EXTEND TAFT TOUR

President Will Visit Tennessee and Kentucky.

SPEAKING IN BUTTE TODAY.

Present Trip Will Be Longest Ever Taken by a President-Out of the South Until After Election In November-Back In Washington Nov. 10.

Ogden, Utah, Oct. 19.-A new mileage record for a presidential trip will be set by President Taft before he returns to Washington. To the 13,000 miles of the present schedule Mr. Taft has decided to add some eighteen days

Additions to the itinerary include a day in West Virginia, four days at Hot Springs, Va., for a rest, two or three days at his home in Cincinnati and a tour through Kentucky and Ten nessee. with probably a stop in Virginia on the way to Washington. This will delay the president's return to Washington nearly three weeks, bringing him to the White House about Nov. 10, a little more than two weeks before the opening of the regular session of congress.

In that time he will have to prepare his message on departmental and other governmental affairs, for his plans for tariff revision on the report of the tariff board on Schedule K, which is to be ready for congress upon its convening, and put his house in order generally for the arduous work of the coming session.

The tour of Kentucky and Tennessee was contemplated when the itinerary for the present trip was under consideration. The lateness of the adjournment of congress last summer, however, forced the president to shorten his trip; also he was advised by Henry Watterson of Louisville to postpone his visit to Kentucky until after the elections had been held there in November, lest his visit might be construed by the Democrats to mean an interference in state politics.

Details for the trip through Kentucky and Tennessee have not yet been arranged, but Secretary Hillis is in touch with the persons in charge of his visit to the various towns.

Butte, Mont., Oct. 19.—The president arrived here at 10 o'clock this a. m. Stops of a few minutes each were måde at Ogden, Logan and Brigham City. Utah, where the president made short talks to the crowds who welcomed him. Most of the route since Tuesday has laid over the sage brush and cactus lands of Nevada and Utah. The railroad officials placed some of the members of the president's party in the engine cab in the trip through the "Devil's Playground" and the "Funeral Range" in the Mojave desert.

CLAIMS TO BE BOOK AGENT.

Pittsburg Officials Say That Woman and Husband, on Pretense of Selling Books, Enter Homes and Business Houses to Give Safe Blowers Information.

Pittsburg, Oct. 19.-Mrs. William E. Baldwin, a prepossessing little book agent, and her husband are in custody here, both accused of being the brains of the notorious automobile bandits and safe blowers who have pillaged throughout western Pennsylvania for many months.

That the pair led dual lives, stalling by day as book agents to lay lines for the night attacks by the safe crackers, is the charge made by Police Superintendent McQuaid.

Thousands of circulars have been rushed throughout the country for the arrest of Thomas Monahan, Harry Wilson, alias "Sheeny Harry," and Harry Diehn, notorious safe crackers, whose Bertillon records are to be found not only in every big city in America, but in England, France and Germany as well. They are said to be remnants of the old Mickey Gleason gang, which, it is said, even made an attempt to raid the ministry of finance in France.

That this gang has operated in other parts of the United States within the past year is the belief of the Pittsburg authorities.

Five safes were blown around the city limits of Pittsburg in three months, and in each case the safe was drilled with the electric current from light bulbs, blown with nitroglycerin, and the plunder carried off in an automobile, in which a woman was one of the figures.

Baldwin was arrested in Brookville, Pa., by Inspector Walsh and Detectives Wills and Differe and brought to this city.

The petitioners say they have examined the disintegration plan and find it "fundamentally defective" and that its approval would not "in any substantial sense restore free competitive conditions in the tobacco industry and would "seriously and prejudicially affect the business interests of your petitioners and of the general independent tebacco interests of this country."

FIERCE BATTLE IN HANKOW.

Rush 2,000 Marines to Aid of Imperial Land Forces.

London, Oct. 19 .- An account from Hankow says that Admiral Sa Chen Ping at dawn landed 2,000 marines to re-enforce General Chang Piao, who has only 1,000 men, strongly intrenched north of Hankow. The revolutionaries who have been seriously menacing Chang Piao's troops were immediately attacked with vigor, and at the same time the imperial gunboats in the Han river opened fire.

Two of the heperial gunboats were badly damaged, and it is reported that they are in a sinking condition. The gunboats made ineffectual reply to the firing from the shore, and as the rebel fire threatened to annihilate them they executed a dangerous maneuver and took refuge behind the foreign flotilla.

In the meanwhile the land fighting was fierce, though not decisive. The revolutionaries made repeated attacks upon the trenches, but were repulsed each time with heavy loss. Scores of wounded were brought to Hankow and treated at the Red Cross hospital established in the foreign concessions. Hitherto the concessions have been in no danger, but as a precautionary measure landing parties have been sent ashore from foreign warships.
