# FOUR ARE INDICTED

Two Held For Murder by Coatesville Grand Jury

POLICE OFFICERS ACCUSED.

Judge Butler Scores Citizens of Town Who Helped to Burn the Negro Walker-Eight Others Previously Indicted.

Coatesville, Pa., Sept. 21.-Following the report of the special grand jury Judge Butler issued warrants charging two with murder and two with invol untary manslaughter in connection with the burning at the stake on Aug 13 of Zach Walker, a negro.

Richard S. Tucker, insurance agent who is accused of being the first man to enter the hospital on Sunday night Aug. 13, when Walker was dragged from his bed, and Walter Markwood mill hand, who, it is said, took only an obscure part in the lynching, were indicted for murder.

Policeman Stanley S. Howe, who was on guard at the hospital, and who it is declared, did not exert himself to prevent the crime, and the chief of police, C. E. Umstead, accused of fail ing to perform his duty properly, were indicted for involuntary manslaughter

The grand jury censures the po'tforce, Burgess Shallcross, the Brand, wine fire company and the citizens of Contesville having knowledge of the lynching.

Judge Butler in discharging the jury said: "That more information has not been obtained is no disgrace to you You have shown every one that the law must be supreme. Murder by a mob differs only from murder by an individual because the former is more cowardly.

The jury says Tucker was the leader of the mob that lynched Walker and declares the police chief, Howe and other policemen should have prevented the burning

The four men were arrested and taken to prison at West Chester. The policemen were admitted to ball, the borough treasurer furnishing the bond but Tucker and Markwood, being in dicted for murder, must remain in prison until tried.

In addition to those indicted eight others, three men and five youths, al ready are under indictment.

Smith quotes a statement from address to the law class at Valparaiso university before be became governor. when he said:

"Even though it be written in the statute books, nothing is law unless it is backed up by the sentiment of the people of the community."

## HOLD SHAKER FOR MURDER.

Coroner's Jury Decides Against Man Who Assisted Woman to Die.

Tampa, Fla., Sept. 21 .- "Willful murder" was the finding of the coroner's jury in the case of Elder Egbert B. Gillette of the Shaker colony. He is charged with the murder of Sister Sadle Marchant of the colony, to whom, with the aid of Sister Elizabeth Sears, Gillette administered chloroform following the giving of oplates.

"This was to allay her pain and assist ber out of life that was painful." was the explanation given by the Shakers when arraigned for preliminary hearing before Judge Parker at Kis-

"She asked us to do it," they added. Sadie Marchant was thirty-five years The Shakers say she was in the tast stages of consumption. The doctors who examined the vital parts of the woman when the corpse was exhumed on Sept. 9 say that, aside from tuberculosis in a not far advanced stage, the organs of the woman were in normal condition when she died. Gillette was rearrested and placed in jail, where he will stay until the grand jury decides the degree of murder for which be will be tried.

The report of the coroner's jury made no mention of the Sears woman, who was held under \$2,000 bond.

# CANADA VOTING.

Fate of Reciprocity Being Decided Today.

LIBERALS FEAR CITY VOTE.

Greatest Campaign In History of Our Northern Neighbor Ends, and People Are Deciding Future Polloy of Government.

Ottawa, Ont., Sept. 21.-Canadian nerves are stretched to the snapping point over the result of today's election. Turning out a government involves such vast political changes, so many ambitions are killed and so many new ambitions are roused that sutirely aside from the importance of the acceptance or rejection of reclprocity the election appeals directly to the interests of a vast number of

Sir Wilfrid Laurier made a whirlwind finish in Montreal. At least 70,000 people attended this meeting. Sir William Van Horne's antireciprocity meeting was well attended, but as an audience getter he proved vastly inferior to the prime minister. The Liberals frankly admit that they are afraid of the city vote and the vote in the industrial centers. They expect other large towns and are pinning their hopes to the farmers and fisher-

Level headed Liberals are inclined to cut down their estimates of the majority by which the government gencies after election has taken the place of guessing on majorities. It is conceded that no matter who forms the next government one of the first Governor Marshall's commencement things to be done will be to pass a redistribution bill based upon the census just completed, by which the Atlantic on one ship. The first cabin west will get a greatly increased representation in parliament.

#### TAFT WATCHES RETURNS.

President Intensely Interested In Canadian Election.

Marquette, Mich., Sept. 21.-With the close of his visit to Marquette. President Taft turned southward to the lower peninsula of Michlgan, to Illinois and the states beyond the Mississippi, where, next week, he will invade the real "insurgent country."

Mr. Taft is anxiously awaiting the outcome of the Canadian elections today. Until then he expects to say nothing further on recipr ity, although he is in a part of the country intensely interested in that subject.

While he has said little about the elections, it is believed that he expects the Canadian government to be sustained, insuring the passage of the reciprocity bill through the dominion parliament.

The Olympic sailed from Southampon, bound for New York by way of Cherbourg and Queenstown. She sailed with the largest list of first class passengers that ever started across the passengers numbered 742, twenty-four more than her best previous record. Among them were between twenty and thirty American millionaires. Some thing like \$250,000 had been paid in passage money. All told there were nearly 3,000 persons on board.

The mishap will upset the White Star chedule for a time or until the broken nd damaged plates can be replaced.

The Olympic will be sent under her wn steam to the big dry dock there. It is unlikely that she will be able to get back to Southampton under two vecks. Her passengers will be transerred to other steamers which sail rom Liverpool and London. The impense cargo of the Olympic except hat which is perishable may be kept board until she is ready to sail again.

The Olympic is the biggest ship in ommission. She is equalled only by her sister, the Titanic, which is affont, out not in service.

(Concluded from Last Week.) All right, let us make an exposure in the nice light dining room, with its bright red rug, and bright red wall paper—two seconds exposure should be plenty. Well, what is the matter; used same speed and same stop, and the light was just as good as In that whilte room, and we as in that whilte room, and we have a bad under exposure. Could the color of the rug and wall paper have had anything to do with it? You guessed right. Anything red in color has the power to absorb a great portion of the light rays that would have any effect on your film—you know your days room. know your dark room lamp is fitted with a ruby glass. With the white with a ruby glass. With the white walls you are aided by the light reflected back from their surfaces in just about the same proportions as your other exposure was lengthened by the absorbing them. ed by the absorbing power of the red walls and floor covering.

red walls and floor covering.

Now let us try two further experiments. We will take our subject outside again, on the shady side of the house, but where we can obtain direct illumination from the sky. To our eyes, this location would seem to require a longer exposure than the one in the room with the white walls, but let us try an exposure of walls, but let us try an exposure of 1-10 second. This develops up about normal. Now as a final experiment let us move our subject up on the veranda, just far enough back so that the direct light from the sky cannot be utilized. The il-lumination appears to be just as good here as the previous exposure, to be on the safe side let us try two exposures, one of 1-10 ond, the same as for our last outdoor exposure, and one of 1-2 ond; once more we are surprised, as the 1-10 second exposure is very much under exposed, and the onehalf second could have been increased to one second without danger of much overtiming
