

GET HEARING IN SCHOOL CASE

(Continued From Page One.)

secretary was authorized to advertise for bids to build the high school, the same to be opened September 4, 1911.

Also the entry of September 4, 1911, when it was decided to open the bids. At that meeting the contract was awarded to the lowest bidder, Elmer Chapman, Lake township, the amount being \$5,675 which included the cost of installing a steam heating and ventilating plant. His bid was accepted, L. C. Bartley was retained as architect at a fee of \$50, and the secretary authorized to close the deal with the contractor.

Mr. Magargel then testified that the contract was made, and that some work was done by the contractor. An entry dated August 13, 1909, showed that at a special meeting of the school board it was decided to purchase a two-acre lot from George W. Fielding at a cost of \$2100.

When cross-examined by Attorney Lee, Mr. Megargel said that five directors were present at the meeting when the motion for the erection of the building now under construction was carried, three voting in favor of it, and no votes being cast against it.

He also stated that printed notices of the high school proposition were prepared and tacked up around the township. The structure was to be a two-room building with a basement. It was to have two stories, and the dimensions were to be 32x40 and not to exceed a cost of \$5,250.

Mr. Megargel also said that he sent notices in the form of a letter to each voter in the township informing them of the election.

Judge Searle here read from the new School Code the provision that a majority of the board must vote for a new school building. "It does not now appear," he said, "that a majority ever voted to build a school house."

W. W. Kizer was the third witness called. He testified to knowing the location of the proposed new high school building. It was east of the M. E. church, he said, adjoining the church lot, and from 400 to 600 feet from the corners. He swore to seeing the excavations recently made. Of them he said: "It seemed quite wet where they dug out. It was all filled up with water and water stood on the natural surface of the ground."

In his opinion a man could scrape out the amount of ground excavated in a couple of days.

"I saw some sand lying there," he continued, "probably eight or nine loads. It looked as though there might be three or four loads of concrete blocks lying there. I should say there was from 700-1000 feet of lumber there."

Mr. Kizer stated that he had no school children. He denied having been one of the parties who made the proposition to the school directors that if they would remove the high school building 1/4 of a mile down the road nearer to Varden, he would withdraw his objections, but admitted that he was present when the proposition was talked over to make the school directors an offer that if they moved the school site down the road it would be dryer. Also if it was moved down the road to Varden the other schools could be taken up and put with it.

Attorney Greene then made a motion that the petition signed by 140 residents and taxpayers of South Canaan township be admitted for the purpose of making them parties with the seven plaintiffs who brought the action against the school directors, and for the purpose of showing that the plaintiffs make up a large majority of the qualified electors of the township. The Court allowed the motion.

Secretary Megargel was recalled to the stand and questioned by the Court. According to Mr. Megargel's testimony the meetings of the school board were generally called by the president. The regular meetings were called for some particular purpose. No calendar of meetings for the year was made up. The meeting in June was a regular meeting fixed by the Act of Assembly.

Reference was made by the Court to the new School Code which provides that all school boards shall have specific times and places of meeting, and shall meet at least once in two months.

According to Mr. Magargel all the school directors in South Canaan are connected by telephone. He stated that the assessed valuation of Canaan township is \$274,600.

Attorney Lee asked whether any one present in the Court House had a copy of the notice of the election sent out to the taxpayers. No one had. The witness stated that they were printed in Honesdale. He also declared that the building was to be paid for by borrowing money, and admitted that the question of issuing bonds was never submitted to the people. The Court called attention to the fact that at the meeting when three voted for a school house and the others didn't vote, the project could not have been legally carried, as the Code provides that a majority of the Board must vote for it.

The hour of noon having arrived, court was adjourned until 2 p. m. When court convened in the afternoon Secretary Megargel was called to the stand by Judge Henry Wilson to identify the plans and specifications of the school building for the purpose of showing it had been approved by the State Board of Education as required by the Code. Attorney Greene objected to their admission as the object of this hearing was to inform the Court whether or not this injunction can be continued until a hearing can be held. He was overruled.

The first witness called was Dr. Alex. M. Cook, president of the school board. He testified that he lived in South Canaan about 400 to 500 yards from the new building.

Since June, 1911, he has acted as president of the board, being elected to that office at the June settlement, when all the members were present.

"Those meetings," he said, "were all called by telephone. I'd telephone around whether we can meet or not. I generally told them what was on hand when I talked to them over the phone. W. R. Shaffer was present at the June, 1911, meeting, and it was a perfectly regular meeting. All were present. Five voted for it, and one sat quiet and didn't vote at all; viz. E. D. Spangenberg, Loren Fielding, Chas. Hetsel, H. L. Megargel and myself. W. R. Shaffer sat quiet and didn't vote at all."

"I lived there in sight of it," he said in response to a question as to the desirability of the location, "for nine years. I really believe it's the highest point in the neighborhood of Canaan Corners. There's fifteen to twenty feet fall down the hill in a distance of 80 to 90 feet."

"As far as the sanitary condition and dampness, I'd say it was as good as any in Wayne county. In Wayne county there is no ground sanitary without it's being made so. The old school house was very unsanitary."

Under cross-examination by Attorney Greene he said, "I was appointed a director to fill a vacancy of a director who moved to Kansas. I have been a resident of South Canaan township, eight or nine years."

E. D. Spangenberg, a member of the school board since June 1910, swore that he was present at the meeting of June 5, 1911, when the whole board was present. "Five of us," he said, "voted for it, and the other member had nothing to say whatever."

Three measurements, he declared, viz. 548, 522, 584 feet respectively, were taken to show the distance from the hotel property to the school building.

For the information of the Court he gave a list of the schools in Canaan township, their location and attendance, as follows: 1. South Canaan; 48 scholars; 2. East; 40 scholars; 1 1/2 mile E. from the Corners; 42 scholars. 4. Union; 2 1/2 miles north of South Canaan; 13 scholars. 5. Spangenberg; 2 miles north from South Canaan, a little off the North and South turnpike; 22 scholars; 6. Curtis; 3 miles N. E. from South Canaan; 13 scholars. 7. Layton; three miles E. of South Canaan; 13 scholars. 8. Hemlock; 1 mi. S. of So. Canaan. 17 scholars. 9. Batz; 3 3/4 E. South Canaan, 13 scholars.

Under cross-examination by Mr. Green admitted voting in favor of a high school although he knew that the majority of the electors voted against it at the February election. Loren Fielding, South Canaan, a member of the school board, who lives 1/2 mile from the proposed new school building, said he was present at the meeting in June, 1911. The lot was purchased of his brother. It was about the highest point they could get, and slopes two ways. At the June meeting, all the directors were present; five voted to build the school, and the other didn't vote either way.

Under cross-examination he stated that the building was on the north side of the road running East to South Canaan, and would face South. The road, he said, was not worse than any of the other roads. The north and south roads he said, drift more than the East and West roads.

Charles Hetsel, who has lived in South Canaan for 41 years, one mile from the proposed school building, a member of the board, testified to being present at the meeting in June, 1911. The full board was present, and five voted for the school; the other didn't vote at all.

After some discussion respecting the status of the cause, and the future proceedings, counsel for the directors offered to file an answer 30 days, that a final hearing might be had at a time to be fixed by the court; Mr. Greene promised to file a replication, that the cause might be put at issue.

Judge Searle then stated that he would continue the case until such time as the defendant filed an answer, the plaintiff to file a replication, and then the case will be put on for hearing.

"Of course," he said, "if the case is continued, that will continue the injunction."

Court adjourned at 2:58 p. m. in ample time to permit the 100 men and women who had come down on the morning train to attend the hearing to return home with the 4:40 D. & H. train.

Hawley, Pa., Oct. 17. Much sadness prevails among our townspeople. Mrs. Cecelia Langan, a highly esteemed and long-time resident of this place, died at her home at the Eddy Wednesday night from a paralytic stroke with which she was stricken about a week ago. She was 78 years old, had reared a large and interesting family. Miss Cecelia, the Church street milliner, and Miss Nellie, the obliging and efficient clerk in the local postoffice for many years, were her daughters who with one son, Chauncey, are the survivors in the lonely home. Another daughter, Mrs. Carlson, of this place, and other children out of town survive her.

Mrs. Langan was a widow. The funeral will be held this Monday morning from St. Philomena's church.

The death of Mrs. Roecker, wife of Carl Roecker, who conducts a bakery on Church street, was a shock to the community on Saturday afternoon. The deceased underwent a very serious operation a fortnight ago and her life was despaired of for several days and the end came after the news had went about that she was improving. Mrs. Roecker was a devoted wife and mother and by her sweet disposition and courteous treatment of the patrons of their confectionery and bakery store won the friendship of all with whom she came in contact. Her immediate survivors are a husband and four young children. Her eldest child, a daughter, preceded her to the grave only a few months ago. We extend sympathy to these bereaved ones.

A banquet followed and an address by Dr. Cooke, also, W. S. Pattison gave a very touching address on "Man to His Fellowmen."

We notice there is some little dispute over in Scranton because the voters at the last primary election nominated a minister, the Rev. Dr. Odell, for school director. We can not see anything wrong with that as most of the other nominees who are bankers, can attend to the financial part while the minister can direct the moral and educational part.
