible. Two things are necessary to produce satisfactory results in painting and varnishing a home:

First—A satisfactory color scheme.

Second—Paints, varnishes, stains and enamels of such good quality that they not only give the exact color effect required, but are sufficiently durable to keep up the attractive appearance of the house in spite of the wear and tear of living in it.

These are offered by the *Sherwin-Williams Paints and Varnishes*. The Sherwin-Williams Co. not only make every kind of paint and varnish used for a house and the best quality of that kind, but they make suggestions for the selection of colors, varnishes, stains and enamels, so that any given idea can be carried out, and carried out with the best materials.

You should see to it that when you buy paints and varnishes for your house, or any part of it, or when you give an order to your painter for any painting and varnishing you want done, that Sherwin-Williams Paints and Varnishes are purchased.

In large work it is always best to have a practical painter; but there are many little things about the house that you can readily finish yourself by using Sherwin-Williams ready-to-apply paints.

Come in and have a little paint talk with us. Now is the time to "brighten up" your home for the long winter months. We can tell you the best product to use for any purpose you may have in mind and secure complete finishing specifications for you from The Sherwin-Williams Co., if you desire them, for special work. Our line of Sherwin-Williams Products is complete and we are in a position to take the best care of your paint and varnish requirements.

Read This Letter from the JACKSON MOTOR CO.

To Mr. E. A. DORFLINGER, White Mills

It will show you that the 1911 model Jackson cars which have been advertised in Scranton papers at 1-2 price by the Gorson Automobile Co., of Philadelphia, are absolutely fakes.

Mr. E. A. Dorflinger,
White Mills, Pa.

Dear Sir:—

In reference to the advertising being run by the GORSON AUTOMOBILE CO. of Philadelphia, where they advertise 1911 Jackson cars, we wish to assure you that this is absolutely a fake and that there is no truth whatever in the statements which they make. The facts of this case are that they never had any correspondence with the JACKSON AUTOMOBILE CO.; never bought any cars from them and these machines that they have were purchased from the FULLER BUGGY CO. and were made up from scraps which the FULLER BUGGY CO. had left over last year when they decided to discontinue making automobiles. Any one who examines these cars closely will discover at once that they are assembled from a scrap pile as practically every engine is different and there are no two cars exactly alike. The FULLER BUGGY CO. had quite an accumulation of this junk and rather than throw it away they had the opportunity of making it up into cars and selling it to GORSON. GORSON is taking advantage of the fact that MR. G. A. MATTHEWS is a large stockholder in both the JACKSON AUTOMOBILE CO. and FULLER BUGGY CO. and also of the fact that the JACKSON CO. did make cars last year similar to the cars made by the FULLER CO.

We would say however, that any one who purchases one of these cars will get badly stung because, as stated above, they are made out of scraps and have no guarantee whatever attached to them. The JACKSON CO. will prosecute GORSON for advertising these cars as JACKSON'S as they are certainly misrepresenting this matter. THE JACKSON AUTOMOBILE CO. HAVE NOT ANY SURPLUS STOCK and you need not be alarmed that they ever will have. They are one of the best companies in business to-day and are very strong financially. They are also conservative and will never manufacture more cars than they can dispose of at regular list prices.

Very truly yours,
JACKSON MOTOR CO.

Although advertised as genuine, they are not Jackson cars. They are made from scraps.

Be Sure Your Car is a JACKSON
