INTENTMENT-NOT APATHY.

All Should Remember That Vigilance is the Price of Prosperity.

's contentment; not apathy. The sses of the people are satisfied. The satisfied are a number, large in the gregate, but not large in proportion the total population, who are anxs for a political eruption, in the of coming out on top, or higher than they are now. The malconis are mostly of the nonproductive lety. They include a lot of young ows who hate hard work and think t politics owes them a living, and don't much care what happens vided they land the sinecure they after. Like Colonel Sellers, they for "the old flag and an appropria-

Satisfied as the great majority doubt-

Encourage the creation and propconduct of a building and loan association.

The advantage, and actual necessity of patronizing the local mer-chant, is so well known and has been so frequently emphasized in this department that it requires no raiteration. The main thing is: reiteration. The main thing is: "How can the need for home buy-ing be impressed upon the people?" The board of trade can well under-take this work. It can first of all, stimulate the merchant himself to good business methods, good advertising, the carrying of an ade-quate stock and of its proper dis-play and placing. Mail order buying has made progress in many com-munities because the merchants themselves have done little to turn the public mind to their stores and little to hold trade once secured. The battle for business must be fought out on its merits. People will buy at home when they can buy just as cheaply as somewhere else, provided they are convinced of the fact by good adverising, good sales-manship and good goods. All things being equal, there is a tendency to buy at home because it is more convenient. The mail order houses will overcome this tendency chiefly by better advertising. The merchant is, of course, confronted by the competi-tion of unfair advertising which overstates the quality of the goods and understates the price by failure to take into consideration fraight to take into consideration freight cost, delay and lack of credit con-veniences. To offset this, somebody with the facts; and certainly a board of trade could do this better in an organized way than the individual retailer can in an individual capac-

BEGIN FIGHT

Reports of Chairman of Republican

Party From All Counties Show Remarkable Gains by the

Regulars.

The new County Chairman's League, which is to take up the fight

in Pennsylvania, under the direction of a sub-committee of five, that will

work in conjunction with Congress-

supplies, in its fight for the Repub-

lican ticket throughout Pennsylvan-

The reports of the chairman on the

tion was organized by Lawrence Sebring and James Cunningham, who are avowed non-believers. They opened the meeting with prayer, sang 'Onward Christian Soldiers,' nominated two preachers, closed with the benediction and then went out and laughed about it.

"This man, Sebring, said to me the other day that he prided himself

the other day that he prided himself upon being a character assassin. "That's the kind of Washington party leaders we have up in Beaver. You may mention names and quote me. I stand for everything I say. "Beaver county is good for the whole Republican ticket from top to bottom. We have the finest marching club there in the State of Pennsylvania." County Chairman C. H. Young, of

County Chairman C. H. Young, of Newcastle, and C. E. Carothers, of Washington, assured Congressman Moore, that the twenty-fourth dis-trict, comprising Washington, Lawrence and Beaver counties, was safe for Congressman Matthews and the

full Republican ticket. "We have both a Democratic and a Washington party candidate against him," said Mr. Young, "but when you remember that these same when you remember that these same people were refused two years ago and that Mr. Matthews carried the district by a substantial majority, you can see why we are confident of carrying it by a larger majority now that they are divided. "Free trade doesn't make any hit at all in Lawrence county, because we have the largest tin mill in the

we have the largest tin mill in the world there, and two others that are very important. The two mills in my own town employ 4,000 men, and in addition to that there were four blast furnaces started specially to supply their needs, which employ 2,000 men.

"It is a well known fact that this growing industry which now em-ployes a total of 17,000 men the year round, paying \$10,000,000 a year in wages, was made possible by the Mc-Kinley bill of 1891, which increased the protective duty on tinplates from one cent to two and two-tenths cents a pound. Prior to that time we im-ported 331,311 tons of tinplate and produced none. In 1912 we produced 800,000 tons of tinplate and pro-duced none. In 1912 we produced 800,000 tons of tinplate and imported 2,000 tons. There is no more striking illustration of the value of protective tariff than the American tinplate industry.

'afraid the Lord would have to look crease in Republican strength, due to the prevailing prosperity.

"We were a nttle doubtful about Cambria, in so far as President Taft was concerned," said Mr. Tooxell, "but within the last two or three days we have decided that it is not only possible but entirely probable that the county will go for the Pres dent. I feel sure that Congressman Jesse L. Hartman will be returned to Washington."

WHAT A BOARD OF TRADE CAN DO FOR THE RETAIL MER-CHANT.

In a recent issue, the "American Lumberman" gives some very good ideas concerning what a Board of Trade can do for the reall mer-chant. First of all it urges the retail merchant to enlist in the work of the local board of trade, if no such organization exists, to origin-ate a movement for the formation of such a body. All classes of commercial men are greatly benefited by the work of the board of trade but it is doubtful if any class is any more benefited than the mercantile class, whose prosperity and very ex istence are dependent upon the local community and the attitude of the ople toward the town in which

they live. Some of the ways suggested for the board of trade to help the re-tail merchant are as follows:

Secure proper telephone service. Compel reasonable railroad serv-

Regulate and minimize soliciting 5

Work out a scheme of co-operative delivery.

Secure the best possible postal facilities.

Induce the people of the com-munity to buy at home. Protect the merchant in the en-

tment of ordinances. Make the town the

convention

center of its territory. Encourage good roads and de-mand proper road expenditures. Co-operate with the local gov-ernment in public improvements.

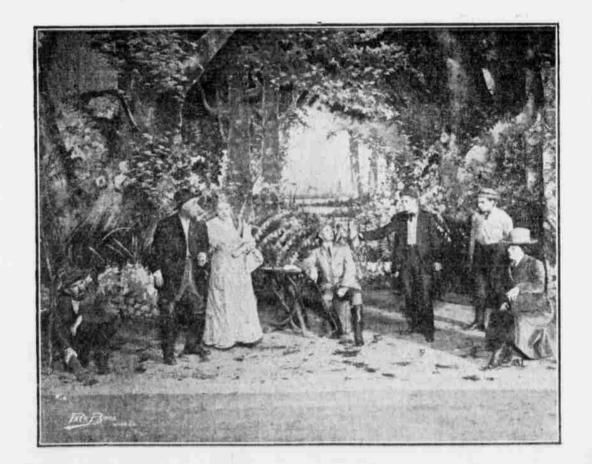

Conduct a campaign for early shopping at the Xmas season. Protect the merchant in the town

against fly-by-night concerns. Secure new industries thereby increasing the buying population. Organize and give impetus and effect to early closing movements. Co-operate in the creation of spe cial days to stimulate home buying,
