Soda crackers are more nutritive than any other flour food. U need a Biscuit are the perfect soda crackers.

Though the cost is but five cents, Uneeda Biscuit are too good, too nourishing, too crisp, to be bought merely as an economy.

Buy them because of their freshness—because of their crispness—because of their goodness—because of their nourishment.

Always 5 cents. Always fresh, crisp and clean.

NATIONAL BISCUIT COMPANY

LOOKOUT.

Lookout, Nov. 8.—Rev. Mr. Man-ship expects to begin a series of revival services in the church at this place on Sunday evening.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

"RUSTLING" DYING OUT.

New Form of Cattle Stealing Developed in the Northwest.

Alleged stock rustlers to the number of thirty-two were arrested in Montana during the quarter ended Sept. 30, according to reports of stock inspectors made to D. W. Raymond, secretary of the state board of stock commissioners. During the quarter ten stock rustlers were convicted, and at the end of the quarter there were seventeen cases pending.

"There has been less stealing this year than in any previous year since I have been connected with the office," said Mr. Raymond. "There is practically no tampering with brands any more. This method of rustling belonged to the days of the open range. Now we have to contend with the slaughter of cattle for beef. There is more of this going on than was the case ten years ago, but the aggregate thefts are considerably reduced."

"With the coming of the dry farmers to Montana and the bigger demand in the state for beef there has been a great deal more killing of cattle on the ranges. Oftentimes the hides are burned and the meat taken to town and sold. The owner of the slaughtered animal simply knows his animal has disappeared, and sometimes he finds the dead ashes of a fire on the range where that animal grazed. But this is not evidence."

School Ban on Chestnuts.

Children in the schools of Great Barrington, Mass., have been warned against eating chestnuts, as the nuts appear to have been poisoned this year by chestnut blight. Several children have been made ill lately, and every case has been traced to eating chestnuts.

CATARRHAL TROUBLE

ENDED--USE HYOMEI

You Breathe It—No Stomach Dosing—Clears the Head.

Use nature's remedy for catarrh or cold in the head, one that is harmless yet quick and effective.

It is the healing oils and balsam of Hyomei which you breathe through a small pocket inhaler. The curative and antiseptic air reaches the most remote air cells in the nose, throat and lungs, killing the catarrhal germs, stopping the offensive breath, raising of mucus, dropping in the throat, crusts in the nose and all other catarrhal symptoms.

The complete outfit costs only \$1 and Peil, the druggist, will return your money if not satisfied. Do not continue to suffer catarrhal illness—try Hyomei now—to-day. Nov 4-1

MOTOR TRANSPORTATION BUILDING, PANAMA-PACIFIC INTERNATIONAL EXPOSITION, SAN FRANCISCO, 1915.

THE Motor Transportation building at the Panama-Pacific International Exposition will be one of the largest of the exposition palaces, approximately 275 feet front by 800 feet deep and covering more than five acres. The theme of the architecture will be emblematic of the triumph of modern transportation, the automobile. Groups of statuary will typify the triumph of the motor over the elements. The main group will typify the conquest over the land. Other groups of statuary will convey allegorically the victory of the motorboat over the sea and of the aeroplane over the air. On either side of the entire length of the building there will be a frieze ten feet high in bas-relief giving the history of transportation from the early log cart up to the most modern automobile. The dome which surmounts the center of the front portion of the building will be 180 feet high.
