## National President of Federation Looks For Peace.

### CONVENTION IS HELD TODAY.

Declares That He Believes That When Men Realize Their Position They Will See Things In Different Light-Should Not Repudiate Their Leaders, He Says.

Wilkesbarre, Pa., May 14.-National President John P. White arrived here to preside at the convention of the anthracite miners which opens today. White is hopeful that the organization will stand back of him and sanction the efforts of the subcommittee to bring about peace.

President White met in the Hotel Hart the tridistrict executives. He told them that as leaders they had a Braman, Bible class teacher; Mrs. G. plain duty to perform in going among H. Ham, Intermediate, and Mrs. H. the men and enlisting their services in M. Crosby, primary; Mrs. G. H. Ham a vote for the ratification of the agree and Miss Edna Toms, organists; Mrs. is a duty of the tridistrict board to frame a report for the convention. This was done. It is a part of the board's duty to submit a report in which the convention is asked either to accept or reject any agreement. President White refused to tie any strings on the report, and while the convention will be informed that the subcommittee, composed of national and district presidents, signed the Brook road, are recovering from an agreement it will be up to the men to attack of measies.

Authors Khenr's children, on the bers providing that officers who refuse to accept a challenge to a duel shall not be dismissed from the army take final action.

#### White's Presence Beneficial.

White's presence has had a good effect, and when he gets before the convention and informs the men that they are holding their own interests at stake in the casting of their ballots it is believed that the delegates will fall into line and ratify the agreement.

President White said: "I am here fully confident that the delegates at this convention will realize the'r positio. I believe they will come to the conclusion that the committee received the greatest concessions possible without resorting to a strike. I look to see this convention determine for itself whether the concessions offered are what the men are willing to accept and whether they are not the best that could be gained now. I do not believe that 'he men want to repudiate their leaders."

### TOWN WITHOUT FIREMEN.

#### Will Let Whole Town of New Kensington Burn Before They Assist.

New Kensington, Pa., May 14.—This town is temporarily without a fire department, the volunteer organizations having notified the borough officials that they will not respond to alarms. The department held a street carnival last week to raise funds for the purchase of new supplies. There were several dancing shows on the mldway which offended the moralists of the town and through their efforts these were closed.

This interfered with the financial success of the affair and angered the firemen. The carnival came to an abrupt end, and the firemen vow they will let the whole town burn before they will lend any assistance.

### GIFT MAY CAUSE ROW

#### Cyrus H. McCormick's \$25,000 Present Is Stirring Princeton. Princeton, N. J., May 14.-The whole

university world is talking of the gift of \$25,000 which Cyrus H. McCormick, '79, has just made to Eddie Hart's decide. Mr. McCormick is known in the business world as an officer of the

championship football team, to be disposed of as the members of the team harvester trust, but he is better known at Princeton as the father of Cy Mc-Cormick, '12, the giant right guard on the team that won the football champlouship of the east for the first time since John De Witt led his eleven to victory in 1903. So far as campus gossips were con-

cerned the chief speculation was on the way in which this gift would be looked upon by the university authorities. Although President Hibben has repeatedly voiced his sympathy with the athletic development of the college it was believed by many that he might look askance upon what is called the "capitalization of a winning team."
