tathe Time for Catarrini Dyspepsia-The Blood Must be Cleaused.

The symptoms of catarrhal dyspepsia are: Coated tongue, pain or heavy feeling in the stomach, sour stomach, belching of gas, dizzy head, sometimes headache, despondent feelings, loss of appetite, palpitation of heart and irregularity of the bowels.

For this condition Pe-ru-na is found to be an admirable remedy. In all cases it brings prompt relief to the painful symptoms, and in a large per cent. of the cases it makes a permanent cure. Pe-ru-na soothes the inflamed mucus surface, and thus strikes at the root of the disease. In cases where the inflammation has been so severe and continued as to produce extreme irritability of the stomach, the remedy may be taken in small doses at first, diluted in water; but as soon as the improvement is sufficient to permit the full dose to be taken undiluted, it is a better way, and the cure is much more rapid. Pe-ru-na is also a spring medieine which at once removes the cause of all affections peculiar to the spring season by burifying the blood of all contaminations, and invigorating the whole system.

Two valuable books, No. 1, setting forth in detail the treatment of catarrh, coughs, cold, sore throat, bronchitis and consumption, in every phase of the disease, and No. 2, on spring remedies and diseases, will be " sent free to any address by The Peru-na Drug Manufacturing Company of Colum-

A glass factory at Liverpool has glass journal boxes for all its machinery, a glass floor, glass shingles on the roof, and a smoke-stack 105 feet high built wholly of glass bricks, each a foot square."

# Hood's Cures

After the Crip It Restores Health and Strength.

Mr. Dexter Curtis

Is well-known in Wisconsin as a manufacturer of collar pads and boots for horses, and is a re-liable business man.

" Madison, Wis., Jan. 20, 1900. "Messrs, C. I. Hood & Co., Lowell, Mass. 'I cannot speak in too favorable terms of the good qualities of Hood's Sarsaparilla. I have had a bad cough for 2 years, coming on after the grip. I tried physicians, went twice to the Hot Springs of Arkansas, but all did no good. I got a bottle of Hood's Sarsaparilla and it gave me relief at once. The second dose seemed to go to the right spot. afterward got 6 bettles, and have taken nearly all of it, and know I am much better every

way.

"So many medicines are a vertised that do no good, I would not say anything in layer of

## THE U.S.FLAG ORDERED DOWN

IT NO LONGER WAVES O'ER Ronolulu and the Protectorate is De-

clared Off.

On Commissioner Blount's arrival at Honolulu he ordered the American flag, which for two months has floated over the government buildings, hauled down and the United States cruiser Boston's forces sent aboard. A crowd of 2,000 saw them go There was consternation among the American party and rejoicing among the royal-Blount is a good questioner, but gives little information. Minister Stevens had less than twenty-four hours' notice of what

was done.

The chief apprehension here is Japanese interference, and it is feared the queen may appeal to the captain of the Japanese cruiser. Commissioner Blount, Minister Stevens and Admiral Skerrett have agreed, it is stated, that Japanese interference would be an act of hostility to the United States, and will act accordingly in an emergency. The Japanese consul and the commander of the cruiser deny any hostile intentions.

The officers of the Japanese cruiser called on Admiral Skerrett a few days ago and assured him no hostile intentions were entertained. The admiral responded good naturelly but dryly, and invited the attention of his visitors to official data containing a comparative statement of the power of the guns of the Naniwa and Boston, montalantly remarking as was said by another naval officer on some similar occasion, "that the United States is making some of the best guns in the world."

The consul stated positively that neither he nor any attache of the consulate had received any overtures from the queen, though he admirted he suspected the deposed sovering had leanings towards Japanese assistance.

Commissioner Blount has been receiving

reign had leanings towards Japanese assistance.

Commissioner Blount has been receiving much attention from Hawaiian residents, who are frequent callers upon him.

The provisional government has been notified that the American protectorate will be declared off May 1 on the ground that it is not necessary and is incompatible with any diplomatic negotiations that might be arranged between the two countries. The United States, however, would brook no hostile interference in Hawaiian affairs by any foreign power. The provisional government is consequently preparing to order out its force to maintain peace and order.

The scene at the hauling down of the flag was dramatic in its very quietness. The provisional government were present and throngs of natives, Chinese, Japanese, whites and half castes on foot and horseback. At the sound of the busic call blown by Lieut, Draper the flag was drawn down by unseen hands and the Hawaiian flag run up over the government buildings.

Previously Commissioner Blount had answered the audress of a delegation from the Amexation club in these words:

"Gentlemen, you will very readily understand that I can make no reply to this address. My necotiations will be conducted entirely with your government."

tirely with your government."

BLOUNT CONFIRMS THE NEWS.
United States Commissioner Blount's dispatches from Honolulu were received Saturday by Secretary Gresham at Washington. Mr. Blount confirms the reports from San Francisco that he had ordered down the American flag and that the marines had been relieved from duty on shore and returned to the warship Boston. While explaining in full the reasons for his action, he says that he found everything quiet there, and that the majority of the people seemed to think that there was no necessity for a United States protectorate. Secretary Gresham said that he expected to receive full details from Mr. Blount next week.

### EMIN PACHA DEAD.

The Great African Explorer Given Up for Lost,

EMIN PACHA

A letter received at Zanzibar, Africa, from Tippoo Tib's son confirms the report of the death of Emin Pachs, the great explorer, and all his people.

Edward Schnitzer was born in Oppeln, in the Prussian province of Silesia, on March 20, 1840, son of the Merchant Louis Schnitzer—died 1845—and his wife, Pauline Schweitzer, both o. whom were Protestants. The family left Oppeln in 1842 for Neisse, where the mother and one ester of our friend still reside. After gratuating at the academy of the town last mentioned, Elward Schnitzer entered upon the course of medicine at the University of Breslau. During the years 1863 and 1864 he continued his studies at the University of Berlin, where he took his degre.

He decided to win his way as a physician in Turkey, and left Berlin at the end of 1854. In Scutaria he excited the attention and inverse to the then Vali Ismael Pacha Haqqu, and was attached to the staff of the Turkiesh lignitary, who was on a round of official rists to the various provinces of the wide Kingdom. After having seen in this way armenia, Syria and Arabia, Schnitzer arrived at length at Constantinople, where the Pacha died in 1872.

Suddenly, however, his old love of wanlering seized him afresh. He set out for Egypt when a favorable prospoot had meanwhile presented itself. Thus we see the energrising man at the beginning of 1876, mtering into the Egyptian service under the name of Doctor famin Effendi, and offering himself in the south to the Governor Jeneral of the Soudan, which was then being rapidly extended.

In 1878 he was made a Bey and appointed how any province until rescued by Stanley in 1899. Boon after he returned to the heart of Africa, where he has just periabed. Edward Schnitzer was born in Oppeln, in

wept southward and Emin was imprisons in his own province until recoused by Stanton in 1890. Boon after he returned to the hear of Africa, where he has just periahed.

Expelled For Working on Sunday. At Columbia, S. C., Miss Sadie Means, 18 years old, who is a telephone exchange em-ploys and therefore must work on Sundays, has been expelled from the Presbyterian church. An appeal in the case was sustain-ed by the presbytery.

#### 300 MINERS ENTOMBED.

A Frightful Disaster at a Mine in Wales,

A Gas Explosion Fires a Mine.
A frightful mine accident occurred at
Ponty-y-Pridd, Wales. A spark from an engine ignited gas in a coal pit and caused an explosion. Three hundred miners are entombed in the mine, and there is the greatest fear that they may have perished. The rescuers who went down were driven back without being able to bring up more than five of the dead, and the fate of the other miners is in doubt.

The most agonizing scenes are witnessed and throngs of men; women and children, relatives of those below, are crowded about the mouth of the coal pit.

The fire broke out in the eastern section.

The fire broke out in the eastern section, from which 70 men succeeded in reaching the surface through the main dip. They had a terrible struggle to get out; many of them were scorched and all were terribly exhausted. They brought no good news as to those who were left behind, but on the contrary expressed their dread that all those in the mine had perished.

In two sections of the mine the fire has been put out. The extinction of the flames has been followed in each case however, by the action of the gas and it is feared that explosions may follow shortly. The number of men still in the mine cannot be ascertained, although it is known to be well above 50.

#### A TERRIFIC MILL EXPLOSION.

An Industrial Establishment at Madrid, Wrecked and Many Workmen Killed.

There was an explosion in the Sala Caladia Company mills in Mataro, near Madrid, Spain. The roof of the building was blown off and struck more than 100 yards away. The walls were rent and the flooring collapsed. All the men employed by the company were at work when the explosion occurred and most of them went down with the wreck. Fire broke out immediately after the explosion. The dead bodies of nine workers and the manager have been removed from the ruins and men are trying to recover the rest of the bodies. The number of dead is not yet known.

-AN OLD MAN named John F. Wisenbaker was murdered at his home, seven miles south of Valdos, Ga., by a man whom he found robbing his home. Three suspects are under arrest.
