PNU 23 '93 KARL'S GLOVER COOT SUNITIES BLOOD THE SKIN URES CONSTIPATION ERUPTIONS ON THE SKIN EAUTIFIES COMPLEXION by Druggista or sent by mail. 250, 500. \$1.00 per package. Samples free. KO NO for the Tweth and Breath, 250.

For two years I suffered terribly with stomach trouble, and was for all that time under treatment by a physician. He finally, after trying everything, said my stomach was worn out, and that I would have to cease eating solid food. On the recommendation of a friend I procured a bottle of August Flower. It seemed to do me good at once. I gained strength and flesh rapidly. I feel now like a new man, and consider that August Flower has cured me." Jas. E. Dederick, Saugerties, N.Y.S.

COLUMBIAN FAIR NEWS ITEMS

SUNDAY FAIR A FAILURE. ONLY ABOUT 50,000 PROFILE WERE THERE. OF TRUE NUMBER VERY FEW WERE WORKING-MEN. WRO WERE EXPECTED TO COME BY THE THOUBANDS.

There was no great outpouring of the wage workers or any other class at the exposition on Sunday. The oppressive heat and a heavy storm in the middle of the afternoon accounts in part for the small attendance. On the whole the second open Sunday can hardly be called a success, judged by the standard of popular ap, royal and the presence of working men, for whose benefit and edification in particular the gates of the Fair are open. The cafes and the beer gardens in the foreign villages were liberally patronized. The New England State buildings and those of Pennsylvania, New York, Missouri, North Dakota, Utah, Delaware. Maryland and Virginia were locked.

Virginia were locked. Many of the finest exhibits were hidden from view because their exhibits or their agents do not propose to work seven days in the week. The coverings which protect the exhibits at night were not removed and all the visitors could see were big ornamen-tal booths and show cases disfigured with canvas, wood or iron sheeting. The exposi-tion authorities have no right to remove the coverings without the permission of the exhibitors, and no arrangements have yet been made for unveiling them on Sun-day. Mot even a flag was to be seen on the buildings of Great Britain. Canada, New South Wales and India, and the doors were locked. Visitors were denied access to the great display of the United States Govern-ment in the big-domed building and the small adjuncts. Machinery ball was silent. It was a duil day for the guide and catalogue sellers, as nearly all the visitors were Chicago people.

sellers, as nearly all the visitors were Chicago people. Music appropriate to Sunday was provided in the early part of the day by the Chicago band, but the audiences were not large. Everybody who passed through the Plaisance stopped to strain their eyes heav-enward, to see the intrepid workmen re-moving the mass of scaffolding from the high and airy Ferris wheen and tightening the spokes, preparatory to putting in the six great cars which will go round with the wheel on June 15 for the first time. A dispatch from the Chicago "Record" says:

says: The paid attendance at the Fair on Sun-The paid attendance at the Fair on Sun-day was 51.344 adults, and 2.960 children.or about 20,000 less than last Sunday, and many less than attended on certain other days of last week. The directors had confidentially counted or a Sunday attendance of not less than 200,000 to 250,000. Some rain fell this afternoon, but it was a pleasant day in the main. Sunday opening is distinctly a fail-ure.

All the Southern buildings were open to day except those of Virginia and Missouri.

THE EDISON TOWER.

THE EDISON TOWER. A SHAFT 100 FEET HIGH OF MANY-HUED INCAN-DEDEENT LAMPS. The formal opening of the Electricity oui ding took p see Friday night. The fea-ture was the unveiling and lighting of the big Edison tower, erected by the General Electric Company. This shaft represents the highest achievement of the incandes-cent lamp and is about 100 feet high. It springs from the roof of a colonade pavilion sarrounding the base, and the entire inter-tor is filled with thousands of incandescent lamps, as many hued as the Western snn-set. The colors are arranged by mechanical methods, capable of being flashed in har-mony with the strains of music. The column is crowned with a well pro-primatic crystals. Upward of 30,000 of these beautifn jewels are straing on a frame and are all lighted from the interior by hundreds of incandescent lamps. The effect produced is maryelous.

of incandescent lamps. The effect produced is marvelous

FIGURES AWAY OFF.

FIGURES AWAY OFF. WORLD'S TAIR OFFICIALS FROME THEY CAN'T GUESS AT A DAY'S ATTENDANCE. Just as the officials were mistaken in their estimates of the Sunday crowds by guess-ing too heavily, so they were wrong in the attendance on Decoration Day. Sunday the officials thought 150,000 persons had paid admissions and the official figures showed less than 80,000. Their guess of Tuesday's half dollars paid in was under 100,000, while in fact 123,067 paid to enter the gates, and adding an estimate of 65,000 free passes the Decoration day attendance was nearly 190-000. On the same day in 1876, also one of fine weather, the paid admissions to Fair-mont Fark was 82,222. The marble room of the German art sec-tion was thrown open to the public without oremore.

LATER NEWS WAIFS.

DIRABTERS, ACCIDENTS AND PATALITIES. At Detroit, Mich., Lottie Dingemans, aged 13 years, and her little 5-year-old niece, Clara Wagner, were drowned in the river Rouge, Sunday afternoon. The younger child, while walking along the river bank, fell in, and her companion plunged in to rescue her, but both were overcome by the

rapid corrent. William Bente, a stenographer, and wife, Elsie, his sister, aged 20; Helen Dietz, his his niece, and Pugh, a young man, were burned to death at a fire in New York City on Sunday.

George Coulter, B. J. Morris, William Cox and John Morrissey, firemen, were killed by the falling of a wall at a fire in Omaba Saturday.

At Bakersfield, Cal., James M. Reed, 43 years of age, and his wife Mary, aged 45 years, were drowned in an irrigation canal. Reed having leaped in to save his wife.

Peter McGovern, a young gasfitter, an unknown girl were drowned in the Pas-saic river at Newark, N. J. They were out rowing.

RELIGIOUS.

Before final adjournment at Reading, Pa., the Reformed German Synod voted down a resolution that the members do all in their power to overthow the liquor traffic and use their united efforts to have a clause inserted in the Constitution of the United States to prohibit the manufacture and sale of intoxicating liquors as a beverage by a vote of 36 to 42.

The Lutheran General Synod in session at Canton, O., adopted a resolution forbidding the marriage of divorced persons, except where the party desiring to marry was divorced upon the ground of the commission of a cardinal sin by his former helpmeet.

FINANCIAL.

Potter's Bank, the oldest in Paulding county, O., and heretofore considered one of the safest, made an assignment to J. B. Brondix. The bank was established in 1874 and always done a large business. It done a large business loaning money on land in that county.

Cheverton, Marton & Co., bankers, Chica go, made a voluntary assignment to Abraham Baldwin. Assets were scheduled at \$100,000 and liabilities at \$70,000.

At Johnson City, Tenn., the Carnegie Land Company and Carnegie Iron Company made an assignment to J. W. Cure The liabilities, due largely to Eastern and Northern parties, are placed at \$125,000. The assets are estimated at \$600,000. Inability to float bonds was the cause.

At Cincinnati all of the 70 or more furniture manufactories, except the Robert Mitchell and the Huss Brothers companies, shut down Saturday night. Both sides are determined and the suspension threatens to continue all this year or longer. The factories employ 7,000 hands, with a weekly pay roll of \$105,000. The lockout will en-

CRIMES AND PENALTIES.

near Laurel, Dela ware, killed his wife and father because they upbraided him for coming home drunk. Dennis fled to the woods, killing the sheriff in his flight and s at large. If caught he will be lynched. Three American crooks robbed a farmer named Edy, near Beech Ridge, Ontario, and then murdered him, his wife and daughter Saturday.

The trial of Lizzie Borden for the murder of her father and stepmother has opened in New Bedford, Mass.

WASHINGTON.

President Cleveland returned from his fishing trip to Hog Island Sunday morning. Secretary Carlisle has returned from his trip to the Eastern shores of Maryland, where he has been entertained by Senator and Mrs. Gibson.

Of What Use Was Bis Strength?

Colonel Fred Burnaby, whose ride to Khiya made him famous, whose ride to Khiya made him famous, was am-bilious when a boy to become the strongest man in the world. Ap-pointed a cornet in the Royal Horse Guards at 17, he threw himself into When a pre the pursuit of muscle. examination demonstrated that cise his arm measured round the blceps seventeen inches, his cup of joy wa It ran over when, at Aldershot, full he lifted straight out with one hand a dumb-bell weighing one hundred and seventy pounds, and no other man in the camp could perform the same feat. He once undertook to hop a quarter of a mile, run a quarter of a mile, ride a quarter of a mile, and walk a quarter of a mile in a quarter of an hour. He covered the distance in ten minutes and twenty seconds. A horse dealer arriving at Windsor with a pair of beautiful ponies that he had been commanded to show the Queen, took them first to the quarters of the officers of the Horse Guards. Some of these, by the way of a surprise, led the ponies upstairs into Burnaby's rooms. When the time came for them to go, the ponies would not walk down-stairs. The horse-dealer was in a quandary, but young Burnaby came to his help by taking a pony under each arm and walking down the stairway. He was barely out of his teens when he was acknowledged to be the strongest man in Great Britain, but he paid the penalty of success in wasted tissues and failing health. His stomach refused all nourishment save that afforded by ice-cream, and the doctor advised him to travel. Alsence from duty for a long time, the abandonment of dumb-bells, and the laying aside of his ambition to become the greatest of athletes restored him to comparative health.

Fish Recognize Their Food.

It is a well-known fact that seaanemones have a sense by which they recognize food. This has been studied recently by Herr Nagel, at the Zoo-logical Station, in Naples, and he has endeavored to localize it. Among other experiments a small piece of a sardine was brought carefully to the tentacles of one of the animals; the tentacle first touched, then others seized the food and surrounded it. and the morsel was swallowed. A similar ball of blotting paper, satu-rated with sea water, brought near in the same way, was not seized. If, however, the ball was soaked in the juice of fish it was selzed with the same energy as the piece of fish, but often liberated again after a time without being swallowed. Blotting paper saturated with sugar acted like the other, but more weakly. If saturated with quinine, it was refused. the tentacles drawing back.

New Ides.

A Kansas man, B. D. Hanna of Cowley, has a plan for preserving wheat in the bin free from must or wcevil. In 1891 he had 1,000 bushels of wheat and placed it in his granary. He first placed a stalk of green hemp in the bottom of the granary, and for every load of forty bushels he placed another stalk or a part of a stalk of green hemp, covering the top, when the granary was full, with ten or a dozen stalks. When he removed the wheat one year later it was bright, plump, and without a sign of must, mold, or weevil.-Live Stock Indicator.

We Hival the Troples

There are now more than 500,000 almond trees bearing in the United States; there are hundreds of thousands of bearing cocceanut trees; there are more than 250,000 olive trees, producing fruit equal to the best Mediterranean varieties. There are more than 500,000 bearing banana plants, 200,000 bearing lemon trees, 4,000,000 orange trees, and 1,000,000 pincapples. 1,000,000 pineapples.

A Novel Scheme.

A Matter of Health

I Costs more to make Royal Baking Powder than any other, because its ingredients are more highly refined and expensive. But the Royal is correspondingly purer and higher in leavening strength, and of greater money value to the consumer. The difference in cost of Royal over the best of the others does not equal the difference in leavening strength, nor make good the inferior work of the cheaper powders, nor remove the impurities which such powders leave in the food.

Where the finest food is required, the Royal Baking Powder only can be used.

Where the question of health is considered, no baking powder but Royal can be used with safety. All others are shown by official analyses to contain lime, ammonia or alum.

JEFF DAVIS'REMAINS

Finally Placed in a Deep Grave in Presence of Thousands. th

All that is mortal of Jefferson Davis now rests in Hollywood, at Richmond, Va. The special from New Orleans bearing the remains and escort arrived there Wednesday morning. At the depot the First Regiment and the veterans from Lee and Pickett camps were drawn up to do honor to the dead, while thousands of men, women and children, some of whom had been waiting for hours, testified their appreciation of the occasion by the most respectful silence.

occasion by the most respectful slience. As the casket containing the body was removed to the hearse heads were uncover-ed. The procession then proceeded with the visiting escort of veterans from various Southern States from the post of honor to the State Capitol building, where the body was placed in state in the rotunda immedi-ately in front of the Senate Chamber. Over 25,000 people viewed the bier. At 3:30 the mains were conveyed to Hollywood. Flowers were strewn along the route, and the sight was a beautiful one. At the cometery the display of veterans was undoubtedly much greater than at the intee the war have so many Confederate noud. The grave was of unusual depth and size and was carefully constructed of brieks and lined at the head with the Confederate national flag, at the foot with the bat-le flag and on the sides with broad stripes of red and white-the Confederate colors. After the funeral services the casket was jusced into the grave and the vast throng discand.

The Public Debt Statement. The public debt statement issued at Washington shows a net decrease of \$730,425 09 during the month of May. The aggregate interest and non-interest bearing debt May 31 was 6061,750,888 63; on April 30 it was 6962,407,764 13. The total cash in the treasury was \$754.122,084 47 the gold reserve \$95,048,640 and the net cash balance \$56,-514,014 30.

MONTHLY OIL SUMMARY.

Peunsylvania and Ohio Show an Increase While Indiana Lags. There were 195 wells completely in the

various oil producing sections of New York, Pennsylvania, West Virginia and Southeastern Ohio during the month of May, 41 of the number being dry and the new production was 8,131 barrels. Compared with the report for April, there is an increase of 48 completed, 13 dry holes and 1,169 barrels production. In April 147 wells were completed, the new production was 6,962 bar rels, and 28 of the entire number proved dusters. March completed 140 wells; 33 of them dry and the new production was 7,-650 barrels

The work under way at the close of May consisted of 145 rigs and 295 wells drilling, a decline of 11 in rigs and an increase of 25 in drilling wells, as compared with the Ap-ril record. This is a net increase of 88 in rigs and eralling wells over the report for March 31. On April 30 there were 165 rigs and 268 drilling wells in the region, against 296 drilling wells and 130 rigs on the 3 lst of March.

and 205 drilling wells in the region, against 206 drilling wells and 130 rigs on the 31st of March. On May 1, prices were again - dvanced for Buckeye oil, and the North Lima 464 cents a barrel. The Northwestern Ohio fields completed 128 wells in May, with 6, 858 barreis production. Compared with April there were seven fewer wells complet-ed, accompanied by an increase of 1.376 barreis in the new production. The Ohio fields showed an increase of 20 drilling wells and 35 rigs, a net increase of 64 over the report for April. Indiana completed six more wells in May than in April, but the production was 1.480 barreis less. Last month's production was 1.330 barreis greater than that of March. In April 39 wells were completed eight of them were dry holes. In May 45 wells were completed, 14 being dry holes, and the new production was but 2,055 bar-reis, 1.180 barreis less than the preceding month. The new work under way is only slightly in advance of what it was 30 days ago.
