FRIDAY, MAY 16, 1913.

1913 has been an "off" year since its appearance nearly six months ago. It started in March with a Democratic administration; the fall of snow was light, thus affecting lumbering; sap did not flow in its accustomed season; frost came too early and cooked vegetation and there are other things.

There is an old saying that runs along something like this: "May come soon or late it will make the old cow shake." If ever this has been fully demonstrated it certainly was this spring. Man as well as beast has shook and the straw hat which made its appearance a few days ago, has been "shook" back into the banbox.

In computing the value of what we got for the \$40,000,000 we paid to the French our Government jots down the stock of the old and inadequate Panama Railroad at \$9,000,000, which is nearly \$200,000 a mile, and we are spending about \$200,000 a mile more to relocate and rebuild most of it. The average capitalization of United States railroads is about \$60,000 a mile. The gross earnings of the Panama Railroad are about \$92,000 a mile per annum, as against \$11,000 a mile average in the United States. The first class passenger rate is 5 cents a mile and its average rate a ton mile 5 cents, as against an average of three-fourths of one cent a ton mile in the United States; and when the railroad was threatened with congestion the company simply notified prospective patrons that they would not take any additional business.—New York Sun.

DID YOU MISS YOUR SAMPLE COPY?

Beginning with Tuesday last we began placing a sample copy of The Citizen in every home in Honesdale, in Hawley, in White Mills and in Texas township generally. It takes a lot of papers to do this, and there may be some homes that have been overlooked. If you did not get a copy of Tuesday's issue, which contained the first installment of Thos. Dixon's great serial, "The Root of Evil," we shall esteem it a favor if you will notify this office, by phone, or by the most convenient method to you, and we will most gladly see that you get a copy. Another thing: Did your neighbor get a copy? Please find out, for we want to do exactly what we set out to do—put a copy of THE CITIZEN in every home in the places mentioned above.

NEW CIGARETTE LAW.

A bill prohibiting the sale or giving of cigarettes to minors, has been signed by Governor Tener. If the new law is properly enforced it will have a tendency to stop all cigarette smoking by boys who are under age.

It is a measure that has attracted much newspaper comment in every part of the state. There has been, up to the present time, a law on the statute books, regulating the sale of cigarettes to minors, but the enforcement of the law was very lax and it might as well never have been passed. The same may be true of the new law, if it is allowed to remain a dead letter, and no strenuous action taken for its rigid enforcement.

The bill says that any person who shall furnish to any minor by gift, sale or otherwise, any cigarette or cigarette paper, shall be guilty of a misdemeanor and upon conviction thereof shall be sentenced to pay a fine of not less than \$100 or more than \$300 and to undergo imprisonment of not less than thirty days. Any man being in possession of a cigarette or cigarette paper, who shall refuse to tell where he got it, shall be guilty of a misdemeanor and shall be subject to a fine not exceeding \$5 and undergo imprisonment not exceeding five days.

It is charged against the cigarette that it has caused more boys to lose their employment than any other reason, and that the effect of the poison it contains upon persons of tender years is deplorable, justifying legislative interference.

EARLY CLOSING ADVOCATED.

The merchants of Honesdale are endeavoring to close their respective stores on Monday evenings, which should have been done several years ago. The hardware stores have practiced early closing for the past few years, and it is claimed that nothing can induce these gentlemen to go back to the old regime of keeping their stores open after 6 o'clock at night. The Business Men's Association members and others will give early closing a try-out during the months of July and August. It is hoped that at the end of that time the merchants will all turn the key in the doors of their respective stores at 6 o'clock and not return to the old and present method of keeping shop open after that hour. If all the merchants close at 6 o'clock there will be nothing to lose. When once a habit is acquired it is hard to get away from it. Merchants of Honesdale acquire the habit of early closing!

TRADE DAYS.

The business men and merchants of Honesdale are planning to take advantage of the Chautauqua by having special trade days while that educational fete is being held in Honesdale. It would appear from a layman's point of view that this would be an ideal time to work up new business, owing to the fact that so many people from the surrounding rural territory will be in town. The Citizen will boom and give all assistance possible in its columns to help make this a paying feature for the merchants. Gentlemen, you are on the right track. What is the matter of taking advantage of Fair week in the same manner? Periodical trade days will have a tendency to stimulate business and is a good medicine for every man in the mercantile line to administer to himself.

OUTRAGEOUS THREATS.

Democratic leaders at Washington are now making the threat that they will increase the severity of the Underwood bill and greatly change the free list unless the manufacturers carry uncompromisingly and at a loss the burdens that are about to be placed upon their shoulders. Speaking as a member of the finance committee, Senator Charles S. Thomas of Colorado, said recently:

I serve notice on those manufacturers who attempt to coerce their employes and who in other ways would discredit tariff legislation by threats of closing their factories or reducing wages that if they are not careful the rates will be not only further reduced but the free list will be enlarged.

Was there ever a more shameful attempt to mislead and inflame public opinion and to blackmail the manufacturer into paying for the follies of political theorists? If he finds that under the new bill his profits have been taken away, he is not to be permitted to close up shop under penalty of forfeiting whatever he may have left. If he has no orders to fill, or if he is selling finished products for less than raw materials cost him, he must keep going just the same. He must maintain wages at protection figures because he will be hanged on "a gibbet as high as Haman's" if he doesn't.

The thing is absurd, of course. No man can be compelled to do business at a loss, and the only possible purpose of such preposterous talk is to prepare the minds of the people for an industrial collapse and to have suspicion of the manufacturer firmly implanted in the popular mind before the blow falls.

In this way, the Democracy hopes to escape the penalties of its ruinous radicalism. It has no Republican Senate to blame eventualities on now, and must find another scapegoat. Who so tempting as the manufacturer?

The very transparency of the conspiracy will prove its undoing.

THE SEVENTEENTH AMENDMENT.

Mr. Bryan has an especial satis-

faction in proclaiming as Secretary of State the amendment to the Constitution providing for the direct election of Senators, of which he was an early and an ardent advocate.

The amendment gives constitutional sanction to a method which has been attained indirectly in many states by means of Senatorial primaries whose results were binding by force of popular opinion, and in honor if not in law upon members of the Legislature. There is no doubt that popular sentiment sustains this charge, so contrary to the wishes of the makers of the constitution.

Let the tree be judged by its fruit! The Senate has been losing, not gaining, intellectual distinction in the last few years. Whatever the causes of this, every Senator will be in a few years, as many Senators are now, the chosen of the people. There can be no shifting of responsibility, no evasion. The Senate, so long assailable as "a millionaire's club," is soon to be absolutely an elective council, coming straight from the people.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
