

CONGRESS WEARY. STILL MORE HEAT

Senators Plan to End Long Session Aug. 1.

MEET HOUR EARLIER DAILY.

Chairman Penrose Expected to Announce Within Few Days Date by Unanimous Consent For Vote on Canadian Reciprocity Bill.

Washington, July 6.—There is a general disposition in the senate to shape business so as to bring about an adjournment of congress not later than Aug. 1.

In line with this plan, the senate has agreed unanimously to meet an hour earlier each day and to remain in session seven hours. The hour of meeting was expressly fixed for 11 o'clock, to remain in session until 6 o'clock.

It is likely that within a few days, Senator Penrose, chairman of the finance committee, will ask the senate to fix a date by unanimous consent for a vote on the Canadian reciprocity bill.

The insurgent senators declare they have no intention to obstruct and with a few speeches yet to come they will be ready for a vote on the Canadian bill.

There is a general feeling around the senate that that body is nearer to an agreement for a vote than has been believed.

Senator La Follette probably will occupy more time than any of the other insurgents. The estimates of the time he will require to deliver his speech vary from three days to a week.

The senator himself is noncommittal as usual. But while his speech may cover several days, it is not likely to be continuous.

The senator from Wisconsin will probably run the speech in sections and there will be time between each installment for other senators to edge in and thus no time will be lost.

Senator Cummins has closed his address. He will probably figure in the running debate from time to time, but will not address the senate again in a set speech on the subject of Canadian reciprocity.

Senator Burton made a notable speech in support of the Canadian reciprocity. He was subjected to a fusillade of questions and his speech occupied more than three hours.

Representative Underwood, chairman of the ways and means committee of the house, conferred with the senate leaders. He told them the house cotton bill would be ready for the senate in about two weeks.

He stated further that the ways and means committee would immediately take up the other schedules of the Payne-Aldrich law and revise them and send them over to the senate.

This work will go on, he says, as long as congress is in session.

WOMAN ROBBER SENTENCED.

Widow Gets Six Months For Looting Mails in New York.

New York, July 6.—Mrs. Mary J. Wilson of Washington was sentenced to six months on Blackwell's island by Judge Archibald for robbing the mails. The woman, who is only twenty-four years old and pretty, excited considerable sympathy.

It developed that she had not committed one offense, but four, two in this city and two in Washington. She worked in substation 244, this city, and stole nine registered letters, taking \$940.

In her defense she told of her husband dying and having to support her four-year-old child, who is with her parents in Washington.

WOMAN'S SACRIFICE FAILS.

Dr. Clemenson Goes to Prison Despite Her Story.

Chicago, July 6.—The sacrifice of Mrs. Anita Schmidt of St. Louis has availed nothing, and Dr. Haldane Clemenson, Chicago physician, has been taken to Joliet to begin serving his life imprisonment for the murder of his wife, who was found dead in their home from chloroform poisoning.

Mrs. Schmidt in her efforts to save Clemenson declared she was with the physician on the night of Mrs. Clemenson's death and that therefore he could not have committed the murder.

Despite this story, the supreme court refused to interfere.

DRAWN BY 160 OXEN.

James K. Vardaman Rides in Spectacular Parade.

Meridian, Miss., July 6.—One hundred and sixty oxen harnessed in eighty spans drew the chariot in which James K. Vardaman rode in the most spectacular parade this city has ever seen.

He has been making a tour of the various towns of Mississippi in the interest of his candidacy for the United States senate. The campaign has been most bitter, and the feeling is at a high pitch.

There were five brass bands in the parade, which was led by a hundred citizens on horseback.

DES MOINES LEADS WITH 106

New York Has 121 Prostrations and Five Deaths—Rain and Cool Wave Sweeping Eastward From Iowa and Nebraska.

New York, July 6.—More heat records have been broken, and the prospect of immediate relief seems slight indeed, unless it comes through thunder showers.

Des Moines topped the list with 106 in the shade, Kansas City and Oklahoma were blistered by 104 degrees and Dodge City and Chicago panted under 102. Pittsburg had 96, Washington 98, Boston 94, Albany 98, Louisville 96 and Philadelphia 94.

Near Calgary, Alberta, it was pretty close to freezing at 34. At Helena, Mont., the lowest temperature was 44 and at Havre 46.

It is raining in western Iowa, as well as in Nebraska, and the cool wave and rain are sweeping eastward and southward.

In New York city 121 persons were prostrated by the heat.

There were five deaths attributed to the heat, thirty-nine cases of sickness, three sudden deaths and four cases of insanity.

Three mad dogs were shot, and there were two attempts at suicide.

Hot weather has killed thirty persons since July 2. The total number of prostrations are 226.

STORM IN NEW ENGLAND.

Connecticut Valley Swept by Electrical Tempest.

Springfield, Mass., July 6.—An electrical tempest, which approached the proportions of a tornado, swept down the Connecticut valley and caused immense damage.

The official report of the weather bureau showed that 5.63 inches fell in Holyoke, where the damage was severe.

Hail fell in some places and bolts of lightning darted in every direction, burning up the old Congregational church in Wilbraham and striking many buildings in other towns.

Two churches in this city were hit, but the firemen saved the structures.

Houses are reported to have been unroofed in many places, chimneys were blown down and groves of trees uprooted.

Chicago, July 6.—The fifth and hottest day of the longest continued hot spell in the history of Chicago blazed over an exhausted city and continued its terrible toll of deaths, prostrations, illness and insanity. Lads Found High Powered Explosive in Schoolyard.

New York, July 6.—One boy was killed and two others seriously injured by the explosion of a bomb left over from a "safe and sane" fireworks exhibition given on the grounds of public school No. 189, Brooklyn.

Joseph Sennell, sixteen years old, and his two school chums, Joseph Grecco, fourteen, and John Grecco, twelve, started to rake over the debris left in the schoolyard after the fireworks display.

Suddenly there was a terrific explosion. The two Grecco boys were bowled over and flung down the sidewalk ten feet or more.

Against a tree was what there was left of Joseph. His right hand had been torn off, and his face had been frightfully disfigured. Nearly every bone in his body had been broken, and his clothing had been almost completely torn from his body. His hat and fragments of his garments were in the tree.

REBUKE FOR LORD MAYOR.

Dublin Corporation Asks King Not to Receive Farrell.

Dublin, July 6.—A turbulent crowd assembled outside the city hall and made a demonstration against Lord Mayor Farrell because of his declaration that, if the corporation failed to tender an address of welcome to King George on his arrival in Dublin, he would meet his majesty and, as a Roman Catholic, thank him for having deleted offensive words from the coronation oath.

The corporation decided to ask King George not to receive Lord Mayor Farrell if he made an attempt to carry out his threat.

It also ordered that the lord mayor's insignia of office should be handed over to the city treasurer.

CAPTAIN EMERSON WEDDED.

Telegram Announcing Marriage Does Not Name Bride.

Baltimore, July 6.—A telegram received from Captain Isaac E. Emerson announces his marriage.

The dead: Anna Craig, eighteen years old, of Olyphant; Mary Craig, twenty-two, a sister; Catherine M. Loughlin, twenty-two; Mrs. Elizabeth Scullen, twenty-four, of Throop.

The six sat at the edge of the pond, where the water is twenty-five feet in depth, and, removing shoes and stockings, began to dabble in the water within reach of their feet.

Anna Craig slipped into the water. Her sister grabbed her and was dragged in.

The girls struggling in the water clutched at those on the edge, and some of the latter caught at the drowning girls to rescue them, with the result that all six were soon fighting frantically to escape drowning.

MARRIED HIS STEPMOTHER.

Two Divorces Necessary in Order to Arrange Union.

Mrs. Doster was divorced from her husband, General W. E. Doster, on June 11, 1911, and her new husband secured a divorce from his wife at Galveston on Oct. 25, 1910. Mrs. Doster's husband is several years her senior, even though he was her stepson. She is about twenty-seven years old and a musician. General Doster is a prominent attorney and one of the wealthiest residents of Bethlehem.

McDonald succeeded in having them released.

On the 27th, this year, there was a great thunder storm a few miles northward from my station, where several times as much rain must have fallen, as I measured here during the whole month.

June Temperature—Highest each day registered from 55 degrees on the 6th, up to 89 degrees on the 11th; average 73.7 degrees, and highest recorded in June for 53 years was 96 degrees on the 28th, 1870. Nine days 80 to 89 degrees; last year ten days 80 to 87 degrees. Lowest ranged from 65 degrees on the 27th, down to 38 degrees on the 14th, 1875. Last year 29 degs. on the 4th. Greatest daily range of temperature 37 degrees on the 9th, 19th, and 22d; and least six degrees on the 5th; average 23 degrees. Last year 23.7 degrees.

Coldest day the 16th, mean fifty degrees; and warmest day the 11, mean 75.5 degrees. Daily mean for the month 62.3 degrees, is 2.3 degrees higher than last year, and 1.6 degrees below June average of 63.9 degrees for 45 years; from 58.8 degrees in 1903, to 69.4 degrees in 1870.

THEODORE DAY, Dyberry, Pa., July 1, 1911.

DIVORCES IN VARIOUS COUNTIES.

Divorces are scarcely ever known to occur in modern Greece. In Hindostan either party for a slight cause may leave the other and marry.

In the olden times the Jews had a discretionary power of divorcing their wives.

Divorces are scarcely allowed in Tibet unless with the consent of both parties and remarriage is forbidden.

In the Arctic region a man who wants a divorce leaves the house in anger and does not return for several days. The wife takes the hint and departs.

If the wife of a Turkoman asks his permission to go out and he says "Go" without adding "Come back again," they are divorced.

In Cochinchina the parties desiring a divorce break a pair of chopsticks in the presence of witnesses and the thing is done.

Rev. Harry J. Rines, wife and little daughter, Sylvia, have returned to Binghamton, N. Y., to resume their evangelistic work again. Mr. and Mrs. Rines have travelled in nearly every state in the union and have crossed the continent many times, but never in all their travels have they found a place to meet their desires as in Northern Wayne. The delightful fresh air and pure sparkling water that abounds in the numerous lakes is one of the most sought after qualifications that the people from the cities are looking for.

The first to float the banner of approval of the Grand Camp convention held at Binghamton, N. Y., last week and to voice the satisfaction of the management of the Order of the Golden Seal since its birth, was Orson Camp, No. 302, by the way of a free entertainment, consisting of music, speeches, songs and refreshments, the entertainment being in charge of A. F. Hine, local secretary of the order at this place. After calling the meeting to order, Mr. Hine gave in well chosen words the account of the work done at the Grand Camp convention. R. B. Craft, a member of the Supreme Council, was then introduced and gave as the first of his introductory a song accompanied by Miss Sara Whipple organist. The Orson band was in attendance and at this time rendered music very appropriate for the occasion, followed with prayer by Rev. W. B. Signor, pastor at this place. Brother R. B. Craft was then called upon to give a history of the order, which was done in a very pleasing manner and in the minds of the hearers placed the order in a very high plane. Brother M. A. Meagher, Kingston, N. Y., special organizer, was called upon for an address which he gave with ease and much demonstration and he seems to be a specialist in this kind of work. He deals purely along fraternal lines and takes no part in any other order either by criticism or otherwise, other than pure fraternal methods of his order. He has been here for several days adding new members to the camp and has been very successful. Orson Camp could cheerfully recommend work needing to be done. Mr. Meagher is a very pleasant gentleman to meet and one that takes unusual interest in the order to which he belongs. At the close of the meeting ice cream and cake were served to the company.
