

REFERENDUM FOR ANTI-ALIEN BILL

Movement Started Which Is Intended to Postpone Issues.

OBJECT TO YEARLY LEASES

Washington Administration Sees Further Opportunity For Adjustment of Land Owning Dispute, but Tokyo Would Prefer to Have Its Protest Dealt With Now.

Washington, May 22.—The movement in California to submit the anti-alien land act to a referendum is understood to be viewed by the administration as affording further opportunity for diplomatic adjustment of the issues between the United States and Japan.

It had been assumed here that because of apparently overwhelming sentiment in California in favor of Japanese exclusion from land owning there might be difficulty in securing the 20,000 signatures necessary to invoke the referendum.

Now, however, that the exclusion element itself, or, rather, its most radical component—the Asiatic Exclusion league—has taken up the movement, the probabilities of its success have greatly increased in the official judgment.

The Japanese government is not expected to approve that method of dealing with its protest, though probably it will be difficult for the Tokyo foreign office to find technical grounds for objection to the method in which California is attempting to legislate.

Officials here feel that Japan regards the present as the best time permanently to settle the question and that it will contemplate with impatience a delay of at least a year and a half, even though in the interval the proposed law were not applied to the Japanese in California.

Don't Want Three Year Leases.

The Asiatic Exclusion league of California instructed its executive committee to draft a petition for a referendum vote on the alien land bill. The petition is to be circulated immediately now that the bill has been signed by Governor Johnson.

The objections of the league are based on the clause in the Webb act which permits three year leases. It is the purpose of the organization to circulate at the same time an initiative petition for a law which will exclude Japanese and Chinese from both ownership and leaseholds under any conditions.

Bishop Grimes was afterward received in private audience by Pope Pius. He was the first American prelate to be received since the pope's illness.

MULRANEY PUT TO DEATH.

He Had Secured Reprieve by Claiming to Be Victim of Code.

Ossining, N. Y., May 19.—John Mulroney, who was to have been put to death on March 17, but secured sixty days' reprieve by declaring in a personal appeal to the governor that he was going to his death as the martyr of a criminal "code of honor," was electrocuted at Sing Sing prison. A single contact between the chair and dynamo at 5:50 a. m. was all that was necessary, whereas usually two or three contacts are made.

The murder of which he was convicted was that of Patrick McGreen, a New York saloonkeeper, who was shot while standing behind his bar on the night of Oct. 3, 1911.

NOW SOLD IN AMERICA.

In Less Than Five Years, Parisian Sage, the Splendid Hair Tonic, is Sold all Over America.

There is a reason for the phenomenal sale of Parisian Sage in the United States during the past three years.

And the reason is plain to all: Parisian Sage does just what it is advertised to do.

Ask Peil, the druggist, about it, and he will tell you that he rigidly guarantees it to cure dandruff, stop falling hair or itching scalp in two weeks or money back.

There is no reason whatever why any man or woman should fail to take advantage of the above generous offer.

But one thing that has made Parisian Sage so famous is its peculiar power to turn the harsh, unattractive hair that many women possess into luxuriant and radiant hair in a short time. Women of refinement the country over are using it and it never disappoints.

Sold by druggists everywhere and by Peil, the druggist, for 50 cents a large bottle. May 16 & 23

DIRECT PRIMARY FIGHT HAS BEGUN

Governor Sulzer Declares That Conventions Must Go.

STRONG REASONS, HE SAYS

Scores Alleged Secret Alliances Between Special Privilege and Crooked Politics—Asserts People Cannot Rule Until They Obtain a Successful Method of Nominating.

Buffalo, N. Y., May 19.—In plain and forceful language characteristic of the man, Governor Sulzer told the people of Buffalo and many citizens of the surrounding towns who came here to hear him speak why he is waging in behalf of the people of the state a warfare for the elimination of boss rule from party politics.

"Political conventions must go. Disgraceful secret alliances between special privilege and crooked politics must cease. That is all there is to it!" exclaimed the governor, in righteous wrath, as he explained how the powers of government are subverted through machinations at such conventions.

Governor Sulzer declared his conviction that every member of the legislature is solemnly bound in honor to vote for the direct primaries. The governor called attention to the fact that the direct primary bill is not a partisan measure, but one for which there is urgent demand all over the state.

"We have been given party tickets which reflect disgraceful secret alliances between big business interests and corrupt politics. It must cease or our free institutions are doomed," said Governor Sulzer in conclusion. He said in part:

Governor Sulzer's Speech.
"It is self evident to me that if the people are competent to directly elect their public officials they are also competent to directly nominate these officials; that if it is important for minor officers to be nominated by the people it is still more important that the people be given the power to nominate candidates for United States senator and for governor; that if public service corporations and special interests seek to control public affairs for the promotion of their selfish ends through the manipulation of party conventions the plain people should seek to do the same thing by taking in their own hands the right to nominate directly these important officials.

"The truth is that the delegate system of nominating officers has completely broken down and proved itself not only inadequate to carry out the wishes of the people, but it has become an instrumentality through which the powers of government are prostituted and brought under the dominion of unscrupulous men seeking special privileges.

Appeals to the People.

"In this campaign for direct primaries I am appealing now directly to the people, and they are responding as they always will respond when their rights are jeopardized and their liberties are subverted, and they hear the call of duty and see the opportunity to assert effectually their inherent power and inalienable rights.

"Every day I see accumulating evidence of the truth, which I stated in my recent direct primary message to the legislature, that those who would subvert the powers of government to personal advantage and to special privilege find their greatest opportunities to carry on this nefarious work through the skillful manipulations of political conventions.

"Political conventions must go. Disgraceful secret alliances between special privilege and crooked politics must cease. That is all there is to it.

"The spirit of true democracy is summed up in the slogan 'Let the people rule.' They cannot rule until they obtain a successful method of nominating candidates of political parties.

"New York state is one of the last states in the Union to capitulate to the present day demand for popular rule in the nomination of candidates for all public offices. It is bound to come in New York. The fight is on, and the people are in earnest."

BELLS ON POISON BOTTLES.

St. Louis Hospital Method of Preventing Mistakes.

Sleigh bells tinkle now in all the wards of the St. Louis city hospital. The bells are chained around the necks of bottles containing poisonous drugs. Every time a nurse picks up a bottle of carbolic acid the noise of the bells attracts not only her attention, but that of all the patients in the ward.

Dr. Wayne Smith, superintendent of the hospital, issued an order to put bells on the poison bottles after an attendant at another hospital had been indicted for giving carbolic acid to a patient by mistake. The patient died.

STUDENTS ADOPT NOVEL PLAN

Insure Their Lives to Provide Scholarships For Others.

As a memorial of their class for the benefit of future generations of students 600 seniors in the University of Wisconsin have decided to take a life insurance policy of \$100 each in the state's new life fund, the payments to run twenty years.

At the end of that time the amounts will be turned into a fund for the support of needy students. In case of the death of a policy holder the amount of the policy will revert to the fund. The plan is unique among universities, as is the state life fund itself.

A Few Honest Pointers In Regard to Paint.

When you go into a store and ask for paint don't be misled if the proprietor or the clerk begins to sell you paint by weight. Don't be fooled because the greatest weight does not always mean the greatest value, for instance, green and dark colored paint do not carry as much white lead, as white and light colored paints, therefore, if your dealer weighs up a gallon of his competitor's paint, say green or some dark colored paint, surely it will not weigh as much as a gallon of his white paint. Then again there is a way of making a gallon of paint weigh heavy without much cost, but we hope no dealer in Honesdale sells this kind; a paint that is adulterated with Barytes, which costs about \$20 per ton while pure white lead is worth about \$160 per ton, but the Barytes has very little if any covering capacity, although it is heavy and very white. These are only a few facts that everybody should know. If you want an absolutely guaranteed paint—a paint that one gallon will cover 300 square feet, two coats—and a paint that will be cheap in the long run, you will surely make no mistake if you buy DEVOE, Erk Bros. are agents at Honesdale, Pa. 34cott.
