"This year in the second of th will be for the American League, which I believe is going to have the prettlest and closest rave in its his-tory. I think that of least six of tory. our clubs will be up in the fight for the flag until the last few weeks of the season, and then I look for a Garrison finish between the three leaders."

Athletics Are All Signed.

Phifadelphin -- Clarence D., better known in base ball circles as "Lefty" Russell, last week signed a contract to pitch for the Philadelphia American league club next season. Russell, who was secured by Connie Mack from the Baltimore club of the then Eastern league, two years ago, was in poor shape last season and

only took part in a few games. With the signing of Russell all the players on the "Athletic" team have grounds an extension of territory in which the forward pass may be used. 2-A zone of ten yards width be-yond the goal lines is established. A igned contracts and are ready for spring practice; which will be held at purpose of this is to provide ample space for execution of the forward San Antonio. It was feared by Manager Mack that the outbreak of menpass, and scoring on a pass made ingitis in Texas would interfere with across the goal line into this zone is his plans, but investigation proved this to be groundless.

First United States League Bulletin

Out. Reading, Pa., Feb. 13 .- According to the first official bulletin, issued by William Abbot Witman, of this city, president of the United States league of baseball clubs, the "slavery" of ball players will be abolished in the new league. Contracts will be made with players for from one to three years at the players' option. There will be

93 YEARS OF LIFE FOR ALL

Dr. Wiley Saya Adoption of Mygienia Measures Will Bring Them.

Every citizen should have an expec tation of ninety-three years of healthy happy life, according to Dr. Harvey W. Wiley, chief of the chemistry bureau, who in a recent address came out as a strong disciple of Dr. Wu Ting Fang in his longevity doctrine. He made a plea for state and national control of the public health.

"By preventing contagious and preventable disenses, particularly among infants under one year of age," he said, we can rulse the average expectation of life from the present thirty-three years given us by the mortality tables to fifty-three. Personal hygiene and care will give us the balance.

"That it can be done is shown by the Panama canal. The French failed not because of lack of engineers, ability workmen or machinery, but because of disease. We made the zone sanitary before work was started, and now Pap ama is a health resort. The death rate is almost nothing.

"It has been the same way in the army. Japan taught the world a les In previous conflicts many more BOID. men died of disease than from buildes. "Most diseases are avoidable. In the near future all of them will be, 1 prophesy that in twenty five years we will be able to fight cancer as farelligently as we now fight fever. In the meantime we will stop the infant mortality, which is almost invariably due to some form of malnutrition, when the habe . deprived of natural food."
