Just what the directors are going to do with the school question is still a conundrum, but will probably get together and come to some understanding in the near future. We realize that the office is far from being a pleasant one to hold, particularly at this present time. If there isn't any honor in it, what is there in it? But a school board must expect to face these disagreeable things and not flunk. The effort being put forth to reduce expenses is not alone with Hawley, but we see the same being tried in many other places. A very good suggestion is made public by one member of the school board, i. e., to let the objectors who want the school expenses reduced and want a change in the management get the signature of the owners of one-fourth of the assessed valuation of the property, then the board will consider their demands.

WILL TEST NEW ARMY SHOE.

Seventh Regiment to Go on One Hundred and Twelve Mile March.

An entire regiment, the Seventh Infantry, will tramp 112 miles in the near future to put to practical test the "modified shoe," a new type of army footwear evolved by a board of officers appointed to investigate innumerable complaints against the shoes now issued to soldiers. On the march, which will be made from Fort Leavenworth, Kan., one third of the men will wear the "modified," one third the regulation marching shoe and the remainder the present garrison shoe.

The board will be along to see the test of its theories upon every conceivable variety of feet.

If the new shoe should be adopted considerable economy would result. Instead of having to buy different shoes for garrison, marching and dress the soldier would get along with a pair of black and a pair of tan shoes of the same kind.

Surgeon General Blue and Secretary MacVeagh suggested the plan, which will give Early a total income of \$95 a month, and President Taft consented to it.

BRICK OF ST. PETER'S STOLEN

Valuable Relic on Exhibition in Chicago Only One In America.

A brick which for seventy-five years was a part of the walls of St. Peter's, Rome, and which was recently loaned by J. B. Combs of Philadelphia to his brother, R. M. Combs of Chicago, was stolen recently. A man had been stationed especially to guard the treasure. At the time when there were only a few persons near the guard left his post for a few minutes, and when he returned the brick was gone.
