There is a movement on foot to construct a macadam road from the state road leading to Gouldsboro over the old plank road as far as the village of Tobyhanna, by the Scranton Auto club. The road would mean much to the section over which there would be considerable traffic at certain times of the year, especially. The road would be about five miles in length and the cost of its improvement as planned, would be in the neighborhood of \$15,000. A petition has been circulated in Gouldsboro township and has been signed by about ninety per cent. of the property holders there. The understanding is that the road's construction plans shall permit of township residents going over it free of toll; the outsider to be charged a nominal toll to make up the cost of the road's construction in some years' time.

Mrs. Sallie Shireman, residing at Maytown, who is one of the many poultry fanciers in that section, three weeks ago set a chicken with fifteen of her eggs and to her surprise there are now walking about sixteen fine, healthy chicks. Never in the history of the oldest residents in that section has this occurred. Many eggs hatch deformed twin chicks that die in the shell, but these are the first two that lived. The brakeman escaped with a few scratches. The boy was the son of a Russian emigrant who moved to Canton several days ago. His mother witnessed the accident.

LIVE SPORTING NOTES.

Eddie Murphy is putting up a great offensive game for Baltimore in the Eastern league. He made four hits out of four times at bat in two successive games recently.

Eddie is headed for the major leagues and it looks as if he was going to make it in the near future.

Fred Sherry is playing the outfield as well as pitching for Allentown. Fred has quite some ability with the stick, and can fill in at the "outworks" very acceptably.

The World's Champion Athletics have been playing an inferior article of ball thus far and will have to take a strong brace very soon if they expect a chance to repeat. Mack's pitchers are in bad condition.

Home Run Baker of the World's Champs, has not been hitting in his usual stride. Baker, Bender and Coombs will have to get going soon if the White Elephants have any hopes this year.

Owner Ed. Coleman of the Scranton team has at last woken up to the fact that he has to spend a little real money and get some real ball players if he expects to have a chance with the other State League teams. At the present writing he seems to be making an honest effort to bolster up the weak spots and the Scranton people are looking for a 1, 2, 3 team this season.

Those "Giants" look like 1912 world champs if they can keep up their present pace. Of course it's a little early for predictions but we can predict as near now as we can four months from now.
