Guard the Family Health

Health is often endangered by unsanitary cooking utensils. Physicians have found that cancer is caused by enamel ware chipping off and irritating the stomach.

If you have children or invalids in the family beware of cheap cooking utensils that crack, scale, peel off, tarnish or rust. Disease germs lurk in the worn places and there is further danger of tainting the food. Health is too precious to take risks with it.

Be safe. Use

"1892" Pure Spun Aluminum Cooking Utensils

which are guaranteed for 15 years constant service and will never spoil food nor endanger health.

This new ware is featherweight, beautiful, easy to clean—does not tarnish nor rust. The slight extra cost is more than made up by long service and absolute safety.
