#### PRESIDENT ISSUES ORDERS PRE-VENTING ANYTHING RESEMB-LING DEMONSTRATION.

Reason for the Move-Does Not Want Any Misconstruction During Negotiations with Japan.

Washington, May 17.-President Wilson has determined that no warship or troops shall be moved or any-thing resembling a military or naval demonstration carried on by the United States while diplomatic nethe gotiations with Japan over the California alien land legislation are in progress, so that no alarming interpretation can be placed on even the ordinary maneuvers of the army and navy

This decision of the president was announced at the White House last week. It answered a report current in official circles that precautionary movements by the army and navy were contemplated and had been discussed at a conference between the president. Secretary Daniels of the navy department, Secretary Garrison the war department, and Acting Secretary Moore of the state department. Mr. Moore went to the White House, it was explained, to discuss the framing of a reply to the recent Japanese protest against the Califor-nia land legislation, while the war and navy secretaries called to discuss routine affairs of their departmenta

White House officials sold there had been no changes in the diplomat-ic phases of the Japanese question and that the situation was promising of an early settlement. It was emphatically denied that army or navy maneuvers, or movements of any kind not included in ordinary plans arranged months in advance of execution, had been contemplated at

any time. The rumor which called forth the White House statement probably be-gan its rounds when the war department made public orders to three officers and two companies of coast arders, it was explained, were in conformity with the program for the cre-ation of a permanent and sufficient garrison in Hawaii, outlined in the last annual report of the secretary of war, and merely carried out plans of long standing.

#### GREENTOWN.

On Friday of last week about 30 relatives and friends of Mr. and Mrs. George Robacker quietly invaded their home and gave them a genuine surprise party, it being the occasion of Mr. Robacker's 70th birthday. Those present were Maurice Robacker and wife of Stroudsburg, Edward Schleicher and family of Tobyhanna, well-ventilated room, removed from Byron Robacker and family of Panther, Rev. and Mrs. Schwartze, Geo. Waltz and wife of Newfoundland, John Haag and wife, William Haag, Mrs. Sophia Waltz, Frank Waltz. Refreshments were served and a very pleasant day was spent. All left wishing Mr. Robacker many more happy birthdays.

is briefly and forcibly presented in a letter written by Charles K. Me-Clatchy, editor of the Sacramento Bee, to the editor of the New York World and printed recently in that paper. The letter follows:

"To the Editor of the World-Will you permit me, a native Californian. to occupy some space in your valuable paper to give the views of California upon this anti-alien land law proposition?

"In the first place, we claim it is a problem the east does not understand and which easterners cannot understand unless they live in California and see for themselves. But I venture to say that no intelligent, home loving easterner could study the sub ject properly in California for one year and not be as strenuous thereon as is any native Californian.

"Callfornia is not proposing in her anti-alien land law to do anything that she has not a right to do under the treaty with Japan. That was conceded by Secretary of State Bryan while here. The point he made was not that California had not a right to do what she is about to do, but that it would be very impolitic for her to

She is not proposing any law that goes one whit beyond the laws now in force in Washington and Arizona. She is proposing to treat the Japanese far better than they are treated by the government of Victoria, in Australia.

Quartermaster Koehn, who has been on recruiting duty in St. Louis, is said to be an expert oarsman, former member of several champion navy teams, a champion single sculler and winner of prizes in rowing contests in different parts of the world.

He expects to make the trip in ninety days, finishing at South Pass Jetty, on the gulf of Mexico, 110 miles below New Orleans. In order to keep himself in condition for the trip, Koehn has been in light training since October, using rowing machines.

Loans secured by bonds and more gages Bonds, Stocks, etc., Schedule D.... Mortgages and Judgments of record Schedule D-2 Office Building and Lot. Other Real Estate Furniture and fixtures. Overdrafts. Miscellaneous assets. He has planned a boat especially for the trip, the craft to be of galvanized steel, with a forty-five inch beam and a wooden floor. The forward end of the boat will be decked thirty inches above the floor to provide a sleeping apartment.

For stormy weather Koehn will have a rubber deck curtain buttoning to the gunwale, with a hole provided through which he may put his head. The navy department is arranging the run as an advertisement to attract recruits.

The government at Washington wants her to turn from her purpose now on a promise that the president and the secretary of state will do what they can to get the Japanese government to acquiesce in some friendly arrangement that will suit California, but California does not believe that such 'friendly arrangement" will amount to anything, and she has grown very tired of being put off and put off and put off from doing that which it has been conceded she

## COVERS LARGE WOUNDS SKIN GRAFTING.

Volunteering to undergo whatever of suffering might be caused by the operation for the sake of their little sister who was dangerously burned at their home at Knob, Pike county at their home at Knob, Pike county, a month ago, Daniel, Jr., and Miss Daisy, children of Daniel Hatton, gave more than 300 square inches of skin to be grafted over the extensive wounds of little Linda Hatton. The operations, which were the first ex-tended operations of skin grafting tended operations of skin grafting in this vicinity, were performed by Dr. F. A. Lobb assisted by Dr. A. C. Voigt, of Hawley. Linda Hatton, 10 years old, was

burned when her clothes were ignit-ed by a fire of brush and dried leaves when her brothers were cleaning their yard a month ago. For a week her condition remained critical, and then her physician, Dr. Lobb, an-nounced that she was on the road to nonneed that she was on the road to recovery. He said, however, skin grafting would be necessary before the wounds could heal. The opera-tion was described and the brother and sister at once volunteered.

The final operation was performed last Sunday when more than 200 square inches of skin were removed from the thighs of Daniel, Jr., and transferred to the abdomen and thighs of his sister. This completed the covering of the burn wounds.

The first operation was performed on Thursday, May 1. At that time the little girl and her older sister, Daisy, were placed side by side and put under an anaesthetic. Dr. Lobb and Dr. Voigt then removed nearly one hundred square inches of skin Mrs. Henry, of Sayre, will talk for from the thighs of the older girl and the Home workers.

When the Englishmen and Canadians were in Washington on the peace mission they went to the capitol and met Speaker Clark.
