

BULL MOOSE ALIVE

Prepare to Strengthen Third Party Organization.

WILL FORM LITERARY BUREAU.

Senator Dixon Claims New Party Will Be Entitled to Second Place on Official Ballot in Every State in Union.

Washington, Nov. 7.—Leading Republicans here are interested in developments of the last few days tending to disclose the plans of the bull moose leaders for the future.

In his statement given out in New York Senator Dixon, chairman of the Roosevelt campaign committee, makes clear that he and his associates in the Roosevelt movement intend to go to work at once to hold their supporters in various states and to try to bring in recruits.

After the Next House. It is learned here that satisfactory assurances have been given that the necessary money will be furnished by George W. Perkins and others to carry on the work for the next four years.

The first aim of the bull moose party will be to capture a majority of the next house of representatives. They share the belief that is quite common among politicians that President Wilson's administration will have its troubles before it is many months old.

Senator Dixon's claim that the new party will be entitled to take second place on the official ballot in every state in the Union except five is accepted as rather significant.

It is not to be assumed for a minute that the Republican leaders will remain quiet while the bull moose managers are busy with their propaganda. It has been the rule of both the Democratic and Republican managers to suspend active campaigning following an election in order that business might have an opportunity to readjust itself and the people enjoy a period of freedom from political strife and excitement.

Undoubtedly the Republican leaders expected that a Democratic administration would turn out to be so unpopular that it would restore the Republican party to its former prestige.

It must not be assumed, politicians say, that the Progressive movement will be without its embarrassments. There are some jealousies in that political fold. It is well known that the chief promoters of that party are looking forward to making Colonel Roosevelt the presidential nominee in 1916.

TO FORM MOTOR CLUBS.

Harrisburg, Nov. 7.—The Pennsylvania Motor Federation has issued a statement urging upon owners and users of motor vehicles the advantages of getting together and forming local clubs which in turn will be affiliated with the State organization.

Attention is called to the fact that only by such organization can individual motorists hope to be protected from freak legislation. In the last Legislature four or five bills were introduced for the purpose of placing heavy burdens and vexatious regulations upon motorists.

It is pointed out that the present State highway law is the direct result of the labors of the Pennsylvania Motor Federation.
