THOUGHT FOR TO-DAY.

Luck means rising in the morning at 6, living on a dollar a day if you earn two, minding your own business and not meddling with other people's.

Hon. W. D. B. Alney, congressman of the Fourteenth district, was the principal speaker at the Teachers' Institute at the High school auditorium Wednesday morning.

THE ANNIHILATOR.

We have taken the following from the New York Sun:

We are indebted to our neighbor the Press for the clearest exhibit of the true inwardness of the recent campaign that has yet appeared.

Taking from our neighbor's table the vote for Wilson and combining its figures of the Republican and Progressive votes for Taft and for Roosevelt, we find that the latter exceeded the former in not less than thirty-two States, as follows:

Table with 3 columns: State, Wilson, and Elec. Votes. Lists states from Colorado to Wyoming with corresponding vote counts.

Total electoral votes 358

The remaining States gave majorities for Wilson, according to the Press' table, over Roosevelt and Taft combined. They are sixteen in number, all Southern and border States except California, Arizona and Oklahoma.

It may be said that the combined Roosevelt-Taft vote was larger than the normal Republican vote would have been, inasmuch as it included many thousands of Democrats, otherwise supporters of Wilson, who were drawn away from him by their per-

sonal admiration of Colonel Roosevelt. That is possibly so. It is at least quite as certain that many thousands of Republicans left Taft and went to Wilson because they believed that was the best use for ballots intended to defeat the third term.

Do our friends the Progressives fully understand what the foregoing figures signify; what it is that the Bull Moose leader has done to them?

This is what he has done to them and their cause: He was elected a Democratic President. He has put an end, at least for years to come, to the power of the party to which they recently belonged and in which they might have exercised controlling influence from this time on, as is shown by the excess of Roosevelt votes over Taft votes, amounting to six or seven hundred thousand.

He has postponed indefinitely the triumph of Progressive ideas within a potent and capable organization; that triumph which, from their point of view, would have come about naturally and inevitably through the force of supreme numbers within the party.

BUSINESS ADVERTISING.

A newspaper is a common carrier. It caters to the public wants and demands. Its columns are open to advertisers regardless of creed, nationality, location or sex.

In business we must all watch our competitors. No one man or concern has a monopoly of all the brains and methods. To the business man we say let competition be an incentive to your energy and ambition.

HOW CARBONDALE PAID THE PIPER.

Carbondale, a city of 17,000 population in Lackawanna county, has recently suffered from a smallpox epidemic. A careful compilation of the accompanying loss of business and the expenditures made under the direction of Dr. Samuel G. Dixon, Commissioner of Health, is as follows:

Reduction in merchants' receipts \$60,000. Of this amount 20 per cent, or \$12,000 represented the loss of actual profits, \$12,000; loss to hotel proprietors, 6,500; loss to proprietors of places of amusement, \$4,500; loss in railway receipts, \$3,437; loss in street railways, \$700; expense to the city for guard service, physicians' fees, disinfectants, etc., \$6,567; maintenance of quarantined families, \$2,000; total, \$31,000.

These figures do not include the losses sustained by quarantined wage earners, the loss of the railroad companies on inbound business or

the loss to the smaller merchants and business men through stagnation of trade. \$31,000—a heavy price to pay for a lock on the stable door!

It has been demonstrated that public health is a purchasable commodity. The work of Col. Gorgan in the Canal Zone is an irrefutable example of that fact.

The failure of a community to guard itself against preventable disease is due to incapacity on the part of the officials whose duty it is to protect the public health, parsimony or both.

Carbondale's loss of money and prestige through indifference to the administration of her public health affairs, affords an example of the results which follow failure to realize that able and effective public health work is something which pays huge dividends.

PUT RETURN CARD ON YOUR PARCELS.

Uncle Sam Will Not Carry Them Unless You Do.

Distinctive parcel post stamps must be used on all fourth class matter mailed after January 1, 1913, and all such matter bearing ordinary stamps will be treated as "held for postage."

Parcels will be mailable only at the postoffice, at branch offices, at lettered and local named stations and at such numbered stations as may be designated by the postmaster.

Parcels not bearing the return card of the sender will not be accepted. The foregoing regulations governing the parcel post, which is to go into effect January 1, 1913, have been received in Honesdale from the Post Office Department in Washington.

According to the department's plan, fourth class packages will be delivered to any house, but a package to be mailed must be taken to the postoffice, a carrier station or to one of the contract stations selected to receive fourth-class matter.

Each receiving station is to be provided with a new pair of scales and a six-foot tape measure. Unless the tape can be wrapped around the package "both ways" it will not be accepted; and it must not weigh more than 11 pounds.

DATES FOR INSPECTIONS OF GRAND ARMY POSTS.

Inspections of the G. A. R. Posts at Waverly and Lake Como, Wayne county, took place Saturday with members of the local post acting as inspecting officers.

BOTTLED MILK AND BOTTLED GERMS.

Milk is put into bottles in order to keep it clean and free from germs. Impure milk is responsible for most infant mortality and often for the spread of typhoid fever, diphtheria, scarlet fever and tuberculosis.

There are hundreds of milkmen, however, who fill the bottles in their wagons instead of at the dairy. They hold the bottles over the milk can, thrust the long dipper into the milk, and then pour the milk into the bottle allowing the excess milk to drain back over their hands—the same hands that have been holding the reins, taking care of the horse and accumulating all sorts of dirt.

Find out how your milkman bottles his milk. Point out to him that it will pay him to serve clean milk. No one wants to buy dirty milk and in proportion as the milkman's goods are high class, his customers will increase.

THOUGHTS ON OREGON.

I went one day to an Oregon stream And gathered from stem and bough These beautiful blossoms that idly lay, All withered beside me now.

I know that these flowers were fair and sweet, But I would have given them all For a handful of the daisies white That grow by the meadow wall.

And Oregon's valleys are broad enough To tire a wild-bird's wing, But I prefer to rest myself By the long-loved eastern spring.

I loved its mountains that rear and climb To the silent vast unknown; But I love far more the Eastern hills Snow-draped 'mid Winter's gloom.

I know that the sun has a brighter shine, As it travels the broad skies through But I love the pearly drops of rain Though the skies be not half so blue.

And I know that its valleys stretch away, Laden with harvest gold, But I love the eastern fields of grain Though not mine to keep and to hold.

BALKAN WAR IS SUSPENDED.

Turkey Opens Negotiations With Allies Looking to Peace.

London, Nov. 14.—The end of the Balkan war is in sight.

Turkey has opened negotiations directly with the allies, having found her appeals to the great powers futile, and should no insuperable difficulty present itself in the discussion of conditions of peace, hostilities are at an end.

Practically the war is already over. A Bulgarian attack in force upon the Tchatalja lines has not been made, and desultory firing was all that went on in that quarter yesterday.

The Bulgarian objections to an armistice without some assurance that it will lend definitely to a conclusion of the war are obvious, and the suspension of operations may be taken as an indication that King Ferdinand and his advisers are satisfied that the Turks do not contemplate further resistance.

In Constantinople it was officially stated that a cessation of hostilities had been arranged. The director of transport informed inquirers at the war office that such was the fact, and simultaneously another official summoned the chief contractors for military supplies and told them that hostilities had ceased and that no further supplies would be required for the front.

Bulgaria already has a representative in Constantinople in the person of M. Popoff, first dragoon of the former Bulgarian legation there, who stayed on at the Russian consulate after the war began, and another diplomatist, M. Nenajevitch, formerly Bulgarian minister at Constantinople, has arrived there.

Musurus Bey, Turkish minister of posts and telegraphs, started for Sofia on Tuesday as one of two Bulgarian delegates.

SHERMAN LEFT ALL TO WIFE.

Will Written in 1887 Believed to Dispose of \$800,000.

Utica, N. Y., Nov. 14.—The will of the late Vice-President James S. Sherman has been filed for probate at the offices of the Onondaga county Surrogate in this city.

The instrument was drawn April 23, 1887, and by one clause bequeaths the entire estate to his wife, Mrs. Carrie B. Sherman. The will was written on foolscap paper in Mr. Sherman's own handwriting. The witnesses were Myron W. Van Auker and H. D. Pitcher of Utica.

There is nothing to indicate the value of the estate other than the executor's petition, which states that there is property worth more than \$10,000. However, it is understood the estate will approximate \$800,000 in value.

Inspections of the G. A. R. Posts at Waverly and Lake Como, Wayne county, took place Saturday with members of the local post acting as inspecting officers.

The schedule for the inspection of other posts hereabouts and the inspecting officers follows: A. W. Colony, of Madisonville, Sterling, November 16.

C. A. Sherman, of Waverly, Carbondale, November 26.

N. F. Hines, of Scranton, Starrucca, December 19.

F. H. Shelton, of Scranton, Moscow, November 9.

Graham Watts, Honesdale, December meeting.

J. P. Simpson, Gravity, December 14, and Newfoundland at December meeting.

WALTER ECCLES AND COLLEGE SINGING GIRLS.

Walter Eccles, the versatile, clever and snappy humorist. To say that he is an entertainer does not express it. He is simply a roaring farce from start to finish. He is simply exulting in his facial expressions and goes from the ridiculous to the comical and from the comical to the serious with such rapidity and seemingly naturalness that one is at a loss to know whether to laugh or cry.

Regarding the "College Girls," there is a drum corps with military drill, Spanish songs with mandolins, airs from Grand Opera, Quartettes, scenes from the light operas, etc. Probably one of the most popular numbers is the one in which they all appear in Scotch costumes with Mr. Eccles in full Highland Regalia. Then there is the screamingly funny Dutch School with Mr. Eccles as the Old Schoolmaster, the Foot Ball Game, the Parasol Girls, etc. At the Lyric Friday evening, Nov. 22, under the auspices of the Honesdale High school.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
