BOARD OF TRADE MEET.

The Greater Honesdale Board of Trade held its February meeting last Friday evening in the City Hall with a good representation present, President F. W. Kreitner presiding.

After the reading of the minutes regular routine business was transacted and reports of various committees made.

Treasurer Deitzer reported \$260.42 on hand. Dues amounting to \$67 had been received since the last meeting.

President Kreitner then appointed new standing committees for the year 1912 as follows:

Soliciting and Site—C. T. Bentley, Chairman; S. T. Ham, Ambrose Whalen, J. J. Koehler, G. William Peil, W. J. Yerkes, L. C. Weniger.

Main and Transportation—C. A. McCarty, Chairman; W. J. Birdsall, C. E. Bates, John Erk, C. J. Smith.

Membership—R. J. Murray, Chairman; Rev. Dr. J. W. Balta, M. J. Hanlan.

Finance—M. J. Hanlan, Chairman; P. E. L. Blumenthal, Chairman; Dr. L. E. Nielsen, E. B. Callaway.

By-Laws—M. E. Simons, J. B. Nielsen, C. E. Bates.

Street and Highways—J. D. Weston, Chairman; C. P. Searle, S. A. McMullen, Jr., F. W. Schuerholz, William Katz.

W. W. Wood, scout for the Board, made a complete and concise report on the Globe Yarn company.

R. J. Murray, representing the committee on the Gurney Electric Elevator company, reported favorably.

The committee on the Honesdale Union Stamp Shoe company stock, reported progress. The Board was informed that there is only 40 shares of preferred stock unsold and the possibilities are that they will be sold within a few days.

This stock pays a dividend of seven per cent. Instead of putting a strenuous effort upon out-of-town industries, it was expressed at the Board meeting that it is our duty to first give aid to the home concerns.

The committee in charge of the sale of the shoe company stock is composed of M. E. Simons, chairman; G. William Peil and Charles T. Bentley. Any party desiring to subscribe for stock can give his subscription to any member of the committee or buy it from G. P. Ross, who is secretary-treasurer of this growing company.

The coal proposition was brought to the attention of the Board, but as the Business Men's association is working along this line the Board left that organization's committee to continue an investigation.

The matter of better freight service on the D. & H. was mentioned and referred to the mail and transportation committee of which C. A. McCarty is chairman.

The secretary was instructed to send final statements of dues to all members in arrears over six months.

The matter of better freight service on the D. & H. was mentioned and referred to the mail and transportation committee of which C. A. McCarty is chairman.

A Theater Cohorse.
A theater manager at Temesvar, Hungary, has inaugurated the curious plan of selling tickets according to the stature of the purchasers.

The Coconut Palm.
The coconut palm has one peculiarity. It never stands upright.

Gas In Coal.
Ten thousand cubic feet of gas can be produced from one ton of coal.

She Lives the Longer.
According to insurance figures, when the wife dies first the husband will survive nine years, but when the husband is first to go the wife survives eleven years.

Hams and Bacon.
The English claim that the reason why their Wiltshire hams and bacon are better than ours is that we feed hogs on corn, whereas they feed them principally on skim milk and barley meal.

Colors From Coal.
Coal produces pigments of more than 490 colors.

Smallest Parrot.
The smallest full grown parrot known is two and a half inches long. It was sent to the British museum by members of an expedition to New Guinea.

Choosing His Trade.
The future occupation of children in infancy is determined by chance, for the infant is seated in a large sieve with various articles indicating the different professions, and the first thing he touches is to be his trade when he grows up.

Eskimo Doctors.
The Eskimo gives his doctor a fee as soon as he comes. If the patient recovers the fee is kept; if not it is returned.

The Nile and the Ganges.
The Nile is 3,400 miles long, while the Ganges is less than 2,000 miles in length. The Nile for the last 1,200 miles of its course does not receive a single drop, while the Ganges all through its course is constantly re-enforced by tributary streams.

Illiterate Turkey.
Only one-half of the population of Turkey can read and write. Five per cent of boys and 1 per cent of girls attend elementary schools.

Hose of Olden Time.
In the very long ago hose were not stockings as now worn, but made long and were often drawn up even to the waist, and oddly enough, had pockets in their sides.

Paper Rifle Barrel.
A rifle barrel has been made from paper, and through it a bullet has been fired.

Kitchen Alarm Clock.
One housekeeper has prevented many a burned roast or overbaked cake by setting the alarm clock to the proper time to open the oven door.

Starlight.
The total light emanating from all the stars is equal to 2,384 times the luminosity of a star of the first magnitude.

Plant Development.
Many well known plants have been developed from specimens discovered in various parts of the world, and there is no doubt that a number of charming novelties are still lurking undiscovered in remote spots.

The Pincushion.
It was somewhere about Queen Elizabeth's time that the pincushion came into vogue. Then it was a positive thing of beauty adorned with exquisite needlework and painting.

Swiss Postoffices.
With one postoffice for each 852 inhabitants, Switzerland is the best supplied country in that respect in the world.

Time of an Eclipse.
No eclipse can ever last more than seven minutes and fifty-eight seconds. That is brought about only when the sun is as far from the earth as it ever gets, and such a combination of events will occur only once in a thousand years.
