WEDNESDAY, DECEMBER 6, 1911.

President Taft's message to Congress will be found in to-day's Citizen. It contains many good points. Read it.

What is your attitude toward dividing Honesdale into election wards? The columns of The Citizen are open for criticism.

In the opinion of State Health Commissioner Dixon the shopper's judgment is clearer in the morning and better able to make decisions involving matters of taste and economy.

There is no reason why able-bodied men should not shovel or hire their sidewalks shoveled after a fall of snow. We know of instances where the snow lies unmolested, save for being trod upon, from the time it falls until nature removes it. This is a violation of the borough ordinance and the violator should be fined.

AS TO AMERICAN POTASH.

Farmers in this country will be much interested in the report that comes from Washington to the effect that rich potash deposits, said to be great enough to supply the needs of the United States, have been discovered in the West by scientists of the Department of Agriculture. This discovery will mean a saving of \$12,000,000 a year to this country, as heretofore the United States has been spending about that sum annually to buy its potash from Germany.

GLOBE YARN STOCK SELLING FAST.

The Greater Honesdale Board of Trade is elated over the sale of stock of the Globe Yarn company, an advertisement of which appeared in last Friday's Citizen. The Board announced that thirteen thousand shares of stock, par value \$10, non-assessable, were for sale. Four hundred and fifty shares have been disposed of, leaving twelve thousand, five hundred and fifty shares to be sold. Many have signified their willingness to take stock and we hope that soon we will be able to announce that all the shares will have been sold.

The business is already established and is past its experimental stage. It is, however, "up to the people." The Board of Trade has accomplished its part—it now remains with the townsfolk and Wayne counteans to do their share. This can be done by subscribing for the stock. A share of stock ought to be taken by everybody in Honesdale.

Do not delay in your subscriptions. If the sale continues as rapidly as it commenced it will not be on the market many days. Take advantage of your opportunity.

ACTION OF McNAMARAS UNPRECEDENTED.

The confession of the McNamara brothers is unprecedented. James B. McNamara pleaded guilty to the murder in the first degree, Friday, and his brother, John J. McNamara, secretary of the International Association of Bridge and Structural Iron Workers also entered a plea of guilty to having dynamited the Llwelllyn Iron Works in Los Angeles on Christmas Day, 1910.

James B. McNamara's confession clears up absolutely the tragedy of the explosion and fire which wrecked the plant of the Los Angeles Times and caused the death of twenty-one persons. For nineteen of these deaths the McNamara brothers were indicted and J. B. McNamara was on trial specifically for the murder of Charles J. Haggerty, whose body was found nearer than that of any other to the spot where the dynamite was supposed to have been placed.

The example set by the McNamaras is disgraceful. They were honored by and looked upon as men of reason and intelligence, but have since fallen to the lowest possible depths much to the chagrin of Union leaders. The action of the McNamara brothers has left a blot upon the pages of unionism that will take a long time to erase.

DESERVES SUPPORT OF THE COUNTY.

The Woman's Auxiliary to the Wayne County Hospital Association deserves the united support of the community in its effort to raise the desired funds for a hospital. It not only needs the support, but should be given the hearty co-operation of the public. The movement is a commendable one and the officers are to be congratulated for the zealous manner in which they are conducting the campaign for raising money. To those in authority we would suggest to keep persistently and everlastingly at it. Exemplify to the residents of Honesdale and Wayne county that sufficient money can be raised for a hospital. By this exemplification you will clearly demonstrate that great character force—stick-to-it-iveness—which has never failed if given sufficient latitude.

We admit that the ladies have undertaken a grand project, but under their supervision we feel that it will be a success. Women have accomplished great things in the annals of history. The Ladies' Improvement Association is an illustration of what can be done in our own community by concentrated effort. It is an example of all work together for the improvement and betterment of conditions. Many of the members of the Hospital Auxiliary are associated with the Improvement Association. That the hospital movement will be a success is evinced by this fact. The Citizen is in favor of the hospital agitation and will do all in its power to encourage and help those prominently identified in attaining the necessary capital that a hospital may be built in Honesdale. Success to the project.

MORE BLESSED TO GIVE THAN RECEIVE.

At this time of the year our thoughts are diverted from the usual business cares to the joys and pleasures of the holiday season and how we may best enjoy ourselves. We have experienced Thanksgiving's blessings and now look forward to Christmas. In our happiness, however, we do not want to forget those who are less fortunate than ourselves. All homes, for one reason or another, will not be as happy this year as they were upon former occasions, consequently it remains with us to do our part, humble though it may be, to help make some of the less favored ones happy.

It is true that there are a number of people living in Honesdale and vicinity who are in dire need of help. Old age has overtaken them and their physical conditions are impaired. Rheumatism, palsy and other maladies have fastened their grip upon them and incapacitated them for work. While tears were in their eyes our hearts went out in profound sympathy for them as they recently related their afflictions to us.

Some might say this is an inopportune time, now that Christmas is so near. Not so. The giver of charity would be blest and his blessing could be used to better advantage now. The churches, individuals and other organizations are doing much for charity, but there is no special society devoted exclusively to that kind of work. To this end we claim Honesdale needs an organization of this character. An Associated Charities, organized for this specific purpose, is necessary.

We have in mind the heads of two families, who by unfortunate circumstances are unable to work and we take this means of presenting their worthy and pitiable conditions before the public. We speak in words of highest praise for them and hope that our readers will substantiate the evidence by liberally remembering within the next two weeks these aged people. Let us lay aside a little of our Christmas money and establish a fund for sweet Charity's sake, remembering that "It is more blessed to give than to receive." We will be happier and richer on Christmas morn for our donation. Money orders or checks may be made payable to Citizen Publishing Company, Honesdale, Pa. The Citizen will act as trustee to receive and present the offerings to the needy families. Money in any denomination will be acceptable. Contributions may also be left at 953 Main street. All monies received will be presented to the cause for which it is solicited. The names of the contributors will be printed in The Citizen and an account showing the disposition of the funds will be made.

Christmas Cautions

How To Prepare Holiday Packages to Send Through Mails.

Already Christmas packages for foreign lands are being received at the Honesdale postoffice. When sending articles through the mail a few simple rules should be remembered. Here they are:

First—Wrap your article in paper strong enough to admit of several handings with ink in the lower right hand corner, or if ink is not available, use a good pencil and write plainly. Put your name and address in the upper left hand corner so your package may be returned if the address is rendered illegible.

Do not put writing in with other matter unless you wish to pay letter postage. You are permitted to use "Merry Christmas," and "Happy New Year" but no communications of any sort.

When articles are to be registered you must have your name and address, (street number will not suffice) and the name, street number or rural number, town and state of the person to whom you wish to send the register. Take your package to the stamp window, have it weighed, affix the stamps and always wait for your receipts from the registry clerk. If you wish a return receipt you must endorse it—fee in any case is 10 cents in addition to the regular postage which is as follows:

First class—All written matter with ink or typewriter, 2 cents for each ounce or fraction.

Second class—Includes all newspapers, periodicals and magazines, 1 cent for each four ounces or fraction.

Third class—Printed matter of all kinds—books, pamphlets and pictures—1 cent for each ounce or fraction.

The government has affixed a penalty of \$10 for each offense where articles of a higher class are included with those of lower class and an attempt made to send them through the mails at the lower rate.

A word about post cards may give you the reason why your last card did not reach your friend. Cards with tinsel or like substance must be enclosed in an envelope and securely sealed and 2 cent postage affixed, otherwise they are sent to the dead letter office. On the address side you are permitted to use one-half the space and no more, for correspondence. If this rule is not observed the card is held for postage, which is 2 cents.

When using the transparent envelopes affix the stamp to the envelope and not to the enclosed card.

Every week post cards as well as other articles addressed to children are sent to the dead letter office because no street or rural route or parents' name is given. The best plan in sending mail to children is to address it in care of the parents or persons with whom they are staying.

COSTUMES AND SCENERY.

Over \$5,000 Invested in These Items by Le Brun Company.

Over five-thousand dollars are invested in the costumes and scenery used by the Le Brun Company which is to appear here soon in a program of grand opera. One of the gowns which Madame Le Brun wears is completely covered with solid silver spangles, imported from Paris and cost \$500.

The costume used by Mr. Huttman in "Manrico" in "Il Trovatore" weighs forty pounds. Every piece of metal is gold washed including the helmet and the sword scabbard. The cloth in this costume is a heavy quality of satin, embroidered with gold lace. The hauberk, outside of its gold metal trimming, is made of solid cloth of gold.

Miss Bear's gown used in "Il Trovatore" is made of robin blue tapstry, embroidered in gold laurel wreaths, trimmed in ropes of pearls. One of Mr. Deane's costumes is in scarlet velvet and satin, embroidered in gold. The boots for this suit are made of suede leather and dyed the color of the costume by Capezio—note theatrical shoe maker.

The swords used were made especially for this company of real Damascus steel. Mr. Deane and Mr. Huttman are both proud of these swords and often double them together to the delight of sword experts.

In the production, especially "Il Trovatore," Madame Le Brun wears several thousand dollars worth of jewels.

Special scenery is carried for everything. The scenery used for "Cavalleria Rusticana" depicts a typical Italian country village scene in the immediate vicinity of where the story actually took place. The picture was brought over by Mr. Huttman and he used this painting as the original of the drop-curtain in this act.

BEACH LAKE.

[Special to The Citizen.]

Beachlake, Pa., Dec. 5.

How true time and tide wait for no man. Here we are in the last month of 1911. Sometimes we do say "Make me a child again just for to-night." The years seem much longer in childhood days.

Thanksgiving day being past our next holiday will be Christmas, the day of all days, the best, and the most looked for; how we enjoy those little tokens of love sent by our friends at Christmas time; how carefully they are kept in remembrance of the giver. Do we accept the greatest of all gifts as thankfully as we should?

We are informed all the ailing ones are better. Friends and relatives of Mrs. R. L. Woodley are pleased to learn there are hopes now for her recovery.

The pastor and wife were absent Sunday. They attended the funeral of an aunt.

BOARD OF TRADE BULLETIN.

The stock of the Globe Yarn company is selling rapidly. Inquiries are made every day by prospective purchasers and from the interest manifested it looks as if the stock will not be a drug on the market. W. W. Wood, industrial agent of the Board of Trade, has charge of the sale of the Globe Yarn company stock. A share costs only \$10. Surely there are a number of Honesdale and Wayne county young men who will help get a new industry in town. The opportunity afforded one that should be taken advantage of. The industry has passed the experimental stage and is now doing established business. The Board highly recommends the Globe Yarn company stock as a safe investment.

CAN'T CURE CATARRH

Stomach Dosing, Sprays and Douches Have All Failed.

There is only one way to cure catarrh.

Reach the raw, tender, inflamed membrane that is infested with catarrh germs, and destroy the germ. You can't reach the nooks and crevices with liquid preparations; there is only one way—breathe the antiseptic germ killing air of HYOMEI (pronounce it High-o-me) directly over the infested parts.

HYOMEI contains no opium, cocaine or other harmful drugs. It is made of Australian eucalyptus, thymol and other Listerian antiseptics. It is guaranteed to end the misery of catarrh, asthma, croup and bronchitis, or money back.

Ask G. W. Pell about the HYOMEI outfit to-day who sells it for only \$1.00 and guarantees it.

HELP HONESDALE'S INDUSTRIES

THE GLOBE YARN COMPANY

CAPITAL STOCK - \$25,000.00
2,500 Shares - Par Value \$10.00

STOCK NON-ASSESSABLE.

13,000 SHARES ARE NOW OFFERED FOR SALE

This Company to be Incorporated Under the Laws of the State of Pennsylvania.

The Company is to take over the business of the Globe Yarn Company (a limited partnership company) now doing a business of \$30,000 per year, and showing a profit of .077 per cent on gross output. A careful examination of the books and accounts of the concern, and a conservative appraisal of the equipment shows that under careful management, proper facilities for manufacturing, and proper working capital, the concern can earn on the most conservative estimate, a net profit of 10 per cent. on the gross output, and the output can be increased within a year to \$50,000.00.

The goods manufactured are a staple article, that sell very readily, and without the aid of expert salesmen; in fact the demand through the mails exceeds \$50,000.00.

There are no secret processes of manufacture which would disturb the business through death or change of management. Ordinary intelligence and active application of labor and careful and wise management is all that is necessary to produce successful results.

Sufficient stock will be sold outside of Wayne county to pay for the proper equipment, machinery, apparatus, vats, etc., so that the above \$13,000 can be used mainly for working capital.

No salaries will be paid to officers of the company; the officers to serve without fee or reward until the stock is earning and paying at least 6 per cent.

No better or safer investment has been offered to the people of Wayne county.

The interest of the stockholders will be safeguarded by home people, and the progress of the company will be heralded to the stockholders from time to time so that they may be in close touch with the business.

The \$13,000.00 worth of stock will be pooled and held in trust by trustees selected by the stockholders so that the control of company will remain in the hands of home people.

Subscribers to stock will not be called upon to pay until subscriptions to the entire \$13,000.00 has been received, when a call for 10 per cent. will be made, and balance will be called for as needed.

It is desired that every person in Wayne county interested in the industrial prosperity of Honesdale shall subscribe for one or more shares.

Do not wait until our solicitor calls upon you, but send a postal card to W. W. Wood, who will call and explain more thoroughly all details connected with the enterprise.

There will be no stock bonus, watered stock, or commission paid for selling stock. Every dollar subscribed will go into the Treasury, and be used in the development of the business.

Now Mr. Banker, Mr. Merchant, Mr. Storekeeper, Mr. Clerk, Mr. Workingman, and Mr. Farmer, if you are interested in the industrial uplift of Honesdale show your interest by taking just as many shares of this stock as you can.

Help Honesdale To Grow, and You Yourself Will Prosper!

The name of every subscriber to this stock will be kept prominently before the people in our home papers, and we believe that the profit that will come to the subscribers in Trade and appreciation will more than counterbalance the amount they pay for stock.
