A GIGANTIC PENSION FRAUD. A Norfolk Lawyer. Who Has Been Steal-

ing Large Sums, Arrested.
The pension department at Washington believes it has unearthed stupendous pension frauds. An attorney of Norfolk, Va., W. R. Drewry, is under arrest, charged with securing fraudulent pension claims by the wholesale, using as his instruments in many cases colored men and women who could

not read or write. About three months ago Secretary Noble ordered three cases dropped from the pension rolls that Drewry had secured, and later on he was debarred from practice. When the present administration came into power a thorough investigation was made into the cases that Drewry had secured and when it was concluded a few days since it was discovered that about 16 per cent of the cases he had handled under the act of June 27, 1890, were secured through the filing of false declarations.

The extent of the frauds can be understood when it is stated that 166 cases were granted and that everyone of them carried arrears. The steals will probably aggregate \$100,000. Drewry used the seal of a notary, R. A. Richardson, whose office he shared. Richardson is said to have been ignorant of the use to which his seal had been put, and Drewry has already been convicted of forging the notary's name and seal.

It seems very odd to see sailors on ship or in barracks comb-ing each other's tresses, or coolies at the street corners performing the same friendly office. Dr. John Hall and Dr. Howard Cros by are noted for their punctuality. Crowded as they are with engagements and meetings, they are never late, but generally have to wait for their more leisurely brethren in the ministry. Said one of them the other day: "If I had to attend a funeral on Monday and was fifteen minutes late, and on Tuesday was ten minutes late at a wedding, to the dismay of all the party, and on Wednesday should be late where I was to lecture, and keep my prayer meeting waiting on Thursday, and so on until Sunday, what would my people think of me if I should tell them that my failures to keep my engagements had been caused by a disordered watch?"
An excellent lesson was enforced by this practical illustration.—New York Tribune.

# Housekeepers Should Remember.

The Government Chemists, after having analyzed all the principal brands of baking powder in the market, in their reports placed the "Royal" at the head of the list for strength, purity and wholesomeness; and thousands of tests all over the country have further demonstrated the fact that its qualities are, in every respect, unrivaled.

Avoid all baking powders sold with a gift or prize, or at a lower price than the Royal, as they invariably contain alum, lime or sulphuric acid, and render the food unwholesome.
