It is quite unusual to be able to buy fifty cent pleces for a quarter, but that is what this offer really means for it is only recently through the solicitation of Druggist Cole that this medicine could be bought for less than fifty cents. Mr. Cole urged the proprietors to allow him to sell it at this reduced price for a little while, agreeing to sell a certain amount. The result has justified his good judgment for the sale has been something remarkable.

Anyone who suffers with head-ache, dyspepsia, dizziness, sour stomach, specks before the eyes, or any liver trouble, should take advantage of this opportunity, for Dr. has been employed as a machinist for almost ten years and his many friends will wish him good luck in your money.
