The weather is a riddle that none can answer. Every once in while it makes a big fuss and blows to beat all and we think winter has come dead earnest, but it soon calms down and we are having weather that all can enjoy. A few are anxi-ously awaiting for snow for they have wood and lumber to draw.

The year just past leaves none of us exactly the same. We progress or retrograde, not one day leaves us the same. By the same environment it is just in the seeming that we appear the same, 1913 has great opportunities for us. Let us strive for them.

THE IMPORTANCE OF SLEEP.

A great many people boast about ow little sleep they need. The man who sleeps seven hours a night feels superior to the person who spends eight hours in bed; and the man who apparently can do his work with

only six hours, thinks himself better than the seven hour man.

This is a great mistake. With few exceptions the only people who can maintain their health with less than aight hours sleen are the bross in eight hours sleep are the heroes in The average person should have eight hours. Any machine that is expected to run for seventy years, needs a considerable amount of rest, and when that machine is a human being, plenty of sleep becomes absolutely essential.

The body is only completely at rest during sleep. You sleep not only to get rid of drowsiness, but also to give the nerves, muscles and organs of your body a chance to renew their energies. Reduce your hours of sleep and you lower your ability to resist disease. Therefore For a few months past we have do not hesitate to take nine hours of sleep whenever you can. Children under fourteen years of age should

COME TOGETHER ON SWITCH.

Accident Caused by Substitute Motorman, Police Say-When Cars, Packed to Capacity, Collided There Was Mad Rush, and Many

Were Trampled On.

Philadelphia, Jan. 16.-Two crowded pay-as-you-enter cars, known as "Baldwin trippers," on the Chester short line of the Rapid Transit company, collided on a switch in Island road, near Crum creek, causing se lous injury to four men and slight injury to a number of others. All are employed at the Eddystone shops of the Baldwin Locomotive company and were on the way to work when the accident occurred.

Four of the men were removed to the University hospital. They are Andrew Supetpa, 3231 St. James place, bruises of the back and chest and probable internal injuries; Lincoln Starts, 4022 Powelton avenue, concussion of the brain; Albert J. Hinkle, 4022 Powelton avenue, cuts of the arms and legs and suffering from shock, and James C. Davis, 1127 Durfor street, sprained back and bruises of the body.

The police said the accident was caused through the placing of a substitute motorman on Tripper No. 2, which was about fifty feet in back of Tripper No. 1. Each tripper carried about seventy men.

As the first tripper approached the switch at Crum creek the motorman saw that the signal was set for the approach of a regular car coming toward Philadelphia. He took the side switch near the creek, believing the motorman of the second tripper would do the same. The second motorman was evibusiness callers in Hancock on dently not familiar with the road, the police said, for he did not shut off power after the first tripper took the switch, but kept on going at high speed under the impression apparently that his car would continue on the main tracks.

The tripper swerved to the switch as soon as the front wheels touched the frog. It crashed into the tripper ahead with an impact loud enough to attract the attention of persons living within two blocks of the creek. The rear platform of the first tripper was smashed, and the front platform of the second car was splintered. The men who were taken to the University hos pital were on the rear platform of the the first car. The motorman of the second car, whose name the police have not obtained, was injured, as were some of the passengers standing

The sudden appearance of miners on their way from work caused the girl's assailants to fiee into the mountains. which are being closely searched by Sheriff Glass and a posse consisting chiefly of inhabitants of Excelsior.

Them on Deck.

New York, Jan. 16 .- With three men of her crew in the vessel's hospital in a critical condition the steamship Minnetonka of the Atlantic Transport line arrived in port after having had a most thrilling trip from Southampton. The men who were injured narrowly escaped being swept overboard when a giant sea broke over the lifeboat deck on Thursday while they were lashing fast the emergency lifeboat on the starboard side.

Captain E. J. Cannons, commander of the steamship, said the wind was blowing at ninety miles an hour when the vessel ran into the gale. Many waves broke over the deck, and finally lifeboat No. 1, which is the emergency boat on the starboard side forward, was torn from its lashing. Two sailors and a boatswain were sent to lash the boat to the davit, and while they were at work a great comber broke over the deck. The two ton lifeboat was ripped from its blocks, and it crushed the men against the smoking room wall.

Other men of the crew ran to the aid of the injured sailors and got them out of the way just as a second wave swept the deck. The boat was saved by the rescuers and lashed fast.

The injured men are Charles Nelson boatswain, whose shoulder was dislocated and his left leg broken; Andrew Turner, able seaman, right thigh broken, and Charles Price, able seaman. who suffered internal injuries.

Among the passengers on the steamship were Lady George Darwin, widow of the son of the scientist. She is accompanied by her brother-in-law and sister, Mr. and Mrs. Keddey Bay

JACK JOHNSON AT LIBERTY.

Court Permits Him to Hunt For a New Bondsman.

Chicago, Jan. 16 .- Jack Johnson will not be deprived of his liberty because of his departure for Canada Monday night. Federal Judge Carpenter refused the motion of federal authorities to set aside the pugilist's bonds of \$30,-000 and imprison him as a fugitive from justice to await trial on the charge of violating the Mann "white slave" act.

The man on Johnson's \$5,000 bond on the charge of smuggling surrendered him, however, and the pugilist was given two days at liberty in which to get another bond. The court held that as Johnson had obtained the consent of his bondsmen to leave the state and had shown evidence of his intention to return, there was no necessity of jail-
