

HINTS FOR THE BUSY HOUSEWIFE

Combination Drawer and Shelf
For a Linen Closet.

A combination drawer and shelf for a linen closet is much better than a shelf or a drawer, says Popular Mechanics. It is constructed in the manner of a drawer, with sides and a back, the front being open and the ends of the sides cut rounding. A clip is attached to the under side of the bottom, near the front edge, to provide a means for pulling out the holder.

Sheets, towels, tablecloths, napkins, etc., can be neatly piled on the holder and can be seen without digging down to the bottom. It has the advantage over the shelf that it can be pulled out without anything falling off, and the linen on the back part can be easily reached as well as that in front. The closet may contain as many holders as are necessary and should be provided with a door for keeping out dust.

Pudding Sauce.
Orange Sauce.—Beat the whites of three eggs until stiff, add a cupful of powdered sugar and continue beating. Add the rind and juice of two oranges and the juice of a lemon.

Molasses Sauce.—A cup of molasses and one and one-half tablespoonsful of butter boiled together five minutes. Remove from the heat and add two tablespoonsfuls of vinegar.

Cream Sauce.—Beat together until thick one-quarter of a cupful of thick cream. Add one-third of a cupful of powdered sugar and one-half teaspoonful of vanilla.

Foamy Sauce.—Cream half a cupful of butter, add a cup of powdered sugar, an egg, well beaten, and a tablespoonful of vanilla. Beat while heating over hot water.

Spaghetti With Meat.
Put a teaspoonful of butter into a frying pan and when hot put in a sliced onion and a clove of garlic, cut fine, frying to a light brown.

Next add one pound of chuck steak and two or three slices of bacon cut into short lengths. Let this cook for about five minutes and then put in a cupful of canned tomatoes and a few mushrooms. Season with a little salt and paprika and let all simmer for an hour and a half or until the meat is soft. In the meantime cook spaghetti by putting into boiling salted water and cooking twenty minutes. Drain and lay half on a large platter. Pour over half the contents of the savory pot and sprinkle a little grated cheese over all. Add the remainder of the spaghetti, cover with the rest of the meat and gravy and serve very hot.

Cocoanut Cream Pie.
Half cupful prepared cocoanut soaked five minutes in two cupfuls of milk, one egg, one small cupful of sugar, butter the size of a walnut, one small tablespoonful of cornstarch. Put the milk and cocoanut over stove in a double boiler and when hot stir in the sugar, then the butter and the yolk beaten, and a tablespoonful of cornstarch dissolved in milk. When cooked pour into a pie shell previously baked. Put meringue on top, using white of egg and a little sugar. Put in oven and brown.

Beef Tongue, German Style.
Cook a beef's tongue until tender and remove the skin when half cooled. Prepare sauce as follows: Boil one half cupful of vinegar, two and a half cupfuls of water and two tablespoonsfuls of sugar, with one-half cupful of raisins, for ten minutes. Add a dash of salt, thicken with one tablespoonful of cornstarch, rubbed with one tablespoonful of butter and boil rapidly. Cut the meat in slices. Pour over the sauce and garnish the dish with fried eggplant or French fried sweet potatoes.

Mush, Western Style.
Prepare a thick cornmeal mush of white meal, cooking it at least an hour. Remove the rind from the desired amount of bacon, scald the slices and fry them until crisp in the oven; then drain and keep hot. Set the frying pan on top of the range and drop in the mush by spoonfuls, browning on either side. Serve very hot.

Starching Curtains.
Curtains that are starched with flour will last longer than if ordinary starch is used, because flour does not rot them the same as starch does. Mix three tablespoonsfuls of flour to a paste with cold water, then pour boiling water on as for ordinary starch. This will be sufficient for two pairs of curtains.

Danish Pudding.
Cook one cupful of tapioca in a double boiler for one hour. When cold add half a cupful of sugar and one tumblerful of currant jelly. Turn into individual molds or in one large mold and serve with whipped cream.

Baked Pork Chops.
Cover bottom of pan with two inches of dressing, with chopped onion in it. Put the chops on top of dressing and almost cover with hot water. Bake until brown.

THE NATIONAL GRANGE

Conducted by CHARLES M. GARDNER,
Editor of National Grange, Westfield,
Mass.

SLOGAN OF THE GRANGE

It is "Six Hundred Granges in 1913,"
and is Being Taken Up All
Over Country.

The year 1913 bids fair to be the greatest 12 months in all grange history, so far as extension of the order is concerned; and a "Grange slogan" has been adopted, which is being taken up by the patrons all over the country—"Six hundred Granges in 1913." Already scores of new ones have been organized in many states and there are good indications that the ideal of extension thus set up will be realized. In sending forth this slogan of 1913, National Master Oliver Wilson of Peoria, Ill., puts the matter squarely up to the patrons of the country in the following concise and convincing letter:

"The Grange is never satisfied with the past, but is always looking ahead into the future and expecting greater influence than it has done in the past."

"The year 1912 was a record breaker in things accomplished by the order, but the present year must exceed it in every particular. How many state masters will take up the slogan and send it forth to the membership—'Six hundred Granges organized in 1913!'" As Pomona and Subordinate Masters to hand it on to the membership, also urge deputies to be more active than in the past, and it is done. If each state will but organize five more than they did last year, the work is more than accomplished. Patrons, the work could easily be doubled if each member would do his full duty.

"The farmer is ready for the Grange, is but waiting for the organizer to come and lead the way. Why is this true? Because he has been reading and watching the safe and sane policy of the Grange, watched its flights of years ago in having the commissioner of agriculture raised to a cabinet position, the pure food laws, the interstate commerce commission, rural mail delivery, also its last great triumph, parcel post. The farmer has also watched the Grange wage its battles against ship subsidy and the so-called Canadian reciprocity measure.

"It is a well-known fact that the Grange was very largely responsible for these things, although some are trying to take the credit away, even trying to give credit to men for the parcel post law who to the very last opposed the measure and said it would be worse than nothing. Notwithstanding this, the Grange moves on in its quiet, dignified manner, not swerving to the left or right, but in the open keeps on fighting for the rights of the American farmer. It is this that has appealed to the farmer of the country, and he is now anxious to become a part of this great organization which in the past has done so much for him. This is why our slogan will be more than realized."

"Six hundred Granges for 1913!"
—OLIVER WILSON,
"Master of the NATIONAL GRANGE"

Prominent Grange Leader.

One of the Grange leaders who has come into national prominence the past two years is U. F. Hull of Dimondale, Mich., lecturer of the National Grange. For several years Mr. Hull has been president of the American Dairy Farmers' association, and one of the best known institute speakers in the country, being in constant demand for big meetings in a score of states.

During the past year Mr. Hull has also been elected secretary and executive officer of the National Dairy union, succeeding the late George M. Whitaker, who came to that position after a long and honorable service with the United States government. Mr. Hull is putting into his new position his characteristic energy and enthusiasm and to his leadership is largely due the successful combating of the effort in the last congress to break down the dairy protective laws of the country.

The National Dairy union has worked very effectively in connection with the legislative committee of the National Grange, of which Mr. Hull has been a member for two years, and his selection as its executive officer is therefore particularly appropriate along any line of dairy protection and promotion, the National Dairy union does constant and effective work, and is a recognized leader. Few men combine so well the qualities of effective leadership as does Mr. Hull, and a feeling of greatly increased confidence now pervades the dairy interests, as a result of the selection of Mr. Hull.

A Great Showing.

In a recent inquiry, the fact was brought out that of the 450 subordinate Granges in the state of Maine, more than 90 per cent own and occupy their own hall. The inventoried property of the Grange halls and their contents, in the state of Maine, is in excess of a million and a quarter of dollars. This is a record of hall ownership which the Grange of no other state can even approximate, and is a source of tremendous pride to all the Patrons in the Pine Tree state. As a result of such substantial property ownership, the Granges of Maine are rated among the most substantial and most prosperous in the country.

IN THE WORLD OF SPORT

Runner Tabor Thought to
Have Big Future.

Photo by American Press Association.

Not only is Norman Tabor of Brown university expected to be the next intercollegiate one mile champion, but he stands an excellent chance of breaking the present record of 4 minutes 15 3-5 seconds, held by John Paul Jones of Cornell. It all depends upon the way in which Tabor runs his race at the intercollegiate championships.

That he possesses the speed and the endurance necessary to accomplish such a feat he has proved time and again, but Tabor is what is known as an indifferent athlete. He likes athletics, but he is not the kind of runner who leaves the barrier with the intention of trying to break records. If he were he might even now hold the mile record.

Star Pitchers Lacked Control at Start

The game has few great pitchers who broke into the big league with control. Ed Walsh, Bill Donovan and even Mathewson were a wild lot when they started on their major league careers. But they gradually overcame this failing and eventually were numbered among those pitchers who are noted for having command of the ball.

Walter Johnson was one of the few great pitchers who came into prominence in possession of control. He was able to get the ball over the very first day he pitched for the Nationals, and it is on rare occasions that he is wild.

Control seems to have been natural to Walter, just like his tremendous speed. The night he reported to Joe Cantillon in 1907, Cantillon put this question to the youngster:

"Johnson," asked Joe, "how is your control?"

Walter studied awhile, then answered in that characteristic drawl: "I don't know. I never had to use any where I was."

Still Hunting For "White Hopes."

Crowning Luther McCarty champion white hope has by no means put an end to the hunt for new material. McCarty's success, on the contrary, has given a new impetus to the industry of developing white heavyweights.

The sight of the raw cowpuncher, who has practically sprung up overnight, gathering a fortune on the stage and being showered with big purses has made it apparent that there are possibilities in the white hope business even more enticing than gold hunting used to be in the days of the Klondike rush. Witness, for instance, the frantic struggle now going on for the privilege of managing Jess Willard, who is expected soon to be running McCarty a close second in gathering dollars and glory.

Roos New Yale Strong Man.

W. F. Roos of Hoboken, N. J., is the new "strong man" at Yale. It was announced recently that he had broken the university test record with a total of 2,685 points. The former record of 2,400.9 was held by John R. Kilpatrick, 1911, the football and track star. Roos is member of the junior class in the scientific school.

"Doggie" Trenchard a Coach.

Varsity teams of all branches at the University of North Carolina will be under the general supervision next year of "Doggie" Trenchard, assistant coach of athletics at Princeton from 1898 to 1900. Trenchard has signed a three year contract to become North Carolina's resident coach.

Russian a Fast Skater.

In the international skating races at Christiania recently the Russian, Ippolitow, won the 5,000 meters contest in 8 minutes 34-10 seconds. Matheson, the Norwegian champion, won the 1,500 meters in 2 minutes 22-10 seconds.

Football Pays at Chicago.

Football is the only sport which is profitable at the University of Chicago, according to an official report. The game netted \$52,000 last year, at a cost of \$25,000. The total athletic receipts were \$87,028 and the expenditures \$66,484.

MASTER'S SALE of Valuable Heavily Timbered REAL ESTATE In Partition.

The undersigned, a Master appointed by the Court of Common Pleas of Susquehanna county to make sale of the real estate in partition proceedings between William Main et al. plaintiffs, and Robert H. Rose et al., defendants, will expose to public sale and vendue at the Court House in Montrose, Pa., on Thursday, the 15th day of May, 1913 at two o'clock p. m., the following described real estate:

FIRST PIECE—Comprising 284 1-4 acres, more or less.

This piece is covered with heavy timber chiefly hemlock, original growth and also a portion of the waters and ground thereunder of "Silver Lake," one of the most beautiful fresh water lakes in northeastern Pennsylvania, and shore line thereof about three-quarters of a mile, making a very attractive spot for cottagers, fishing and boating; in the center of the hill country of Pennsylvania about 1800 feet above sea level.

SECOND PIECE—Comprising 805 3-4 acres more or less.

This piece consists almost entirely of very heavy virgin hemlock interspersed with some pine and hardwood; one of the most valuable timber tracts of its size in the state of Pennsylvania. Within easy reach of railroad and shipping facilities, being within ten miles of D. L. & W. R. R. and L. V. R. R.

Any further information desired concerning either tract will be furnished by the Master, together with map of the tract.

GET THESE Money-making Secrets WITH Farm Journal

FARM JOURNAL ("cream, not skim milk") is the great little paper published for 36 years in Philadelphia by Wilmer Atkinson. It is taken and read by more families than any other farm paper in the WORLD. Its four million readers (known as "Our Folks") are the most intelligent and prosperous country people that grow, and they always say the Farm Journal helped to make them so. Their potatoes are larger, their milk tests higher, their hogs weigh more, their fruit brings higher prices, because they read the Farm Journal.

Do you know Peter Tumbledown, the old fellow who won't take the Farm Journal? By showing how NOT to run a farm, Peter makes many prosperous. Nobody can go on reading the Farm Journal and be a Tumbledown too. Many have tried, but all have to quit one or the other.

The Farm Journal is bright, brief, "boiled down," practical, full of gumption, cheer and sunshine. It is strong on housekeeping and home-making, a favorite with busy women, full of life and fun for boys and girls. It sparkles with wit, and a happy, sunny spirit. Practical as a plow, readable as a novel. Clean and pure, not a line of fraudulent or nasty advertising. All its advertisers are guaranteed trustworthy.

The Farm Journal gives more for the money and puts it in fewer words than any other farm paper. 32 to 80 pages monthly, illustrated. FIVE years (60 issues) for \$1.00 only. Less than 2 cents a month. No one-year, two-year or three-year subscriptions taken at any price.

The Farm Journal Booklets

have sold by hundreds of thousands, and have made a sensation by revealing the **SECRETS OF MONEY-MAKING** in home industry. People all over the country are making money by their methods.

POULTRY SECRETS is a collection of discoveries and methods of successful poultrymen. It gives Felch's famous mating chart, the Curtiss method of getting one-half more pullets than cockerels, Boyer's method of insuring fertility, and priceless secrets of breeding, feeding, how to produce winter eggs, etc.

HORSE SECRETS exposes all the methods of "bitching," "plugging," cocaine and gasoline doping, and other tricks of "gypsies" and swindlers, and enables any one to tell an unsound horse. Gives many valuable training secrets.

CORN SECRETS, the great NEW hand-book of Prof. Holden, the "Corn King," shows how to get ten to twenty bushels more per acre of corn, rich in protein and the best stock-feeding elements. Pictures make every process plain.

EGG SECRETS tells how a family of six can make hen's turn its table scraps into a daily supply of fresh eggs. If you have a back-yard, get this booklet, learn how to use up every scrap of the kitchen waste, and live better at less cost.

THE "BUTTER BOOK" tells how seven cows were made to produce half a ton of butter each year. (140 pounds is the average). An eye-opener. Get it, weed out your poor cows, and turn the good ones into record-breakers.

STRAWBERRY SECRETS is a revelation of
