

THIS IS QUITE LIKE "A TEMPEST IN A TEAPOT"

OVERSEERS OF POOR OF STERLING TOWNSHIP HAVE DONE THEIR DUTY.

Hearing in Chambers Wednesday Afternoon When Edwards Withdraws Petition for Mandamus and Difficulty is Settled.

Last week a rule was granted on Henry Foster and J. M. Catterson, overseers of the poor of Sterling township, to show cause why a mandamus should not be issued for Chas. Edwards, a resident of that township.

The rule was argued before Judge Searle in Chambers on Wednesday afternoon, June 4. Kimble & Hanlan represented the overseers of Sterling and M. E. Simons represented those of Dreher township.

At the hearing Wednesday afternoon Charles B. Edwards appeared and withdrew his petition for a mandamus on the grounds that he had never asked for help of any kind from the poor directors and had never made application for an order of relief.

Judge Searle denied the application for a mandamus and stated that the question of costs be postponed for the time being. The petition which was filed in the prothonotary's office set forth that Charles B. Edwards was a resident of Sterling township and that his circumstances were such that it was necessary that he receive aid from the township for his wife and six children.

On May 16, the petition set forth, he went before Squire E. B. Hollister and L. P. Felton, Justices of the Peace for Salem township, and made complaint that he was unable to provide for his family. He was granted an order of relief, which, when served on the overseers of Sterling township, was evaded.

Mr. Edwards admitted signing the petition but denied all knowledge of its contents. He said that he had never knowingly asked for relief. On June 4th an answer to the petition was filed by Kimble & Hanlan, attorneys for the poor directors of Sterling township, in which they stated that on May 5th Mr. Edwards had lived in Dreher township and that he was not in destitute circumstances at that time, and had steady employment, earning sufficient money for the support of his family.

An order of removal was issued by W. L. Harvey, a justice of the peace of Lehigh township, directing the removal of Mr. Edwards to Sterling township. There was no necessity for the removal of Edwards against his will, the answer goes on to state, and when he arrived in Sterling the overseers of that township went to Edwards immediately and were informed that he did not ask relief and did not want to be put on the town.

Mr. Edwards asked permission to withdraw the petition for mandamus, saying that the overseers of Sterling have fully performed their duty. The poor directors of Dreher arrested, but this was also dismissed by Judge Searle.

Mr. Edwards stated that the only time he had accepted help from the poor directors was when he injured his hand in a saw mill about four years ago. At that time they volunteered a little contribution for his immediate relief.

Mr. Edwards owns about one hundred acres of land lying partly in Dreher and Sterling townships. His home burned some time ago and since then has been unable to erect a new home.

An appeal from the decree of Justice Harvey will be heard during the June term of court.

SIXTEEN GRADUATE AT STATE HOSPITAL.

Sixteen young women Tuesday night graduated from the State Hospital Training School for Nurses. The exercises were held in the parish house of St. Luke's Episcopal church, Scranton, and about 250 attended. Hon. E. B. Hardenbergh, president of the board of trustees, presided, and an address was made by Ernest Laplace, M. D., LL. D., professor of surgery in the Medico-Chi. College, Philadelphia. Mortimer B. Fuller, chairman of the Training school committee, made the presentation of the diplomas. The invocation was given by Rev. Robert P. Kreidler, and Mrs. Helen N. Evans, contralto, delighted with two solos, and instrumental music was played by Bauer's orchestra.

For attaining the highest degree of proficiency in her studies during the course, Miss Stella Holland was presented by the board of trustees with a medal of merit. Her average for the term was 95 3-5 per cent. Miss Maude Robertson, directress of nurses, also presented a medal to Miss Florence Jones for being the best in department. Her average was 98.

E. B. Hardenbergh, of Honesdale, in his opening address said the class was the largest ever graduated from the hospital, and complimented Miss Robertson on her successful methods of training and congratulated the graduates who are completing their work. Introducing the speaker of the evening, he told how he with other members of the board visited Medico-Chi twelve years ago and how they met Dr. Laplace and saw him perform an operation. This was at the time the hospital was changed from the Lackawanna hospital to the State Hospital of Northeastern Pennsylvania.

Dr. Ernest Laplace in a scholarly address, which interested his hearers intensely, told of the men of the medical profession who he was pleased to call "well-meaning men." He traced the history of medicine back to ancient times. The trained nurse, he said, is an adjunct to the medical profession and then went on to tell of the medical profession of today, having started on an era of scientific superiority and can now be classed as an exact science.

The names of the graduates are: Misses Annie Marcella Clare, Catherine Noll Eschenbach, Claire Loughran, Jane Frances Burke, Grace Maynard, Hazel Eunice Bennett, Violet Mae Kasson, Florence E. Clark, Clara Stella Holland, Nancy Alberta White, Florence Jones, Maud Veronica Whynny, Kathryn Collins, Gertrude Rose Lee, Helen May Sutphen, Edna Madeline Einer.

MOSCOW WOMAN ENDS LIFE.

Mrs. Miller, Wife of Instructor in Moscow High School, Despondent Over Ill Health, Fires Bullet Into Brain.

While her husband, W. B. Miller, of the Moscow High school, was downstairs in their home on Spring Garden street, Moscow, getting her a drink of water, Mrs. Miller shot herself through the head at 6:30 last Monday morning, death coming instantly. At the sound of the report, the husband rushed up the stairs and into the bedroom, discovering the lifeless body on the bed, with blood streaming from a wound in the right temple and a revolver still clutched in the right hand. The bullet ploughed through the brain.

The suicide was nearly fifty years of age and had lived in Moscow for many years, her husband being one of the best known men in that community. Before becoming professor of the High school, Mr. Miller was cashier of the Moscow bank. His statement that the mind of his wife has been unbalanced at frequent periods during the past six months is verified by the neighbors, who add that she has suffered much during the past several years from ill health.

TRIENNIAL ASSESSMENT FOR BOROUGH COMPLETED

VALUE OF REAL ESTATE IN BOROUGH LOWER BY \$9,000 THAN IN 1912.

Decrease in County About \$100,000 Less Than Last Year—Hawley \$9,000 More—Assessor Varcoe is Succeeded by Bert Dane.

The triennial assessment for Honesdale borough has been completed by assessor F. J. Varcoe. It is also the assessment for 1913. The figures show that the valuation of all real estate in the borough for the present year has decreased about \$9,215 from what it was in 1912. Bert Dane, who was elected to succeed Mr. Varcoe as assessor for the borough, has taken up the work of making the registration assessment.

Notwithstanding the fact that the number of taxables in the borough has increased about forty during the year and the increase in the value of property with improvements and new buildings has been much greater than in former years, the triennial assessment is lower than it has been in many years. The Gurney Elevator plant was assessed for \$45,600 but the assessment of the plant was made before it was equipped, so that next year the assessment will be much greater.

The tabular statement made out by Commissioners' Clerk T. Y. Boyd of the 1913 assessment has been completed and will be sent to the secretary of internal affairs. The valuation of real estate of the two principal boroughs of Wayne is hereby given.

The 1913 report gives Honesdale 1,054 taxables; value of all real estate, \$2,610,265; value of real estate exempt from taxation, \$512,000; value of real estate taxable, \$2,089,265; value of horses and mules, \$13,790; value of salaries, \$95,925; property taxable for county purposes, \$2,199,180; county tax assessed, \$8,796.72.

Hawley has 785 taxables and the value of real estate is \$607,040; value of real estate exempt from taxation, \$40,000; value of real estate taxable, \$567,040; value of horses and mules, \$4,745; value of salaries, \$55,475; property taxable for county purposes, \$627,481; tax assessed, \$2,509.92.

The total number of taxables in Wayne county for 1913 is 10,952; the number of acres of cleared land, 110,857; of timber, 312,303 acres; value of all real estate, \$11,446,160; exempt from taxation, \$1,204,030; taxable, \$10,242,130; value of horses and mules, \$324,856; value of salaries, \$478,775; property taxable for county purposes, \$11,207,890; tax assessed, \$44,831.56.

In the value of all personal property these figures differ from the 1912 assessment materially. The value of all personal property in Honesdale for 1912 was \$2,619,480; for Hawley it was \$597,440, and for the entire county \$11,551,707, which was more by \$105,547 than the present assessment. The assessment this year for Hawley, however, is increased over last year by \$9,600. It is also interesting to note that the number of resident taxables in the county has increased by 144 during the year.

BASE BALL SATURDAY AFTERNOON.

The newly organized Honesdale base ball team with N. B. Spencer as manager will play their first game at the local grounds on Saturday afternoon. The visiting team will be Carbondale. It is expected that it will be one of the best games that has ever been played on the local grounds as both teams will be in best possible shape for the opening game. Under Spencer's management the locals have been strengthened and are believed to be the best material obtainable, with several recruits from White Mills. The lineup will include "Pop" Hessling, "Duffer" Weaver, "Doc" Brader, "Buck" Faatz, and other local players, and let us not forget Mangan, the heavy hitter. From White Mills there will probably be Loll, Larson and Liljquest. The outcome of base ball in Honesdale will depend upon the support of the people and if you want to see first-class ball come out to the game Saturday. Make your plans ahead of time so that it will be possible for you to be there. Carbondale has a good team under the management of Nolan and will come here with the expectation of winning. Game will be called at three o'clock.

AUTOS COLLIDE ON ROAD NEAR HOADLEYS

Katz's Car of Honesdale, and David Smith's Car of Sterling, Ram Each Other Wednesday Evening.

An unavoidable collision of two automobiles, which might have resulted in a serious injury to the occupants of the cars, occurred near Hoadleys on Wednesday evening. George Nicholson driving Jacob Katz's car, in which was Mr. and Mrs. Emanuel Freeman and daughter Vera and Miss Jeanette Freeman. At that point they met a Ford touring car coming toward them which contained Dr. Simons, George Beehn, H. M. Jones and David Smith. They were driving slow and turned out to allow the other car to pass. The road was narrow and on one side there was a ditch. The drivers are at a loss to know who was to blame for the accident. The force of the collision threw one of the occupants of the Ford car out but he did not sustain any injuries. The Ford car was badly smashed up as a result of raming the big car, but the big car did not escape altogether from damage. The party returned to Honesdale about nine o'clock.

FOR THE SAKE OF THE MAPLE TREES.

Where the different trees of Honesdale were too low, owners have been notified to trim the under branches. In many instances this has been complied with, but the proper care has not been given the trees after the limbs have been cut off. The trees should be treated to PURE white lead and oil, and if any color is desired a little lamp black may be added. Paint containing turpentine should never be used as it injures the trees. A little care in pruning should be exercised. Instead of allowing a stump or hub to remain on the surface of the tree, the limbs should be cut close to the tree, according to Mr. Rifkin, tree surgeon.

THEODORE DAY'S DISCOVERY KILLING TENT CATERPILLARS

DISEASE AMONG PEST SPREADING RAPIDLY—STATE MAY GIVE APPROPRIATION.

Dyberry Weather Record Keeper After Years of Diligent Work Succeeds in Creating a Death-Dealing Disease. A disease has affected the tent caterpillar, which pest is defoliating the trees in this section of the country. It is thought to be the disease discovered by Theodore Day, of Dyberry, who for a long time assiduously worked upon the caterpillar in hopes of finding some remedy or death-dealing disease which might be used to exterminate the pest. Mr. Day, a few years ago, when the caterpillar was eating the leaves from the trees, was successful in discovering this disease. The disease spread rapidly at that time and for a year or two few tents have been seen. Theodore Day, at the time of making the discovery, told the writer that a small pinch of the dust sprinkled upon nests of the caterpillar would dry them up. In the tent of an affected camp the worms die suddenly and the disease spreads rapidly. The death dealing disease is procured by pulverizing the dried caterpillars, affected by the disease and then their dust is applied to live tents. Mr. Day communicated with Professor H. A. Surface, state zoologist, about his discovery and the professor told him that he would try and get an appropriation from the State at the next legislature to carry on the good work. To date, we are informed, no sum has been set aside for this important discovery and unless checked the tent caterpillar will do untold damage to forestry and fruit trees.

William H. Bullock, district state agriculturist, brought to our office on Monday a specimen of the caterpillar tent, which showed the effects of the Day disease upon the pest. The specimen was sent to Professor Surface for examination.
