What is Going On the World Over. Important Events Briefly Chronicled.

Capital. Labor and Industrial. Four hundred miners who have been out on a strike for two months in the Coal Creek and Briceville districts, Tenn., refurned to work on a compromise with the companies which was a ten per cent reduction and \$1 off on house rent. The reason given by the miners was that their wives and children were starving.

The employee of the Chesapeake, Ohio and Southwestern vallway have accepted the 10 per cent reduction in wages and the men who went out when the reduction went into effect, October 1, have returned to work.

The Merchants woolen mill at East Dedham, Mass., started up on three days a week time with a 10 per cent cut down.

The striking wire drawers in the mills at Balem and Findlay, O., will return to work at a 10 per cent, reduction of wages.

THE AMERICA'S CUP.

It is all over. The American eagle car now flap his wings until his tail feathers drop out and no one will say a word. The "land of the free," etc., is again on top and America has once more demonstrated he right to the claim of mistress of the yachtng seas. On Friday in New York harbor for the eighth time in less than half a cen tury the pride of Europe has been knocked down and trampled upon, for the eighth time the swiftest of English cutters has been compelied to lower her colors and admit defeat at the hands of the American seamen. The American cup is safe again and all Europe mourns. Lord Dunravan's yacht Valkyrie was beaten for the third straight time by the Vigilant and nothing more is necessary.

Despite the fact that it was Friday and the 13th day of the month, and around which conditions o'd salts had predicted a l sorts of bad things for the Vigilant, the American yacht beat the Valkyrie by 40 seconds in the third and last race and retains the America's cup.

The race was 15 miles to windward and return and run on a choppy sea and in a freshening gale. The Valkyrie's allowance of 1 minute and 48 seconds was cut down to 1 minute and 33 second because of the extra ton of lead added to her ballast. Un like the other races, Friday's was made with a flying start, from which no advantage is deducted.

With a choppy sea and the wind at a velocity of 28 miles, the third and decisive race for the America's cup on Friday was started at 12.02 o'clock. The Vigilant cross ed the line at 12.07 o'clock with the Valkyrie one minute behind. The Vigilant tacked

## TWELVE FFC PLE HILLED. Frightful Disester on the Michigar Central Road. Many Persons

Injured. The most borrible railroad disaster of the year occurred at Jackson, Mich., Friday morning on the Michigan Central road.

Twelve persons were killed and many in jured, five perhaps fatally. Ten miles east of the depot the second section of the Chicago special ran into the rear end of the head section, telescoping two coaches, smashing the cars to pieces and crushing the life out of many pro ple. Inside of 20 minutes six dead bod

ies were taken out and the work has only begun. The second section ran into the head as tion while the latter was standing on the track. Some of the passengers were out on the ground, some eating breakfast

many asleep. The telescoped cars were the first and second ones from the rear o the first special. All the uncertakers, phy sicians and assistants were on the ground doing all they could, but the sights were appalling.

### THE FAIR IS TO CONTINUE.

To Be Run While Good Weather Aud

Paying Crowds Last. The committee recently appointed to consider the question of keeping the World's Fair at Chicago, open after this month has practically decided in favor of doing so as long as the weather will permit and the people come in sufficient numbers to make it profitable. The plan is to continue charging the present admission fee and to induce as many foreign and American exhibitors to keep their displays intact as possible. Many foreign exhibitors have already agreed to do so and every one who has an exhibit was given a permit for its removal from the Fair upon application. The Department of Admissions and the executive officers of the Fair are making their arrangements for November as if the ian had been formally adopted.

-Curlonss under 14 years of age are now admitted to the World's Fair at Chicago for 10 cents.

A Sad Accident. At Cumberland, Md., during Friday night's storm Miss May Coffroth, a beautiful young girl living near Romney, W.Va. and her niece, daughter of Hon.A. H. Coffroth, of Somerset, Pa., tried to cross the little Cacapon river at a ford near Romney. Their buggy was overturned, the child swept away and in a heroic effort to save her, Miss coffroth, who was to be married to a wealthy New Yorker, was drowned The bodies have been recovered.
