## JUMPS THROUGH WINDOW: HOUSE RAGING FURNACE

LARGE HOUSE AND FIVE OTHER BUILDINGS IN CANAAN DES-TROYED BY FIRE.

room to where he was sleeping, Paul Vaverchalk of Canaan, was awakened shortly after one o'clock Tuesday morning to find his room filled with smoke and the rest of the house in flames. His room was on the second floor and when he awoke the fire had burned the stairs and cut off that means of escape. In order to save himself he was obliged to crawl through the window and jump to the ground.

The origin of the fire is unknown but it is thought it is the work of incendiaries. Just where it started also a mystery for when discovered every building on the place was blazing. It had gained such a start that all efforts to check it were fruitless, and in a few hours after that the start was awakened. young Vaverchalk was awakened, the five buildings, including a large barn and outbuildings, and the large house were reduced to ashes.

Paul Vaverchalk and his son live alone on the property, the former having purchased the farm about four years ago of James Ryan, intending to establish a hotel there. Monday he went to Scranton and the son, Paul Vaverchalk, was alone in the house. The place is located about a quarter of a mile from the Canaan Catholic church.

There was no stock in the barns when they were consumed. About ten tons of hay was destroyed besides' all of the farming tools and implements and household furniture. Every building on the place, except a small outhouse was entirely con-sumed and the loss will probably reach in the neighborhood of \$3,000. Mr. Vaverchalk was in Honesdale

Wednesday and told a Citizen man and a sister, that his loss would be considerable more than that amount. He stated that he carried insurance to the amount of \$2500 in the Wayne County Farmers' Fire Insurance

## Big Ben should be in every farmer's home

You men who live on the farm have got to be heavy workers. And if you are heavy workers you require heavy sleep and lots of it.

For heavy sleep is heavy work's reaction and it's not always easy for the heavy sleeper to get up without help.

That's where Big Ben comes in. He makes it easy every morning.

Big Ben is a truth-telling and reliable alarm clock.

He gets you up, he never fails. You're always up on the dot if he's in the sleeping room.

Allowing for incidentals, the borough's share or total bonded indebtedness would be about \$12,000. This amount will have to be secured before the State will do any work, or allow its ap-

propriation money to be used.

The road will be divided into six equal parts. The abutting property owners will be apportioned twosixths or one-third each of the cost of paving, the remaining two-sixths to be taken care of by the Borough of Honesdale and the trolley road.

The cause of the existing condi-

tions which provide for \$6,000 available for the portion of Main street above the State bridge, if not taken up this year, would revert back to treasury; it was deemed advisable at this meeting by the State authori-ties as by the borough officials that the improvement should be extended from Fourth street north to the borough line. The road above the bridge, however, will not be of brick, owing to its cost, but probably of macadam.

Superintendent Riegel's shows Main street below the State bridge as being 40 feet wide, except near the State bridge, where it will be about 50 feet. Concrete curbing will be used.

Parties desiring new service pipes for water or gas are requested to have same laid before July 1st of this year.
