Now that the postoffice is in its new quarters in the city hall it has become evident to patrons on the opposite side of the street, that in rainy weather it is very inconvenient to walk around the side walk to get their mail. Work on the assessment of Honesdale borough, which should have been started some time ago, has been held up by the borough assessors for the reason that there is a question of doubt as to which of the two aspirants for the office is entitled to serve. A decision of the court is pending as to which of the two men, F. J. Varcoe or Bert Dane, is entitled to the office. Mr. Dane was elected to fill the office last November, it being the belief that Mr. Varcoe's term of office had expired. The producer of "Freckles," A. G. Delamater, has spared neither pains or expense in staging this play in the most elaborate style. In the first place there is an environment in "Freckles" which very few plays possess; chances for scenic investiture amazingly natural and picturesque; and when it is understood that Delamater has brought it up to the highest standard of stage production, both from a scenic point of view and by means of a most competent cast, there is a double assurance of merit. Those who have loved the nameless wail for his manly spirit, his light wit, Irish lore, and his beautiful songs; and who reverence "The Swamp Angel" for her beauty and her chaste, womanly character, will meet no disappointment in the play. And that's why "Freckles" is proving still a greater success as a play even than the novel which has been read by over a million souls. At the Lyric, October 28.

Work on Middle Creek Bridge Probably Held up Until Spring.

County Commissioners Earl Rockwell and John Male were in Hawley on Thursday and informed a Times representative that the commissioners had received word that the iron work for the new Middle creek bridge would not be shipped until Nov. 15th. This material was ordered from the Owego Bridge Co., and delivery was promised within sixty days of receipt of order. The sixty days elapsed some time ago and since then the commissioner's clerk has been writing to the company asking about the material and in reply has received only promises. The commissioners, observing that the contractors, Chapman & Bell, would be ready for the iron work this week, wired the Owego Bridge Co. insisting on a definite answer, and in reply were told that the iron could not be shipped before the 15th of next month. This will probably hold up the completion of the work until next spring, as it will be too cold when

the iron reaches here to do the concrete work that will be necessary when the new iron is placed in position. This delay will be very much regretted by our townspeople as the new bridge will not only be a great improvement to our main thoroughfare but a great convenience as well. The contractors now have the abutments finished and will raise the old bridge before the work is suspended. The raising of the bridge will probably be finished this week.—Hawley Times.

W. POLT JR. HELD FOR COURT

D. & H. Detective Shaughnessy Furnishes Information Against Him for Stealing Leather Soles from Durland-Weston Shoe Co.

Upon information furnished by Joseph W. Shaughnessy, of Carbondale, special detective for the Delaware and Hudson company, William Polt, Jr., was charged with stealing, taking and carrying away 20 pairs of leather soles, property of the Durland-Weston Co., from the Delaware and Hudson freight cars.

Shortage in shipments has been going on for some time, the receivers of freight in Honesdale being the losers. The Delaware and Hudson company decided to make an example of guilty parties and sent Mr. Shaughnessy to Honesdale to make an investigation.

Mr. Shaughnessy lodged the complaint before Justice R. A. Smith, Tuesday afternoon, charging William Polt with taking leather soles to the value of \$4.40, property of the Durland-Weston Shoe company and appropriating same to his own use.

The charge was read to Polt, who pleaded not guilty.

Frank Shumway, foreman in the sole leather department of the above factory, testified that there was a shortage in a shipment of soles received about February 12, 1912. He identified a pair of soles shown in evidence as being identical like the shipment received on or about February 12.

Otto Castek testified that the pair of soles offered in evidence was a pair that he had sold to John Boyd and that they were part of several pairs of soles which he had purchased from William Polt.

After testimony was rendered Esquire Smith held Polt in \$200 bail for his appearance at court.

Mr. Shaughnessy, who is prosecutor in the case, did some clever work in the line of detective work and is deserving of considerable credit.

CHILD RESCUED FROM WATER.

Mary, the two-year-old daughter of Mr. and Mrs. Thomas Maronel, of Carbondale, had a narrow escape from being drowned in the Fallbrook river near her home Wednesday night and had it not been for the timely appearance of the mother the child would have surely perished.

The little child happened to get out of the sight of its mother for a few minutes and sauntered toward the edge of the river, which runs near the Maronel home. Several children were playing on the banks of the stream, having a jolly time throwing stones into the water. The little Maronel girl thought she would like to participate and in throwing a stone lost her balance and fell into the water.

The mother, who had been searching all around the house for the child, heard the cries of the baby and the splash of her body as she fell but could not see her until she got close to the edge of the water. The child had been swept down the stream into deeper water and was being sucked about in a small whirlpool when the mother dashed in and grasped the body of the youngster who was then unconscious. The child was being swirled about in water about five feet deep.

Turkeys will be high this year for your Thanksgiving dinner.

This week Friday at 8 o'clock p. m., Arbor Day exercises will be observed in the High school auditorium. The principal subject will be the chestnut tree blight and its remedy. The program will be in charge of the boys of the Sophomore class.

County Superintendent J. J. Koehler attended the local Institute of Manchester township on Saturday. It was held at Braman and all teachers of the township, except two, were present. A preliminary spelling contest was held in connection with the institute.

The spelling contest, which has proven to be very popular this year, will be continued in the future in Wayne county.

In traveling through northern Wayne county the superintendent of schools notes a number of repairs being made on schools. Several have been repainted, others reshunged, new windows cut in and the property adjacent to the buildings given proper care. This is commendable. There ought to be more repairs made. It is a mistake to let school property run down.

The annual teachers' institute will be held in Honesdale November 11 to 15 inclusive.
