Hood's Cures My Health is Solid As a Duck's Foot in the Mud

Cured of Gravel and Indigestion by Rood's Sarsaparilla

Chirago, Riinois,

"I want to say that I have been made a new man by Hood's Sarsaparrila and Hood's Pills. I was in a wretched condition and paid to one physician \$42 for attendance and prescriptions, which mays use no re-lief. Is iffered intensely from gravel. and think linve endured as m ery as any man from that complaint. I gave up hope of ever getting well and was only walking about to

Save Funeral Expenses.

Nothing would stay on my stoundly. Llegan to take Hoed's Sarsaparilla, and found that it did me good, so I kept on thill have taken fourteen bottles, and health is as solid as a duck's foot in

HOOD'S Sarsaparilla CURES

the mud. Ishall keep Hood's Sarsaparilla in the house, as I consider it the chennest and best medicine in the market. My indigestion is entirely cured, and all symp-toms of the gravel have disappeared." FREDERICK EAUNPARD, No. 54 South Carpenter Street, Chicago, Illinois. N. B. Be sure to get Hood's and only HOOD'S.

Hood's Pills act easily, yet promptly and effi-dentis, on the liver and howels. 25 cents.

THE CROP BULLETIN.

Official Statistics by the Department of Agriculture of the Wheat and Corn

in the Country. The estimated proportion of wheat on hand is 26.2 per cent of the last crop, the smallest percentage in ten years. The quantity on hand aggregates 125 000,000 bushels, 36,000,000 less than last March , and 23,000,000 more than the remnant of the very small crop of 1890. A very large proportion is found in States that do not spare a bushel for commercial distribution, and only 34,000,000 in the principal spring wheat states, more than half of which is required for seed in the spring. Of the winter wheat states only Kansas and California have any considerable surplus available for commerical distribution.

commerical distribution. The corn on hand as estimated aggregates (26, 34, 37) bashes, or 38, 5 per cent of the last product. This proportion has been ex-rested in March four times in the last ten-years and the quantity has been exceeded tive times. The consumption of eight months (out out did higher, only exceeds that fol-lowing the smaller crops of 1857 and 1850. The aggregate sold from farms to go beyond county lines is 27, 159,000 bashes, or 17 per-cent of the crop. The profition increduants

The aggregate sold from farms to go beyond county lines is 27, 370,000 bushels, or 17 per-cent of the crop. The performance line is 1,343,413,000, or 82,6 per cent. The value retorned for merchantable 25,7 cents marking an argrente of 8633,000,000 which exceeds the December valuation by 13,003, 000 averaging 40 cents per bashel. The amount exported in twelve months is 101,000,000 ascet used, 34,000,000 visi-ble stocks, 70,000,000, a total of 62,000,000 mainter an apparent supply of 729,000,000 mainter and apparent supply of 729,000,000 mainter apparent apparent apparent supply apparent supply apparent correspondents, is 57.5 pounds, reducing the estimated product to 491,090,000 of commer-

estimated product to 470,050,001 of commer-cial titlshels. The crop report for March of the depart-ment of agriculture relates to the distribu-tion of corn and whent and the stocks re-manning on farms. It is not a census of individual holdings of growers but it is bas-ed on county estimates of the percentage of last year's product remaining, made by a board reporting to the state agent. All grain, including any surplus of previous years, is included. These separate results are scrutinized, obvious errors and incon-sistencies corrected, differences harmonized and ultimate statements tabulated by states to show both percentages and aggregate to show both percentages and aggregate quantities.

EARTHQUAKE IN RAHWAY.

Buildings Were Swaved and Destroyed

in Eastern New Jersey. The City of Rahway, N. J., was shaken Thursday morning by an earthquake shock a few minutes after 8 o'clock. It did consiberable damage in the city and vicinity. Buildings swaved and the druggists sustain ed considerable loss by breakage. Several hundred bottles were thrown to the floor, Chemist Richter sustained a loss of \$500 by the breaking of a glass jar that held a val unble preparation. A citizen, relating his experience, said: "It sounded to me like the reverberation of a thou-and guns. The earth trembled and rocked. It was like the long undulation of a swell sea." A barn near the city was destroyed; loss \$800.

Sunday Opening of the World's Fair. The endeavor to secure the opening of the Fair, Chicago on Sunday will be transferred from the State courts to the United States Supreme Court, which will be asked to issue an injunction against restraining the opening of the gates. The grounds of complaint will be that the corporation is an Illi. nois one and that Congress has no power to make the restriction.

-MRS. ANNIE GRAVES, of Bost cn. gots verdict for \$12,000 against the New England road for injuries received in an accident. She sued for \$15,000.

THE LABOR WORLD.

THE clerks' unions of Chicago, Ill., will imalgamate. DENMARK pensions all working people over sixty years of age. THE State of Colorado has a labor

The Power of Water.

"A Southern Engineer" contributes a valuable article on "Geology and the Mississippi Problen to the Engineering

Magazine. In it he says : We find in water the only tireless sgent that works in the modification of continents; and instead of being the great renovator of the land, as it is popularly conceived, it is the great de-stroyer. The destruction of ancient Rome has been attributed to time. But it was due simply to the moisture of the atmosphere working through chemical agencies. It was water, invisible but penetrating even the very stones of the wonderful city, that caused her to crumble to ruins, and gave to modern Rome a grade greatly elevated above her But it works not alone ancient grade. in the cities and towns. There is not a hill on earth that has not been shorn of some of its altitude by this subtle force, and there is not a mountain on earth, if not fitfully renewed by volcanic action, that has not been compelled to lower its peak before this universal leveler of the exalted. It may be a dreadful thought, indeed, but we do not know absolutely that we are not dependent on the earthquake and the volcano for keeping our continental habitat above the level of the ocean; for water not only destroys, but it has the persistency and force to carry off to its burial place in the sea all that it has caused to perish. It may take a long time at its task, but working either in its gaseous, its liquid, or its solid form, it seems to be the most persistent thing on earth, never perishing, and, however divided and invisible at times, always ready to unite its forces for a supreme effort at the degradation of a continent.

Cannot Take the Bit.

The chief of the Kansas City (Mo.) Fire Department has invented a new bridle for horses, the use of which makes it impossible for the horse to take the bit between his teeth. It has no bit to take. It is arranged with a strap over the horse's nose, and a steel curb under his jaw in such a way that a hard pull on the reins make the animal very uncomfortable indeed. The new bridle works to perfection, it is said, on a practical test, keeping the horse perfectly under control, while giving hun the minimum of discomfort. One grea advantage of the coatrivance is that it coables the animal to cat and drink in comfort without displacing the bridle. --New York News.

How to Gurss a Woman's Age.

A volume of memoirs has just been published giving the experiences of a French President of Assizes. It bears curious testimony to the insecuracy of women on the subject of their own ages. As the writer's information is from the calender, he speaks only of the criminal classes. The only instances in which he finds correct dates given by women are when they are under twenty-five or over eighty five. At these periods of life, he says, they are to be trusted.

At all other periods the sure controlling tendency is to understate. The magis trate has been able to give a rule for guidance. He finds that female prison-ers invariably state their ages as twentynine, thirty-nine, forty-nine or fifty-nine and from this remarkable circumstance he deduces his rule. If their ages are in the forties, they hodily set them down in the thirties, but conscience asserting itself, they keep as near the truth as they can and fix them at thirty-nine. Whether male criminals do the same the magistrate does not state. - London News,

England has revived an old law against ewcaring.

The New Bread.

 $\mathrm{R}^{\mathrm{OYAL}}$ unfermented bread, made without yeast, avoiding the decomposition produced in the flour by yeast or other baking powder; peptic, palatable and most healthful; may be eaten warm and fresh without discomfort, which is not true of bread made in any other way.

Can be made only with Royal Baking Powder.

Receipt for Making One Loaf.

ONE quart flour, a teaspoonful sait, half a teaspoonful sugar, a heaping teaspoonfuls Royal Baking Powder, half medium-sized cold boiled potato, and water. Sift together thoroughly flour, sait, sugar, and baking powder; rub in the potato; add sufficient water to mixsmoothly and rapidly into a stiff batter, about as soft as for poundcake; about a pint of water to a

more or less according to the brand and quality of the flour used. Do not make a stiff dough, like yeast bread. Pour the batter into a greased pan, 452x8 inches, and 4 inches deep, filling about half full. The loaf will rise to fill the pan when baked. Bake in very hot oven 45 minutes, placing paper over first 15 minutes baking, to prevent crusting too soon on top. Bake at once. Don't mix with milk.

"A SUCCESS."

F. J. Cheney & Co., Toledo, O., Gentlemen ---I have suffered from catarrh for about five years and have tried several remedies without relief until I commenced to use Hall's Catarrh Cure last February. I must say that it is a A SUCCESS, the dropping in my throat disappeared entirely after the first bottle. It increased my appetite, so that I now weigh eight pounds more than my cus' tomary weight. I have recommended it to others and all who used it have been greatly relieved and speak highly of it. One of them was in my store yesterday and expressed his wish to peddle it this winter. Will you please let me know the lowest terms you could furnish it for, as I would like to keep it in stock. Hoping to hear from you soon, I remain, Yours respectfully,
