THOUGHT FOR TO-DAY.

If I were you I would do everything I was asked to do. That is the way to get on in life.

WILL THIS LESSON BE HEEDED?

Organized labor was not on trial in the Indianapolis dynamiting cases.

A great, an overwhelming majority of all the members of labor organizations are law-abiding citizens.

The men responsible for all these dynamite outrages made their living out of the unions.

This criminal conspiracy carried on its reign of terror year after year, and every outrage which it committed was not only a crime in itself.

It was not the fault of honest union men that these criminals murdered and destroyed.

This country is weary of organized crime, whether it is committed by captains of industry or by captains of toll.

Mr. Alter's candidacy is not set upon narrow foundations or proscriptive purposes.

The young boys and girls will soon be skating on the ice.

that member's present affiliations, frankly acknowledges the Springdale man's conspicuous ability and his superior qualifications for the speakership.

An examination of the roll of membership and its political complexion discloses undoubted reasons why the House should elect a Republican speaker.

MINUTE "MOVIES" OF THE NEWS RIGHT OFF THE REEL.

BANS RED SCHOOLHOUSES.

Member of Chicago Board Says They Make Babies Cross. Climbing ivy and other vines are to be substituted for red paint on the Chicago school buildings if a suggestion of William Rothmann, one of the members of the board of education, is followed out.

An attempt at renewal of a five year custom to paint the buildings red was vigorously opposed by Rothmann, who succeeded in staying the proposed action of the board. "This idea of painting schoolhouses red every five years is a bad one," said Mr. Rothmann. "The color strikes you in the face two blocks away. It makes the babies in the neighborhood so cross no one can sleep at night."

"We should plant ivy and other vines and the buildings will be covered by nature in a few years. This will eliminate the cost of painting and will be more beautiful than any paint as well as acting advantageously on the minds of children."

RULES OF HEALTH.

Every school day every public school child in New Jersey looks at the following rules of health which are hung on placards in the school room. Read these rules, apply them to yourself and keep well!

"Fresh air and sunshine are necessary to good health. Cold or damp fresh air does not harm if the skin is kept dry. Night air is as good as day air. Breathe only through the nose. Avoid hot, crowded, dusty, dark or damp rooms. Breathe deeply and throw back your shoulders frequently.

Live on plain food and eat regularly. Eat slowly, chew thoroughly, and avoid fried food. Drink water freely (drinking fountains are not provided at school. Go to bed early and sleep with the windows open. Regular exercise is essential to good health.

Wear loose clothes. Wear no more clothing than you need for warmth. Never sit with wet feet or in damp clothing. Consumption and other diseases are spread by careless spitting. Spitting on the floors of rooms, halls, stores and cars will certainly be breathed in the form of dust. Keep your finger nails clean, and wash your hands and before you eat. Never hold money, pencils, pins or other things in your mouth."
