

NAVIGATORS MEET.

International Congress Opens In Philadelphia.

TO BE IN SESSION FOR A WEEK

Delegates From Many Nations and Others Representing Corporations All Over the World Will Take Part In Discussions—Army Officers to Preside.

Philadelphia, May 23.—American army officers will be among the presiding officers of the sessions of the twelfth international congress of navigation, which will be opened at the Metropolitan Opera House here today. Delegates from many nations and others representing corporations all over the world will take part in the discussions, which will last a week.

Brigadier General Charles W. Raymond, U. S. A., retired, and Brigadier General William H. Bixby, chief of engineers of the army, were elected presidents of the general bureau of the congress at a meeting of members of the permanent international association of navigation congresses, under whose auspices the congress is meeting.

Alfred Noble and Colonel John Bogart, both of New York, were named as presidents of the first section, which will discuss questions relating to inland navigation. Colonel H. F. Hedges, U. S. A., assistant chief engineer for the isthmian canal commission, and Elmer L. Corbitt of New York will preside at the other section of the congress, which will consider ocean navigation.

President Taft, Governor Tener and Mayor Blankenburg will welcome the delegates to the congress. The wreck of the Titanic, which it was thought would have a prominent place in the discussions of the congress, will not be placed on the program, members of the committee expressing the view that the disaster was more a question of "internal management than of international navigation."

MULE KICK RESTORES SPEECH

Dumb Boy Finds He Is Able to Talk After Alighting.

Philadelphia, May 23.—Michael Lozika, seven years old, had the power to speak kicked into him by a mule.

Several months ago the youngster fell and after the fall was unable to utter a sound. The boy was playing in a lot back of his home. A mule had been turned out to graze and Michael decided to examine his hind feet.

Suddenly the mule let fly and Mrs. Lozika saw her son go hurtling through the air. She ran to him expecting to find him dead, but he greeted her with "Hello, ma, I ain't hurted."

Several surgeons have been unable to make the boy talk.

BANKS LOSE THEIR APPEAL.

Will Not Share In Distribution to American Trust Depositors.

Harrisburg, Pa., May 23.—The supreme court upheld in a per curiam opinion the decision of the Dauphin county court that a number of Philadelphia banks which held checks against the American Trust company should not be considered as depositors in the distribution of funds.

The banks contended that they were entitled to preference, as they had checks issued by the company in payment of checks issued against deposits in its possession. The banks appealed from the decision of the Dauphin court, and the appeal is dismissed.

Clark, who was conductor of an ash carrying car, was almost instantly killed on Nov. 29, 1908, when the trolley pole fell and struck him on the head.

CHARLES W. MORSE IS HOME.

Ice King, Paroled as Dying Man, Apparently All Right.

New York, May 23.—Charles W. Morse returned from a stay of three months in Europe greatly improved in health. He is almost the Morse of the days before he got into financial difficulties which led to his imprisonment in the federal penitentiary at Atlanta, from which he was paroled by President Taft.

When Morse was released from prison he was carried out, and when he left New York on Feb. 14 last he could not walk without assistance. He was quite nimble in making his way about the ship and pier. A slight but noticeable limp had nothing to do with his illness, for that limp has been part of Morse's movements for many years.

Morse and his wife were on the passenger list as "Mr. and Mrs. Morris." He said this listing was the fault of the booking agent in Paris. The accommodations on the ship were engaged by telephone and the spelling of the name was phonetic. After reaching the ship Mr. Morse, finding himself booked as Morris, saw no reason to disclose his real identity, which was not known even to the purser.

Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work.
