# STORM KILLS THREE

Cloudburst Does Much Damage at Pittsburgh.

#### STORES AND HOMES INUNDATED

Bridges Are Torn Away and Houses Moved on Their Foundations-Firemen Dive Through Five Feet of Water to Attach Hose to Fireplug.

Pittsburgh, July 23.—The loss of at least three lives, cattle and horses drowned, industrial plants flooded, stores and homes inundated, was the toll exacted in this section by a cloudburst and terrific rainstorm.

Thousands of dollars of damage was done to industrial concerns, farm cross were rulned entirely, and trolley and rallroad service was impaired. Bridges were torn away and houses moved on their foundations.

Many narrow escapes from death were reported. Perhaps the most spectacular feature of the day's occurrences was the action of the Turtle Creek firemen in diving through water five feet deep to attach a hose to a fireplug.

The dead: Hester Young, aged seventeen, daughter of William Young of Canonsburg, drowned in Carter's creek, near her home, when she fell into the stream; Lando De Tolo, aged ten, son of Alfredo De Tolo of Connellsville, fell into Connell creek at Connellsville while watching the flood and was drowned; Louis Forsythe, aged seven, New York, July 23.-Three children son of John Forsythe of Ruffsdale,

### JAPANESE BLOWN ASHORE.

Strange California Shipwreck Worries Immigration Officers.

Washington, July 23.-The case of five Japanese sailors who sailed from Japan in a little junk, the Sumiyosi Maru, and were blown clear across to California is worrying immigration officers. The Japanese were shipwrecked near Delmar.

They were arrested on a charge of having entered the country without inspection.

#### HOT DAYS OF HISTORY.

July, 1734, Unlike Any Month Before or Since,

According to a Philadelphia historian, the eighteenth century still holds the record for summer heat in that city. It was long before men consulted the weather bureau to know what sort of day to expect. They likewise were denied the delights of comparing the various temperatures of the cities of the country.

This memorable summer was some years before Americans decided to set up in business as a nation. According to some musty records unearthed recently, the month of July, 1734, was unlike anything before or since in that city in the matter of solar heat. It is recorded that many persons fell in the streets of that city because of the high temperature and that eight of these persons died.

The quaint record goes on to say that many men in the harvest fields were prestrated, that a number of the torrid rays of the sun.

Four years prior to this-1730-a number of deaths from heat also oc- singled to left field and Whalen curred in Philadelphia. The chroni-put out going to second. Walsh cler of this weather of colonial days went to first on Dudley's error. writes that 1724 was known as "the hot summer year."

### BILL FOR "PURE CLOTHES."

Murdock Wants to Protect Purchasers From Misleading Claims.

A bill for the manufacture of "pure clothes" and prohibiting the sale of "impure clothes" was introduced in the house by Representative Victor Murdock of Kansas.

If the Murdock bill becomes law manufacturers of wearing apparel will have to advertise the precise class and quantity of material used in the goods they offer for sale. For example, if a concern markets woolen goods it will have to specify just how much wool and of what grade and how much cotton or other inferior fabric are contained in the cloth.

Mr. Murdock said that many people are imposed upon in purchasing goods by the general statement that they are "pure wool" or "pure linen." He proposes that the word "pure," which is of great value to the seller, shall give way to a specific term.

Woman on State Ticket,

The Socialists of Rhode Island established a precedent by the choice of a woman as the party's nominee for secretary of state at the election next November. The candidate is Helen Dougherty of Providence. She is the first woman to run for state office in Rhode Island, where, although women are not allowed to vote, they are qualified to hold elective offices.

Bishop Tuttle's Record. Bishop Tuttle, the presiding bishop of the Protestant Episcopal church, has been for twenty-six years the diocesan of Missouri, forty-five years a bishop and fifty years in holy orders.
