Sneezing is averted by pressing the upper lip, because by doing so we deaden the impression made on a certain branch of the fifth nerve, sneezing being a reflex action excited by some slight impression on that nerve. S. attached to his name.

A Broken Jar Did It.

Mrs. D. W. Atwater met with an accident last Thursday which will disable her for domestic duties for several weeks, and might have crippled her for life. Her baby was playing on the floor and she stepped onto a chair to get a glass jar off the cupboard and just as she got it in her hand she heard a noise and thought her baby had fallen over. She turned quickly and fell off the chair, still holding onto the jar which broke when it struck the floor and cut clear through the fleshy part of her hand in as far as the second finger.

Big Six.

Joseph Bollinger, a farmer who lives near Prindable, invaded the STAR office sanctum last Saturday afternoon during the editor's absence and left a basket of potatoes with a note stating they are "for the editor's supper." They were immense potatoes. One weighed two pounds and the six together weighed nine and a half pounds. They are the "Dakota Reds." We were surprised to see six such large potatoes in one basket, but it is a common thing for Mr. Bollinger and his good wife to see such large potatoes. We will mention just here that we are thankful to the twain for the potatoes and for their remembering yo editor. All such mementoes thankfully received. May your potatoes never grow less.

Ready to Act.

The Board of Trade met in Centennial hall last Friday evening. The constitution and by-laws drafted by the committee at the previous meeting, were read and adopted. The regular meeting of the Board is to be held on the first Friday of each month at 7:30 P. M. The membership fee is two dollars and the dues are not to exceed two dollars per year. The secretary's salary was fixed at twenty-five dollars a year for the first year. The amount of the treasurer's bond is \$500.00 and the secretary's \$300.00. The constitution and by-laws are to be printed and each member to receive a copy of the same. The Board is now in working order and the various committees will, no doubt, actively look after their respective business.

State Examination.

The State examination for mine inspectors is being held in the Court House at Pittsburg this week. These examinations are held every four years. There are eight vacancies to be filled. In consideration of the fact that the position of mine inspector pays two thousand dollars a year and all expenses it is not to be wondered at that over one hundred men will appear before the examining committee this week with a view of being one of the lucky eight. Among the number is John D. Lowther, of our town, who went to Pittsburg Monday afternoon. Mr. Lowther passed a good examination twelve years ago, but was entitled to the position then, but at that time political influence gave "unto the victor the spoils," and as he did not stand in as well as some others he was not "one of them." The law has been changed and now the man who passes the best examination gets the job.

The School Board Restrained from Issuing Bonds.

Below we give the order issued by Judge Clark last Friday restraining the School Board of this borough from issuing bonds for school building purposes. The board made a motion asking the Court to dissolve the preliminary injunction, which was sent to Judge Clark at Clarion this week. Just how long it will be now before a new school building will be erected in Reynoldsville is one of the uncertainties.

And now, April 7th, 1893, the foregoing motion for a preliminary injunction, bill in equity and injunction affidavits, having been fully considered by me, it is hereby ordered and decreed that the said above named respondents, School Directors of the Borough of Reynoldsville, be and are hereby enjoined and restrained from issuing coupon bonds to the amount of forty thousand (\$40,000) dollars or any part thereof, to pay any indebtedness that may have or might be created to pay for school sites and school buildings thereon, or from negotiating said bonds or any part of the same, or from levying taxes in said district to pay the principle or interest that might become due on the same, or from purchasing school sites and building school houses or houses from and out of the proceeds of said bonds, if any, in pursuance of any action taken by said school board by resolution of 20th of May, 1892, or in pursuance of an election held the 25th day of June, 1892, for the purpose of obtaining the assent of the electors of the said Borough for an increase of indebtedness, pending the determination of the Bill in Equity filed in the above stated case until the final hearing therein, of the further order of the Court.

And it is further ordered that the complainants' bond, with sureties in the sum of three thousand dollars, dated March 22, 1893, be and is hereby approved.

By the court, E. HEATH CLARK, Pres. Judge. Certified from the record, W. A. NEALE, Prothonotary.

Arrested for Assault.

A knock-down occurred in front of King & Co.'s store Monday evening which resulted in the fellow who done the knocking, Archie Huntingdon, being arrested yesterday afternoon for aggravated assault. He gave \$300.00 bail for his appearance at Esq. E. Neff's office at ten o'clock to-morrow morning for a hearing. The circumstances as given to a representative of the STAR were as follows: Archie Huntingdon ordered a bale of hay from King & Co., which was sent to his home and when the driver got it on his shoulder to carry to the barn and had gotten into the front yard his team started. He dropped the hay to stop the team. He had some other goods to deliver and when he caught up to the team decided to drive on, intending to carry the hay to the barn on his way back. In the mean time Mr. Huntingdon, who works at night on the R. & F. C. R'y, started to his work and when he came to King & Co.'s store he found Mr. Coleman at the weigh scales weighing a horse. Archie laid in a complaint about the hay being left in his front yard and a few words passed between them when Archie, while Coleman was paying attention to the weighing, gave him a right-hander on the jaw. As a natural result Mr. Coleman dropped hard and the back of his head struck the edge of a stone and he did not know what was the matter with him for several minutes afterwards. Two ugly gashes, each one an inch long, were cut on the back of his head, one across the other, similar to an X, only not quite so neat. While Archie was getting into trouble about the hay the driver returned from his trip and carried it to the barn.

Enforce Sanitation.

The regular monthly meeting of the Town Council should have been held on the first Monday in April but on account of other business it was postponed until the following Thursday. No quorum being present that evening it was postponed until Monday night of this week. There was not enough councilmen present to do business and again it was postponed. Some action should be taken before many more days about having back yards and other disease producing places looked after. There should be a thorough cleaning up and sanitation of the streets, alleys, byways and premises where any sort of accumulation threatens the general health or comfort of our citizens. The coming season, according to often repeated statements, will be one of lurking danger in an anticipated invasion of the cholera, but even if no danger should come from that source the necessity for the thorough purification always exists, and every effort made to secure it by the officials who be in authority should be promptly met and heartily sustained by every one who regards physical comfort and healthful surroundings as desirable and health-giving. An ounce of prevention in the removal of refuse heaps, may be worth more than pounds of uneffectual effort after awhile.

Dissolved.

The partnership heretofore existing between Ed. Reilly and Miles Walsh, as proprietors of Hotel America, was dissolved on the 7th of April, 1893, Miles Walsh retiring from the business. All outstanding bills are to be paid to the undersigned, and all bills contracted by the firm before the dissolution, will be paid by me. ED. REILLY.

For Sale.

A house and lot on Jackson street. Enquire of Jos. Boody.

Unsurpassed Here.

We feel safe in saying that there never has been an opening in Reynoldsville where a store has been as neatly and tastily trimmed and the goods displayed so advantageously as J. B. Arnold's spring opening last Thursday evening. Herman Sindorf, the clerk, has good taste and thoroughly understands fixing up a store in fine style. The interior of the store, from one end to the other and from floor to ceiling showed the touch of a skillful hand. Besides the fine goods used to beautify the store room, a number of potted plants were placed here and there through the room. In addition to the four large gas lamps always used, five or six parlor lamps with colored trimmings, were placed where their shining would show things off to the best advantage. A music box produced sweet music for the occasion. The new goods, flowers, music box, proprietor and clerk all vied with each other in trying to make it pleasant for the large number of ladies who accepted Mr. Arnold's invitation published in last week's STAR to attend the opening. The unanimous verdict was that it surpassed anything of the kind ever shown in town. It was not the work of a day, however, but the result of almost two weeks hard work by Mr. Sindorf. There is plenty of hard work and some expense connected with opening days, but it has a tendency to please the ladies.

It may not be out of place to say right here that within the past year many of our Reynoldsville stores have been fixing up their goods to show off to the best advantage. After a visit to our various dry goods stores, gents' furnishing stores, tailoring establishments, jewelry palaces, drug stores, hardware stores, grocery stores, &c., &c., why should people find it necessary to go to neighboring towns to buy what they can get at home? The business men of this town seem to be putting forth more of an effort to please the people and they should be encouraged by your patronage. Read the advertising columns of the STAR and see what inducements our merchants are offering for you to buy at home.

Excursion Tickets to the World's Fair.

The Pennsylvania Railroad Company announces that the Trunk Line Passenger committee has authorized the railroad to sell excursion tickets to Chicago on account of the World's Columbian Exposition on a basis of \$40 from New York by fast express trains, and \$32 by express trains scheduled to make the run in thirty-five hours or more. Proportionate rates will prevail from all stations in Trunk Line territory. The round-trip rate from Philadelphia will be \$36.50 by fast trains, and \$29.20 by the thirty-five-hour trains, starting from New York. From Washington and Baltimore the rate will be \$34.50 by fast express trains, and \$27.60 by slow trains.

These tickets will not admit of a stop-off en route, and can be used for a continuous passage only. The tickets will be on sale from April 15th to October 30th inclusive, and will be valid for return trip until November 15th, 1893.

All the lines leading to Chicago will sell tickets good for passage going by one route returning by another, so that a person may go out by the Pennsylvania Railroad, and, if he wills, return by the New York Central, Baltimore and Ohio, Erie, or any other trunk line, or go out by any other line and return by the Pennsylvania.
