## THE TOWN COUNCIL PASSES ORDINANCES

SPECIAL ELECTION FOR IN-CREASING INDEBTEDNESS TO BE HELD JULY 11.

McConvill Bill for Watching Small-pox Contacts Given to Solicitor Lee—Other Business — Varcoe Claim Settled.

The principal business transacted at the regular monthly meeting of the borough council was the passing of three ordinances on the paving of Main street. The sections cover-ing that portion from the southernly tion of Main street to the State bridge; thence north of said state bridge to the borough line and west from said bridge on Park street to Texas line. In order that the borough of Honesdale shall enjoy an improved Main street it will be necestable on the sound of breaking glass and pounding and the next moment she heard some one running away. She did not see any one. The man was of the sound of breaking glass and pounding and the next moment she heard some one running away. She did not see any one. The man was of the country to be chosen for part church congregation held a picnic there. They engaged a boat and had rowed once around the lake. At a point farthest from the picnic Cashier Heard Ca proved Main street it will be neces-sary to bond the town to the amount of \$69,000. The council cannot take in the center from the bottom of the further advancement in the matter window there could be seen the until it gets the voice of the people sanctioning such action. It will therefore be necessary to hold a special election of the people of Honesdale to increase the present indebtedness

## GAME TO CARBONDALE

RAIN EARLY IN AFTERNOON THREATENS TO POSTPONE GAME.

Carbondale Won by a Score of 2 to 1—Good Playing Featured Both Teams—Game Called After Four O'clock.

Carbondale won the first of the series of games with Honesdale on Sat-urday by a score of 2 to 1 on the local grounds. For a long time early in the afternoon it looked as though there would not be a game as a severe shower blew in about 1:30 and it rained hard, so that the grounds were thoroughly soaked, and the Carbondale team did not leave home until the rain had stop-ped, so that it was 4:15 before umecial report from Chief of Po-J. J. Canivan showed that 11 arc called "play." The indications were good that there would have been a record breaking crowd on hand, for notwithstanding the cold, raw In the matter of increased insurdance on the present equipment of times enthusiastic crowd turned out to support "Connie Mack" Spencer and his band of trusty Athletes. The fact that Carbondale won seemed to be taken with the spirit of "we'll get you next time" and everybody was well pleased with the showing made by the locals in their first game, for they have had practically no praccommunication was received tice, while Carbondale has been playing from his position he was playing in looking at the sand and gravel bank it hardly seemed possible for an 8 to 10 foot bank of its kind to cave in and completely submerge six children whose ages are from six to thirteen years. ## TWO HONESDALERS AT

SAND PIT DISASTER. Just as Mrs. Chas. L. Bassett reached Peckville last Saturday at

2 p. m. on the street car from Scranton, the motorman stopped the car and ran to the O'Brien sand pit, near the Mott Haven hotel, where two boys were partly covered by the sand and gravel slide. All the passengers aboard the cars and many other nearly from the right ware constants. other people from that vicinity were quickly on the scene and when told by one of the boys, who was fortun-ate to be spared from complete burial, that there were others under him the rescuing party quickly unearthed four other boys from the pit, one of whom was dead and the others were removed to the Mid-Valley Hospital which is located near the accident.

At a few minutes after the rescu-ing of the five boys C. L. Bassett, a representative of The Citizen, stood talking to H. P. Woodward, editor of the Peckville Journal, on the very ground underneath which lay another unfortunate child, the Scanlon boy, who was found between 6 and 7 o'clock that evening. The heavy load of sand had crushed his life out before he had time to straighten up of the accident and the Scanlon boy's father remarked that his boy might be there, he was assured by a fellow workmen that his boy was not there and gave him the names of the five discovered boys. On hearing it he said 'Thank God," but on reaching home he found his boy not there and thus accounted for the second searching party finding the sixth

boy in the evening. The boys who lost their lives are: John Gallagher, aged 8 years. Leonard Scanlon, aged

years.

The other boys caught in the slide were Walter McKelvey, aged 12 years, son of Mr. and Mrs. William McKelvey; Thomas Mitchell, son of Richard Mitchell; John and Albert Kazmisky, aged 12 and 7 respectively.

## RILEYVILLE CHEESE

FACTORY BURNS. Shortly before 11 o'clock Monday morning flames were discovered on the roof of the Rileyville cheese factory, near the smokestack. Very little of the contents were saved. Six-ty new cheeses were burned as also were about \$200 worth of cheese boxes. No insurance was carried upon the stock. Insurance to the amount of \$1,100 was carried on the factory and equipment. The building was 30x70 feet and was owned by the farmers of that section of the country. The stock or product has been purchased several years by G. Smith & Sons. The factory employed two men.

DON'T WAIT-ACT NOW.

The condition of the Lackawaxen river at the Farnham bridge, Honesdale side, is in need of immediate inspection. At this particular point sewerage is collected and stands in an unsanitary condition. The raising of the splash boards on the Hermann dam would be one way to remedy it. It would cause the water to back up, thus covering the exposed river bed.

It has been suggested that a dam be built above or near the fair grounds and once a week flush the Lackawaxen river. This would re-lieve the river of all its impurities. It would also do away with a possi-ble epidemic which might develop.
