

Kill Catarrh Germ USE BOOTH'S HYOMEI

Try the sure and most effective way to reach the raw, tender inflamed mucous membrane infested with catarrh germs—use Hyomei. You breathe it—no stomach dosing.

If you suffer from raising of mucus, frequent sneezing, husky voice, discharge from the nose, droppings in the throat or any other symptoms of catarrh—breathe the germ-destroying air of Hyomei. It acts directly on the inflamed membranes, destroying the disease germs in the nose, throat and lungs and giving quick and permanent relief, or money refunded by Peil, the druggist.

The complete outfit, including pocket inhaler and bottle of liquid, costs \$1.00. Extra bottle of liquid, if later needed, 50 cents. Dec. 16 & 23

SHE'S A SAVING MAJOR.

Economical Miss Munson is Also Police Head and City Attorney.

Even a little place like Warrenton, Ore., with only a few hundred people, has its civic problems, and a woman mayor is credited with solving some of them. Her name is Miss Clara C. Munson.

Warrenton formerly employed a city attorney and a policeman. As mayor, backed up by the council, Miss Munson was given a free hand, so she dispensed with the services of both these officials. She is now mayor, city attorney and chief of police. The money saved by dispensing with the services of a city attorney and police officer is going into improvements, rebuilding old sidewalks and putting in new ones.

Mayor Munson even gets free legal advice. This is furnished by the mayor of a neighboring town. The wide publicity given Miss Munson as the only western woman mayor resulted in her receiving eight or ten proposals of marriage from men scattered from Alaska to the mining camps of the southwest.

Mayor Munson is not very much interested in woman suffrage.

MEAL FOR FORTY AT 96 CENTS

Chicago Women Reduce the Cost of Living to the Minimum.

An anti-high cost of living dinner was given recently by the Gray's Lake Women's club of Chicago. Forty members were served. The club spent time and 96 cents thus:

- Meat—Two pounds of beef (neck), 25 cents.
 - Bread—Two loaves, 10 cents.
 - Cake—20 cents.
 - Coffee—Three-quarters pound at 25 cents per pound, 19 cents.
 - Cream—10 cents.
 - Celery—9 cents.
 - Sugar—3 cents.
 - Total—96 cents.
- The remaining 4 cents of this "dollar dinner" went for paper napkins.

WIRELESS NEWS TO TRAIN.

Various News Happenings Flashed to Lackawanna Express.

Bulletins, telling of the Boston lodging house fire, a suicide on the court house steps at Scranton, Pa., and other happenings of the day were flashed by wireless from a Scranton newspaper office recently to passengers aboard a Lackawanna express train as it sped toward Stateford, six miles away.

The distance covered by the wireless messages was the greatest since the train experiments began.

TO IDENTIFY MAN BY VEINS.

Italian Professor Proposes Substitute to the Bertillon System.

Professor Tamassia of the University of Padua, in Italy, advocates the adoption of an identification system, the basis of which is the photographing of the veins of the hands.

He says the merest novice can detect variations, while long training is necessary to distinguish differences in finger prints.

A LASTING POWER.

The most lasting power over others is gained by understanding them and sympathizing with their best aims and thoughts. It is so great a power when steadily cultivated that it appears almost miraculous, yet it can be gained by any one who will take the trouble to consider, understand and love others.

Well Deserved

The Praise That Comes From Thankful Honesdale People.

One kidney remedy has known merit. Honesdale people rely upon it. That remedy is Doan's Kidney Pills. Honesdale testimony proves it reliable.

Fred Kroll, Sixth and Court Sts., Honesdale, Pa., says: "I can recommend Doan's Kidney Pills in return for all they have done for me. Whenever my back becomes lame or any other symptom of kidney trouble bothers me, I take Doan's Kidney Pills and they bring relief. Others of my family have been benefited by this remedy."

If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Kroll had—the remedy backed by home testimony. 50c all stores. Foster-Milburn Co., Props., Buffalo, N. Y.

WHY UNCLE SAM WANTS A BILLION

Estimated Cost of Government Household For Year.

HOW MONEY IS TO BE SPENT

Figures Submitted to Congress Exceed the Last Appropriations by \$22,864,067, but Their Total is \$39,255,066 Below the Estimates of Past Fiscal Year.

U. S. 1915 BILLS TO REACH TOTAL OF \$1,108,681,771.

The estimates are as follows:

- Legislative establishment, \$7,533,331.
- Executive establishment, \$30,869,208.
- Judicial establishment, \$1,242,110.
- Department of agriculture, \$19,063,322.
- Foreign intercourse, \$4,447,042.
- Military establishment, \$105,937,544.
- Naval establishment, \$129,831,563.
- Indian affairs, \$10,208,865.
- Pensions, \$169,150,000.
- Public works, \$97,917,532.
- Miscellaneous, \$84,333,213.
- Permanent annual appropriations, \$131,196,407.
- Postoffice department, including parcel post, \$306,563,117.

Congress will have to appropriate just \$1,108,681,771 to operate the government of the United States during the fiscal year 1915, according to the estimates prepared by each department and sent to the house by Secretary McAdoo of the treasury.

The estimates are \$22,864,067 in excess of the appropriations for the last fiscal year, but their total falls \$39,255,066 below the estimates for that year.

For the preservation and completion of vessels already in commission or authorized, the navy department wants \$8,250,000; for the hulls and machinery of the two battleships and eight torpedo boat destroyers, which Secretary Daniels wishes to build in the fiscal year 1914-15, \$7,800,000, and for armor and armament of vessels authorized \$10,091,000. The sum of \$200,000 is wanted for naval defense mines and appliances. To extend the naval gun factory in Washington \$400,000 is asked.

Army Demands. Many increases are sought for the army. Of these a large number are explained in the estimates by the statement that the army itself is larger than it has been heretofore. One of the principal military items is \$300,000 for military aeronautics.

The estimates for the organized militia are larger by many millions than in previous years. For armament in fortifications the estimate is \$5,806,800, an increase of more than \$3,000,000 over last year.

Although the Panama canal probably will be in operation long before the close of the fiscal year of 1915, the war department estimates that \$23,325,985 must be appropriated for the canal that year, which is about \$5,000,000 more than the current appropriation.

Pay For Special Attorneys. One of the most interesting items in the long list of estimates is that of \$475,500 for salaries and expenses of special attorneys, examiners and agents of the bureau of corporations, an increase of \$300,000 over last year. In a note accompanying the request for this additional sum congress is told:

"This increase is due entirely to the plan projected for additional work to be done by the bureau of corporations."

The department of commerce asks for \$100,000 to be used in investigating the cost of production of articles dutiable in the United States in leading countries where they are produced. The census bureau wants \$925,000 for collecting statistics, of which \$506,400 is for a census of manufacturers. For an investigation of problems in connection with public utilities to determine the quality and cost of service required in the regulation of utilities the bureau asks \$100,000.

Secretary McAdoo estimates that he will need \$1,500,000 to collect the income tax.

Department of Agriculture. The department of agriculture asks for \$400,000 to use in eradicating the cattle tick, an increase of \$75,000, and declares several southern states are manifesting an interest in cattle raising owing to the uncertainty of the cotton crop and high price of cattle.

This department lines itself up with the department of justice and congress in the effort to delve into the operations of the cold storage dealers. It asks \$50,000 to investigate the preparation for market, the storing, freezing and other operations incidental to the transportation of poultry and eggs; \$15,000 to look into similar operations in fish; \$25,000 for an oyster investigation and \$20,000 for a biological investigation of food and drug products, with \$654,300 for the enforcement of the pure food and drugs act.

The state department evidences its determination to house American representatives abroad in buildings furnished by the government in asking \$150,000 for the purchase of a site and the construction of an embassy building in Mexico City, \$140,000 for the purchase of a site and construction of a building for the legation at Berne, Switzerland, and \$150,000 for the construction of an embassy in Tokyo.

In your hand you hold a five-cent piece.

Right at the grocer's hand is a moisture-proof package of U need a Biscuit. He hands you the package—you hand him the coin. A trifling transaction?

No! A remarkable one—for you have spent the smallest sum that will buy a package of good food; and the grocer has sold you the most nutritious food made from flour—as clean and crisp and delicious as it was when it came from the oven.

NATIONAL BISCUIT COMPANY

He Kept Count.

A famous animal trainer was talking to a reporter in New York. He said: "The secret of animal training is gentleness. Nothing sudden or brusque must be done. An unexpected caress may anger an animal more than a kick in the ribs. Sudden, brusque, unexpected things never go, no matter how well they are meant. Once I was showing in Scotland. We trainers supped one night with a Scotch admirer. The old man was the soul of hospitality, but I admit I was rather startled when he leaned toward me and said: "Stick in, man Conklin, stick in. Yer frien' Coot's twa mufins aheid o' ye." —Exchange.

Sacrificed to the Nile.

The ancient Egyptians, if they did not worship the river Nile, held it in great veneration and even dread. The Nile had its appointed priests, festivals and sacrifices, and if its rising was delayed for a single day a beautiful young girl was thrown into its waters and drowned in order to appease the god's anger and secure his favors.

A CHRISTMAS DREAM.

DREAMED a dream one Christmas eve. The strangest one, you may believe. 'Twas of a world divinely fair Beyond the blue, far off, somewhere. There grief and tears were all unknown, And love supreme reigned on the throne. Ah, such a joyful, glad some world, Where sorrow's bolts were never hurled! Here faces gaunt with poverty Deride the rich in mockery. Oh, where the chance for kindly deeds? The best within a pauper's reach. No surging, crushed, downtrodden masses, No proud, elite or clan made classes; No seasoned joys for just a few In this fair realm beyond the blue; No staking want with piteous voice; No poor to feed. All had their choice Of that which seemeth just and good. All things were rightly understood. No broken hearts or racking pain; No avaricious, blood bought gain; No grasping, grinding, selfish greed That other's welfare doth not heed. All things were perfect as the love That ruled this spotless world above.

Were this sad world like to my dream And love ruled all, its right supreme, Ah, where the chance for kindly deeds? Were there no poor to voice their needs, Were such a state sublimely true, Oh, where the good that we might do? Were there no faces dewed with tears, Where, then, the solace of the years? If this world knew no grief, no care, Could we our brother's burden share? Ah, love would lose much of its worth Were there no charity on earth! Perhaps 'tis better as it is Than live in realms of perfect bliss, For out of evil cometh good. When God is rightly understood, And since we live and toil and care And not in halcyon dreams somewhere Uplift and help thy fellow man And do the greatest good you can To make this world like that above, Controlled and swayed by Christly love, —Howard L. Wentworth.

The Unwise Christmas

'Twas the night before Christmas, and all through the house One creature was stirring, and that was a mouse. The stockings that hung by the chimney with care He'd nibbled the toes of them, pair after pair. He ate all the candy, six candy canes, too. Not a morsel was left when that mouse had got through.

The moral of which—if you know what a sight is A mouse that has perished of acute gastritis— That Christmas itself may be called into question If carried so far it creates indigestion. —Harper's Magazine.

SAYS INDIAN DISTRUST OF AMERICA IS VANISHING.

Changing Attitude Shown In Pleased Acceptance of the American Flag.

The Rodman Wanamaker expedition of citizenship to the North American Indian has made a journey nearly equal to the circumference of the globe, occupying more than six months of time. Three thousand miles were traveled by stage over mountains and deserts. One hundred and eighty-nine tribes have raised the American flag, joining the thirty-two chiefs who took part with President Taft in opening the ground for the national Indian memorial at Fort Wadsworth New York harbor, on Washington's birthday last.

The expedition has obtained the signatures and thumb marks of this array of red men, every tribe in the United States being represented, and will be able to furnish the government and the nation with a comprehensive survey of all the tribes both as recorded by the camera and by the pen. The last western reservation has been visited, with the consciousness, says Joseph K. Dixon, leader of the expedition, that the flag has made a new era for the Indian and has changed the destiny of a whole race of people.

One of the five great races of the world because of this expedition faces a new morning. The influence of the flag has united the white man and the red man in a common purpose, common aims, common aspirations. A great chief said: "Since the flag has come to us our road now leads straight toward the new morning."

Reading a Horse's Face.

The teachable, tractable horse is broad and flat between the eyes. The bony ridge of his face dishes slightly from the point where the face narrows toward the nostrils. His ears are well set, sensitive and far apart, with a well defined ridge of bone extending across the top of the head between them. Always feel for this ridge in judging a horse. The eye should be large, clear and bright, with a prominent ridge of bone along the inner and upper edge of the socket.—London Answers.
