

AMBASSADOR JUSSERAND.

Who Negotiated Treaty to Assure Peace For France.

Copyright by Harris & Ewing

Washington, July 27.—The negotiations between the state department and the French government for a general arbitration treaty have reached a point which practically insures success.

Secretary Knox has also wired that the United States and Great Britain have agreed upon all the principal questions in the proposed Anglo-American arbitration convention, and the final shaping of the treaty now depends merely on a discussion of phraseology.

On May 17 the state department announced the tentative draft of the treaty as prepared by this government had been submitted to J. J. Jusserand as French ambassador at the same time that it was transmitted to the British ambassador.

The German government now has before it a tentative arbitration treaty draft which was prepared by state department officials. This model draft is the same that was originally submitted to the British and French governments.

TWO INSURGENTS FOR IT.

Brown of Nebraska and Works of California Favor Reciprocity.

Washington, July 27.—In the senate two speeches were made by insurgents in support of the reciprocity bill. Senator Works and Senator Brown advocated the passage of the bill.

Senator Stone of Missouri, a Democrat, defended the reciprocity bill and congratulated the president on having negotiated the agreement.

Senator Kenyon of Iowa, Republican insurgent, went on record in a brief speech in opposition to the reciprocity agreement.

In the executive session of the senate the treaty referring to The Hague for adjudication certain claims arising between the United States and Great Britain was ratified.

BROOKLYN STORES BURN.

Big Furniture Company Sustains Half Million Dollar Loss.

New York, July 27.—Fire starting with an explosion ate its way down through the two top floors of the Cowperthwaite company's furniture store in Brooklyn and did damage to the stock and the jewelry store of William Wise in the same building estimated by the police at more than \$500,000.

Elevated railroad service to Brooklyn and Coney Island was cut off for about an hour, while two-thirds of the trolley lines in the downtown sections of the borough were blocked for nearly two hours.

Judge Shot While Hunting. Bellingham, Wash., July 26.—Mistaken for a mountain lion, Judge Robert Prigmore of Seattle was shot and seriously wounded near Mount Baker by his hunting companion, R. H. Evans, a former law partner.

Bryce Not to Resign. London, July 27.—The foreign office denied a report that James Bryce contemplates retiring from his post as British ambassador at Washington, following conclusion of the Anglo-American arbitration treaty.

Deposed Shah Has Small Army. London, July 27.—Private dispatches from Teheran say that the deposed shah has only a small following, and in financial circles here little importance is attached to his return to Persia.

ATTEMPT TO X RAY A SOUL.

Scientists Will Conduct Search For the "Human Aura."

PHILADELPHIA SCENE OF TEST

Physicians Skeptical of Success—If Soul is Pictured an Effort Will Be Made to See the "Aura" as it Leaves a Dying Man.

H. Clyde Snook, Roentgen ray expert, and Dr. Arthur W. Goodspeed, head of the department of physics at the University of Pennsylvania, have called to London for a minute screen, the invention through which English scientists claim to have obtained a glimpse of a man's soul.

The factory is turning out the remainder of the necessary X ray appliances for the wonderful search, and shortly one of the freshmen of the University of Pennsylvania will be before the X ray while a number of the leading scientists of Philadelphia search his anatomy for the "human aura."

The attempt will meet with international approval, as Philadelphia is accredited with being the leading city in the production of results with the X ray. There are more X ray specialists in Philadelphia than in any city in the world.

Dr. Snook when seen regarding the proposed attempt laughed and remarked rather sarcastically:

"We fear that Dr. O'Donnell of Chicago, who claims he has seen the soul, has been fooling himself. Still, we will withhold our judgment until after we have made a faithful investigation, for we can secure instruments in Philadelphia which are not produced elsewhere."

It is with an unbelieving attitude that the local scientists will begin their work. Both of the men directly interested and other scientists who will assist are of the opinion that some ray of light, some scientific phenomenon or some slight unheard of physical attribute of the human body has been detected and taken for the soul.

When the apparatus for the experiment has been prepared Dr. Goodspeed and Dr. Snook will shut themselves up in one of the laboratories of the University of Pennsylvania with a human subject and begin the work and continue with it until they have proved the truth or falsity of the statement that the "aura" can actually be seen. If they succeed in seeing that which the Englishmen and Dr. O'Donnell declare they saw then the experiment will be pushed to a determination which will settle for the present a scientific question of great weight.

The second stage of the experiment will be an attempt to see the soul as it leaves the body of a dying person. This is claimed to be the time when it is most visible, as it becomes completely separated from the physical parts of the body.

QUESTIONS BY BRYAN.

He Wants Democratic Presidential Aspirants to Answer Them.

That every candidate for the Democratic nomination for president may be put on record, William J. Bryan is starting a crusade to mold public opinion to demand that every candidate shall state his exact position. Mr. Bryan, in the Commoner, starts the movement by printing a list of questions which each candidate is asked to answer. Every Democratic newspaper and especially the country press in the entire country is to be asked to reproduce these questions and demand of aspirants to the presidency that they answer each one without equivocation.

The questions follow:

Do you favor a tariff for revenue only?

Do you favor free raw material and the placing of a revenue duty on only manufactured goods?

Do you believe that in the revision of the tariff the element of protection should be given consideration?

Do you approve of the recent Standard Oil decision, wherein the supreme court "legislated" the word "unreasonable" into the Sherman anti-trust law?

Do you favor the repeal of the criminal clause of the anti-trust law or believe congress should make it clear that all restraint of trade is unreasonable?

Do you favor the income tax?

Do you believe it is the duty of the American people to promise independence to the Philippine Islands immediately and give it to them in the same way it was given to the Cubans?

Do you believe in publicity of campaign contributions?

Do you indorse the labor planks of 1908, strict regulation of railroads, the Aldrich currency scheme, asset currency in any form, establishment of a central bank and a law compelling banks to insure depositors?

ARCHBISHOP FARLEY.

Who is Recovering From Illness Due to Heat Wave.

Photo by American Press Association.

New York, July 27.—Archbishop Farley is recovering from an illness brought on by the recent hot wave, which caused him to leave here hurriedly and take a cottage in the Norwood Park section of Long Branch, where, according to the prelate's present plans, he will remain probably until late in the summer.

He is so much improved that Mgr. Lavelle, who was with him for several days, returned to New York, and Dr. Ferrer has decided to discontinue his daily visits.

A Witty Reply.

On one occasion an important dress rehearsal at His Majesty's theater was prolonged until the small hours of the morning. The company grew very weary, particularly a gentleman who had been with Sir Herbert Beerbohm Tree in a good many productions, but who had never attained to more than a very tiny part.

"What's the matter, Mr. Z?" asked Sir Herbert in his most sarcastic tones. "Are you saving your voice for the rehearsal?"

"No, Sir Herbert," was the retort. "I've never been able to save anything under your management."

Sir Herbert, an exceedingly witty man himself, was so pleased with the retort that the salary of the small part man was raised.—London M. A. P.

CANDIDATE FOR PROTHONOTARY

To the Republicans of Wayne County:

Pursuant to the requests of my many friends in the county and the general understanding three years ago that I should again offer myself as a candidate for the nomination for Prothonotary at the coming primaries, September 30, I would state that after a short start by way of an education in the public schools of Wayne county, I completed a course at the A. M. Chisbro Seminary in Monroe county, New York. My post-graduate course was about thirty years in the school of hard knocks as a farmer and lumberman in Wayne county. Have met many people in the varied relations of a business man and this long experience has enabled me to meet many whom I esteem as my friends and gain at least enough knowledge to appreciate the needs and requirements of my fellowman.

My aim has steadily been to deal honestly, frankly and fairly with all and to dearly cherish all of our country's institutions, and to encourage and assist every true effort

to maintain and advance them. I invite the fullest investigation of my record and with pleasure refer you to the expression given at the polls by my home district three years ago as indicative of the feelings of those who know me best. Although always a resident and large taxpayer in Wayne county, I never asked for office except on the above mentioned occasion when I was defeated by M. J. Hanlan who, though opposed to me, never, to my knowledge, said or did anything detrimental to me. I therefore earnestly request your support and promise if nominated and elected to faithfully perform the duties of the office to the very best of my judgment and ability and in all things observe the spirit of the Golden Rule.

Faithfully yours, WALLACE J. BARNES. 58w10
