or's confidence as a future holder of a portfolio. Some think he is in line for the job of Frank H. Hitchcock. Louis D. Brandeis of Boston looms big in the direction of the attorney generalship.

Mr. Bryan has been mentioned as a future secretary of state. The possibility that he might be was discussed immediately after he put his stamp of approval on the work of the Baltimore convention.

Mr. McAdoo, vice chairman of the Democratic national committee, is also being spoken of for an appointment and, of course, Dr. Wiley, having been a Wilson supporter, is being heralded as the future head of the department where he formerly held forth as a pure food expert of some distinction.

Nevertheless it may be stated that unless he changes much in the attitude he has assumed in New Jersey with respect to appointments, Governor Wilson will name his own official family and will surprise a lot of his advisers when he does.

FIELDER TO BE GOVERNOR.

He Will Succeed Wilson in gubernatorial Chair at Trenton.

Trenton, N. J., Nov. 7.—When Governor Wilson resigns his present office to become president of the United States it is practically assured that his mantle as governor of New Jersey will fall upon Senator James F. Fielder of Hudson county. This presupposes that in the meantime Senator Fielder will have been elected president of the senate, a position which carries with it the acting governorship in the event of the death, the resignation, the disability or absence of the governor.

Should Governor Wilson for any unforeseen reason relinquish his position before the organization of the legislature on Jan. 14 next he will be succeeded by President John D. Prince of the senate, a Republican, who has been sworn in as acting governor fifteen times during the temporary absence of the governor from the state, eliminating all other considerations, therefore, there are ample political reasons for the governor continuing to serve until the state shall have passed into full control of the Democrats.

It is the governor's intention to serve not merely until the legislature convenes, but until a few days before his inauguration, which will cover about two-thirds of the probable legislative session. In that time the governor is expected to make all the important appointments for the ensuing year, so that his successor will have a comparatively easy time for the remainder of the unexpired term, which ends in January, 1914.

Late returns from the election have merely served to emphasize the extent of the Democratic victory and the almost total rout of the Republican forces in every section of the state. Eleven of the twelve congress districts were carried by the Democrats. Five of the six senators chosen are Democrats, and of the sixty members of the house the Republicans will not have more than nine, and some of the assembly contests are so close that even this small minority may be cut down to six or seven.

Taft Has Vermont.

Montpelier, Vt., Nov. 7.—Revised returns for the 246 towns of Vermont give Taft 23,302, Wilson 15,470, Roosevelt 22,155, Chaun 579 and Debs 501. Washington county, including Montpelier, the capital, saved the state for Taft. Montpelier's vote was the strongest Taft vote of any precinct in the state.

T. R. Second in Maryland.

Baltimore, Nov. 7.—Woodrow Wilson has carried Maryland, including Baltimore city, by a plurality of 54,000. Roosevelt runs second and Taft third. The entire Maryland delegation in congress will be Democratic. The total vote in the state for Wilson is 112,122, for Roosevelt 57,079 and for Taft 54,643.

HIGH SCHOOL CONCERT COURSE

Walter Eccles with his "College Singing Girls" will open the Concert Course, recently arranged by the High school and the Lyric management, at the Lyric on Friday, Nov. 22. This attraction needs no introduction to the people of Honesdale, having played an engagement here a few years ago, at the Lyric, giving the very best of satisfaction. Walter Eccles is a whole show in himself and is considered the most clever comedian now under the management of the Redpath-Brockway Lyceum Bureau.

The Concert Course consists of four different attractions, each one having a fixed admission fee of fifty cents, but, by buying a Course ticket anytime before the first number has taken place, anyone may witness all of the attractions for one dollar and a half.

SIX CHILDREN IN 13 MONTHS.

Franklin, Pa.—Six children born in a little over 13 months is the remarkable record of Mrs. Stephen Nogeotte, of Frenchtown, Crawford county. She has borne 15 children in 12 years.

On September 10, 1911, she gave birth to triplets, two girls and a boy, and last week three sturdy boys arrived just 13 months and 20 days after the other trio. The mother, an American, was the belle of an old settlement of French Catholic before her marriage to Nogeotte, a farmer, of French descent, 12 years ago.

The first children came singly; five years ago came twins, to be followed by two single children and then the triplets in 1911.

Wayne County Oak Stoves—Burn Wood or Coal Equally Well This oak stove is manufactured especially for us, after our own ideas and we are mighty proud of it. Most oak stoves are hard to regulate. They either burn like fury or fire goes out entirely. Let us show you how you can regulate our Wayne County Oak. Most Oak Stoves have old-fashioned grates, which are hard to manipulate and very dusty. Wayne County oaks have Dockash grates. And if its a Dockash that's all you need know about a stove. Most Oak stoves have a body made from stove pipe iron that rusts or burns out quickly. The body of Wayne County oaks is made of Bessemer steel, and is practically indestructible. Wayne County oak stoves are carefully constructed, and all openings are fitted with cup joints so that stove is air tight and dustless. All sizes, largest one \$29.00, smallest one \$10.00, others in between. Come in and see them. MURRAY COMPANY Everything for the farm. Honesdale, Pa.
