It is plain that the Roosevelt forces hoped by instituting a great number of contests, and then making the demand that only those holding uncontested seats should vote on matters of organization, to control the convention. It was a clever scheme, skillfully planned and urged with great force, but it did not work out. Chairman Root's ruling against it was absolutely correct and parliamen tary. And because it did not work out we have these unwarranted attacks upon the integrity of the convention.

The sum and substance of the matter is that the Roosevelt party made a great tactical fight and lost. The most important Democrats have insisted morning, noon and night that Col. Bryan, was really a candidate himself for the nomination and they are illustrating their argument to that effect by recalling that on Sunday, when Col. Bryan as well as all others became convinced that Speaker Champ Clark was defeated for the nomination, mainly by Col. Bryan's efforts, Col. Bryan issued a statement in which he announced that Senator Kern of Indiana, Senator James of Kentucky, Senator Culberson of Texas, Senator Rayner of Maryland or Senator O'Gorman of New York would be entirely satisfactory as a progressive candidate for the Presidential nomination in this
