SCHOOL DISTRICT IS RE-CREATED

has been established for the past five years. There were graded schools 15 years before that time. Having heard the evidence in the case, the Court ordered that an order be drawn creating the district prayed for. Adjournment was then taken to 2 o'clock when five directors were appointed.

District Attorney M. E. Simons told the Court that "I understand from a member of the Legislature that the great object of changing the districts and abolishing independent districts, in the new school code, was that in the city of Pittsburgh, a number of the annexed portions contained many independent districts, and that they (meaning their representatives) wouldn't consent to the code, until that was put in, viz: to abolish independent districts. It was to satisfy the people of Pittsburgh that it was put in." He also remarked that "This district (meaning the Seelyville independent district) has been established for 42 years. It could have been abolished at any time, if any great injustice had been done to Texas township."
