A New Set of Dishes.

The ladies of the Presbyterian church, and others, presented Mrs. H. G. Furbay with a beautiful set of German China dishes Saturday. Dr. Alexander made the presentation speech. He said in consideration of the fact that he and Alex. Riston appreciated her true worth as a christian lady they thought they would just buy her a set of dishes. Of couse the ladies did not allow Doctor and Alex. Riston to usurp their just

claim of the token of their appreciation for their pastor's wife.

The Wrong Bar.

Two men who had imbibed freely of "tangle foot," were walking up town Friday and when they got in front of Esq. Neff's office one of the twain called

a halt and said: "Jimmy, let's go in and 'take something,'" adding "this is one of the new licensed houses." Jimmy was not quite as "full" as his "pard" and he did not credit the statement, but he said. "read that sign on the building and see." By taking hold of the window frame the fellow braced up and read "E. Neff, justice of the peace," and he vamoosed as quickly as his weak knees would allow him to go.

A Base Prevarication.

The following article was published

in the DuBois Evening Express February 18th, dated at Reynoldsville Feb-

ruary 17th: "Mr. J. C. The author of the above item must be a near relative to the "father of lies." The parties above mentioned did not go to Punxsutawney together, nor are they married, nor do they expect to get married. Just why any one would make such an assertion is unknown. If it was intended for a joke, it is carrying the joke a little too far.

A Board of Health.

Although we have had an abundance of snow, yet it will not be long until the 'beautiful" will disappear under old Sol's warm smile and then the ash piles, rubbish, filth, &c., &c., that will stare at you as you view the back yard will be surprising. In lieu of the fact that such a conglomeration of diseasebreeders will need a hasty extermination, it will be necessary for those whose business it is to look after such things to give it their especial attention. There is considerable sickness in town now and as spring opens up it will increase. Why not have a board of health ready by that time to see that all due precaution is taken to keep disease without our limits? The town council meets next Monday evening and they should then make arrangements to give us a board of health. What is everybody's business is nobody's busi-

are putting forth special efforts to keep up with the tidal wave of prosperity. One of the great demands of a town is a board of trade, which is lacking in Reynoldsville. As it does not require any capital to organize a board of trade, there is no reason why we should not organize one here without any further delay. A public meeting can be called and all who are interested in the town's welfare should attend and elect officers which would consist of a president, vice-president, secretary, treasurer and an executive committee of five, "It is not necessary to have a charter, and all the money required is just enough to buy stationery and postage stamps, Then the officers should get in carnest about it and inside of a year we will have small manufactories of some kind here, and will, perhaps, be able to induce large industries to come to our town. We have good sites to offer as inducements. The future of the town is now in the hands of the people and it will be just what they make it. Reynoldsville will not take a back seat for any town of the same size, nor for some larger towns we wot of, but we must look to the town's future prosperity. Sitting around in stores discussing the matter is not sufficient, but we must act. Why not call a meeting some evening the latter part of next week and organize a board of trade. We are interested in Reynoldsville and feel justly proud of all her advancements and want to see it become the best town in the surrounding country, and there is no reason why we should not succeed grandly when all the advantages are carefully considered and if the citizens will work in unison for the same end. A house that is divided will fall, likewise a town. The man or woman who gains a livelihood in this town and then runs the place down, should be driven out of town. The very fact that they are here trying to make a living is explode, and experience teaches that evidence that it is a better town for they are not to be trusted, the means of them than any other. When speaking of Reynoldsville to strangers don't look for all the discouraging things possible, but consider the bright and prosperous side of all things and give the town a good name, because it is deserving of it. Brumbaugh was born Feb. 12, 1856; died Feb. 21, 1893; was married to William Brumbaugh March 24, 1876; was the daughter of Mr. and Mrs. William Norris; was an invalid almost all her married life, but for the last three years her days were made up of sorrow and sighing because of her intense suffering, yet in the midst of all the sorrow and suffering that could accompany the closing day of life's course, she rejoiced in a Savior's love and left a testimony that will be remembered by all her loved ones. It will serve to them as a great comforter. When she was fully convinced that her sister, who had gone before, was calling her spirit home from this earthly tabernacle of clay to come to the land of rest where there is no sickness, sorrow, pain nor death, she called her husband to The People's Party convention to be her bedside and after asking him to held in the opera house at this place care for her dear boys and girl, bid him farewell and requested him to meet her on the bright shore of eternity. Then she bid her children good bye with a desire and a prayer that they should be brought safe to that home she could see so bright before her, also her father, mother, brothers and sisters. And then with that beautiful thought that she was drawing near to the "River" she said: "Oh, it is beautiful on this side, but it is far more beautiful on the other shore. Now I see Jesus and sister Ettic coming after me," and in a few moments the light of her life went out and her soul went back to God. She leaves to mourn her death a husband, three children, a father, mother, four sisters and two brothers all of whom have the sympathy of all their neighbors and friends. last Wednesday afternoon, and the lecture to have been delivered in the evening by Mr. J. B. Conser, cannot be chronicled as events that actually occurred. The lecturer and others from Punxsutawney and Clayville started to drive to Reynoldsville and after journeying four miles they found the roads so badly drifted that it was impossible to travel over them. They returned to Punxsutawney and got on the noon train, but it missed connection at Falls Creek and they gave it up as a failure and returned home. Two little tots at Brookville narrowly escaped cremation about eight o'clock last Thursday evening. The mother, Mrs. John Dickey, put her two children to bed, left a glass lamp burning in the room and went to a neighbor's house. The lamp exploded and set fire to the room. It was soon discovered and the alarm given in time to save life and property. One of the little children got out of bed and laid on the floor with its face down and was unharmed but the other child was so nearly overcome that it did not return to consciousness for two hours. The damage to the room amounted to one hundred dollars. Too many people put their children to bed and leave the lamp burn in the room. Tuesday Morning Fire.

About two o'clock yesterday morning the fire alarm was given and the hose company responded promptly and hastened to the corner of Grant and Fourth streets where Peter Snyder's house was enveloped in flames. The fire had

gained considerable headway and about the only effort made was to keep the flames under control so that nearby dwellings would not be in danger. Isaac Fisher had lived in the house and he moved out on Monday and Peter Snyder was the sole occupant of the house. When the hose company arrived Peter had his goods piled up in the lot. Snyder had six hundred dollars insurance on the house. Mr. Snyder's house and barn were sold at sheriff sale about the first of last December. Nearly the middle of that month his barn, on which he had fifty dollars insurance, in some unexplained way caught fire and burned down. He had not yet given up possession of the house, and it, like the barn, went heaven-ward in smoke. The old gentleman has been unfortunate, or rather the man who purchased the property, in having one mysterious fire followed so closely by another.

Two trains of vestibuled coaches drawn by two locomotives, dashed across the stage at the Front Street Theater last night, lending realism, the great element of modern stage setting, to the melodrama, "The Shadow Detective," with Daniel A.
