TO ISSUE PANAMA STAMPS.

Designs of Those in Commemoration of San Francisco Exposition.

Announcement has been made by the postmaster general at Washington concerning a special series of stamps to be known as the Panama-Pacific commemorative stamps.

These stamps measure about 3/4 by 1 1/8 inches, the long dimension being horizontal. At the top appear the words "U. S. Postage" and "San Francisco 1915." In the left hand border is a branch of laurel and in the right hand border a palm branch.

The one cent stamp is green, and in the center appears within a circle a bust of Balboa, discoverer of the Pacific ocean, looking to the left and wearing a cuirass and a helmet with a plume.

The two cent stamp is red. It represents the Gatun locks of the Panama canal, with a merchant steamer emerging from one lock and a warship in the other.

The five cent stamp is blue and presents the Golden Gate of San Francisco harbor, with the setting sun in the background and a steamer and sailing vessel in the bay.

10,000 WOMEN TO MARCH.

Suffragists From Many States Will Parade at Inauguration.

For the first time in the history of the United States marching women will form a large section of the inaugural parade next March.

The Suffrage Association of the District of Columbia has voted to request the inaugural committee to give them a place in the parade, and the women have received private assurances that their request will be granted.

"We anticipate that our section of the parade will arouse more interest than any other," said Miss Emma Gillette, the recording secretary, "for it will have the advantage of complete novelty as an inaugural feature."

HALF A MILLION PLACE SEEKERS

Democrats In Washington Are Swamped With Applications.

THOUSANDS WRITE TO CLARK.

Speaker Keeps Four Stenographers Busy Dictating Replies to Eager Patriots, and in One Case There Are 1,100 Persons Who Yearn to Fill Thirty-seven Postmasterships.

A deluge of demands for opportunity to serve the government—with proper emoluments—is sweeping over the advance guard of Democratic congressmen in Washington.

Speaker Champ Clark is keeping four stenographers busy dictating replies to applications for positions under the incoming administration.

Are at Wilson's Service. Nearly half a million men, it is roughly estimated, are not going to see Woodrow Wilson fall in his administration of the affairs of the United States.

The result is that some of the leaders of congress are bordering on prostration.

W. R. Smith, representative from El Paso and other towns embraced in the western part of Texas, received a burning letter from one of his constituents, saying:

Dear Representative—I think that it is a good time for Democrats to be loyal to their party even though it involves some personal sacrifice.

1,100 Applicants For 37 Places. Representative Smith will have it in his power to recommend the appointment of thirty-seven postmasters in his district.

Texas was one of the original and most steadfast Wilson states in the primaries, and that is why, probably, there are so many patriots in that state.

Morris Sheppard, the newly elected senator from Texas, has been compelled to put one secretary, an assistant and four stenographers at work answering the applications for jobs that have come from his constituents.

Dear Sir—Since the Democrats have been elevated to full control of the government I assume the party is ready to enter upon full government functions, and I am willing to do my share by taking the postmastership of this town.

Asks Bailey For Embassy. Senator Bailey, retiring senator of the same state, received the following letter:

I have thought over the matter at some length and more mind being appointed to some nice ambassadorship in a nearby country. Kindly notify me if it is all right.

W. B. Jayne, secretary to Senator Bailey, notified the applicant that, while the salary of an ambassador was very good, the incumbent usually found it necessary to contribute from his own pocket an amount equal to the salary in order to keep up appearances.

Senator Pomerene of Ohio received a letter from a Missouri Democrat, briskly requesting a list of all the places that would be at the disposal of President Wilson, indicating that he would make a choice when he and his wife were at leisure in the evenings.

A. Mitchell Palmer, representative from Pennsylvania, finds that there are any number of Democrats whose zeal to serve their country, with pay, could only be matched by the patriotism of Patrick Henry.

NEW WIRELESS LAW.

Duplicate Plant on Big Ships Will Doubly Safeguard Them.

Every captain of any vessel carrying fifty or more aboard, passengers or crew, going to sea without wireless equipment is liable to a fine of \$5,000.

This is the main provision of the new law passed in July following the foundering of the Titanic. It applies to American shipmasters and masters of foreign vessels leaving American ports and navigating the great lakes.

HOW THE MOUNTAIN OF THE BALKANS CAME TO MAHOMET.

What will there be to remember Of this in the days to be, Whose faith was a trodden ember And even our doubt not free?

Parliament's built of paper, And the soft swords of gold That twist like a wakened taper In the weak aggressor's hold.

One hand went out to the morning Over Ibrahim and Buddha's slain And one to the west in scornful To point at the scars of Spain.

Through the crooked sword's edge it And the crooked moon's side free, When the mountain came to Mahomet It has more life than he.

Are these a bribe or a warning That turn not to the sun Nor look on the lands of morning, Where deeds at last are done; Where men shall remember the mountain When truth forgets the plain.

LIMA PLANS HYGIENE SHOW. International Exposition to be Held at Time of Medical Congress.

Lima, the Peruvian capital, will next summer be the scene of the sixth pan-American congress and at the same time of the fifth Latin-American medical congress.

Anxious to prove Peru's right to a place in the vanguard of Latin-American progress, the government and leading citizens are already co-operating to insure a success for both congresses.

This exposition will last from July 31 until Sept. 30, and the executive committee has just issued a circular letter inviting from all parts of the world exhibits of machinery, drawings, apparatus, etc., connected with the providing of drinking water, treatment of sewage, disposal of refuse and all other matters coming within the scope of hygienic science.

In order to attract exhibits from manufacturers of and dealers in hygienic products it is pointed out by the executive committee that many South American cities are without proper systems of sanitation or have systems which are in great need of modernization.

Applications for space on the part of intending exhibitors can be made up to May 3.

BIG DIAMOND DISCOVERED.

Second Only to the Cullinan Found on the Rand.

Advices from Cape Town report the finding in the Premier mine on the Rand of a diamond which in weight is second only to the famous Cullinan.

The weights of some of the most famous diamonds in the world are as follows: Cullinan 3,025 1/4 Carats.

The Cullinan diamond was also found in the Transvaal, as stated, and was named after the then chairman of the Premier Transvaal Diamond Mine company.

In the two years 1910 and 1911 Mrs. Edward H. Harriman received 6,000 "begging letters." She was asked by persons of whom she had never heard before to give away the sum of \$267,000,000, and she was invariably told that she "would never miss" the sums of money the aggregate of which amounted to something like four times her entire fortune.

25,000 MILES FOR GIANT PEACH

Uncle Sam Sends Agricultural Explorer on Odd Trip.

WEIGHS AT LEAST A POUND.

Frank N. Meyer on His Way to Shantung to Obtain the Juicy Chinese Wonder, Which is to be Added to the Product of These United States—To Spend Three Years in the Wilds.

Twenty-five thousand miles looking for a peach—that is the stupendous journey which has been undertaken by Frank N. Meyer, explorer and expert for the United States department of agriculture.

The peach is described by travelers who have seen and tasted it as the biggest and most marvelous combination of external beauty and internal succulence.

Mr. Meyer in a report to the department promises a peach that will weigh at least a pound and is as large as a muskmelon.

No specimens have ever been brought to the coast of China. Mr. Meyer did bring back with him from a previous journey several scions of the Feit Ching peach and a number of seeds.

The department experimenters took a chance with the seeds and have grown several trees at the experimental station at Fayetteville, N. C.

Like other fruits, the seedling peach develops desirable fruitings only in rare instances. According to Luther Burbank, hardly more than one desirable seedling out of a planting of 100,000 seeds is to be expected.

The 25,000 mile journey of Mr. Meyer began when he went to London for a conference with notable European agriculturists before taking the final dive into the orient.

Not one branch of the activities of the department of agriculture, but all branches of its work, will be observed by Mr. Meyer.

At the last session of congress an appropriation of \$50,000 was made for the establishment at Mandan, N. D., of a governmental experiment station for just this particular class of vegetation.

Mr. Meyer is accompanied by no American assistant. He will upon his arrival in southeastern Russia organize his own caravan.

FOREIGN TRADE SOARS. Four Billion Mark Near For United States Imports and Exports.

Attainment of a \$4,000,000,000 foreign trade by the United States in 1912 will be one of the most noteworthy facts for historians to record of the American nation at the beginning of the new year.

Imports in the ten months amounted to \$1,511,000,000 and exports to \$1,871,000,000, making it apparent that the imports of the full year will approximate \$1,800,000,000 and the exports \$2,300,000,000, totaling \$4,100,000,000.

Imports have practically doubled in value since 1901, and exports have practically doubled since 1904.

Imports of domestic products, which had never touched the \$2,000,000,000 mark until 1911, will in 1912 approximate \$2,250,000,000, while the exports of foreign merchandise during the year will probably fall slightly below the high record of \$37,250,000,000 in 1910.

GAINS 40 POUNDS IN 40 DAYS.

Remarkable Results of the New Tissue Builder, Bloodline in Many Cases of Run-down Men and Women.

Prove it Yourself by Buying a Bottle of Bloodline Now.

"By George, I never saw anything like the effects of that new treatment, Bloodline, for the building up of weight and lost nerve force. It acted more like a miracle than a medicine," said a well-known gentleman yesterday in speaking of the revolution that had taken place in his condition.

Any man or woman who is thin can recover normal weight by the remarkable new treatment Bloodline. "I have been thin for years and began to think it was natural for me to be that way."

Bloodline is a powerful inducer to nutrition, increases cell-growth, makes perfect the assimilation of food, increases the number of blood-corpuscles and as a necessary result builds up muscles, and solid healthy flesh, and rounds out the figure.

For women who can never appear stylish in anything they wear because of their thinness this remarkable treatment may prove a revelation. It is a beauty maker as well as a form builder and nerve strengthener.
