 It is a sign of popularity and prosperity to see a merchant adding to his stock these days. That is just what Henry A. Reed, "the shoe man," is doing.  
 In the Brumbaugh caution notice last week we got the names D. L. and W. R. transposed. It was D. L. Brumbaugh who bought W. R. Brumbaugh's property.  
 Glenn Milliren has entered into the real estate business. He has for sale a one and one half story cottage in the Tannery row which he will sell at a bargain.

It takes strangers sometimes to discover what old loafers are good for, as has been evinced in Reynoldsville during the past week.

The new bell for the borough school, which was to have been here several weeks ago, is expected here this week and will be put into the belfry Saturday.

The Baptist choir of this place furnished music for a Prohibition meeting at Sandy Valley Monday evening. F. M. Lucas and M. C. Coleman were the speakers.

Harry Sykes was helping to kill a calf one day last week and a butcher knife was accidentally drawn over the knuckles of his right hand, which will disable him for doing any work for a short time.

Drunkness and hilarity run riot in the east end of town last Saturday night and Sunday. It was not hard to find men lying in the alleys with their hides full of "booze." It is not necessary to travel to Chicago to see Sabbath desecration.

There are several inhuman brutes in this town that abuse their wives shamefully, who are deserving of an application of tar and feathers, or a severe cowhiding would be justifiable. Such a thing is not a man, far from it, he only looks like a man.

The Keystone band was on the streets last evening playing a few of their fine selections. The band went over into West Reynoldsville and made music for the citizens of that borough. The Keystone and Prescotville bands always draw a crowd when they appear on the street.

There was an unusually large crowd at the A. V. R.'s station waiting on the 1:42 train Wednesday afternoon of last week, and a strange young lady stepped up to the window and asked Hubert Farrell, the agent, the following question: "Has my uncle been here looking for me?" The young man was necessarily compelled to answer in the negative.

L. W. Gardner, the hustling photographer who travels from place to place during the summer months, has anchored his photograph car in the vacant lot near the opera house, where he will do business this winter. Mr. Gardner, who turns out good work, is not a stranger in Reynoldsville, and will doubtless do a good business in the next few months.

The Jefferson County Teachers' Institute will be held in the Court House at Brookville, commencing on Monday, November 13th, at 2:00 P. M., and closing on the following Friday. Frank J. Black, proprietor of Hotel McConnell, came very nearly passing into the "great beyond" last week. According to his own statement, he helped carry a 350 pound trunk down stairs Monday, went to drug store for a pouroous plaster an hour afterwards, ate three bushel of chestnuts Tuesday, took a coughing spell Tuesday night and bursted a blood vessel which was the cause of his serious illness. He is able to be out again, but is considerably bleached.

Copping and wife, A. F. King and wife, Geo. McGrody, D. F. Swab, Jay Evans, John Hoffman and others whose names we were unable to learn.

The regular monthly meeting of the Reynoldsville Building and Loan Association was held Monday evening, and \$5,400.00 was sold at an average of over 25 percent. Money sells high in Reynoldsville. It was prophesied long ago by some people who would have nothing to do with the Association that in a few months it would be difficult to find a market for the money even at a very low rate, but for three years and a half the money has been selling at an average of about 25 per cent, and no trouble to find buyers for it. More money could have been sold Monday night but the Association did not have it to sell.

**Killed a Bear.**  
 F. P. Elder, of Pancoast, and Ed. Lewis, of Reynoldsville, Two "pards" who spend about one month each fall in the wilds of Elk county looking for bear and deer, and are always successful in getting game, have killed one big black bear this season and captured two cubs. These men enjoy chasing deer.

**Reynoldsville's Contribution.**  
 One hundred and twenty-five people, that we know of, went from Reynoldsville to the World's Fair. More would have gone had it not been for several reasons the prominent one, however, was shortage in finance. A few could not spare the time, so they say, and several remained at home on account of the World's Fair managers' disregard for the Sabbath.

**Unruly Bicycle.**  
 Dr. E. E. Rieher and Prof. W. W. Winger went to DuBois on bicycles Saturday and on the return trip Dr. Rieher's bicycle ran off with him coming down a hill. Dr. was thrown off and had his left arm badly bruised. The bicycle, which was C. B. French's, was damaged slightly. This is not the first time this bicycle ran away. It is the same one that ran off with Will F. Wilson near Troutville one Sunday during the summer. The bicycle must have been spoiled when it was new.

**Fell off a Train.**  
 A. Schuckers is night watchman at Hopkins mill and as he was going home one morning last week a freight train was passing at the rate of fifteen miles an hour. The train contained several cars of cattle and as the train thundered by a little calf about two weeks old tumbled off almost on top of an Italian, who was badly frightened. Mr. Schuckers picked up the calf, which had escaped without injury, and took it home with him and reported the matter to the A. V. R.'s officials at Reynoldsville. Just how the young calf got out of the car is a little mysterious.

**Weary Traveler.**  
 About eleven o'clock yesterday forenoon Hubert Farrell found a Poleander in the gentlemen's waiting room of the A. V. R.'s station praying and big tears were chasing each other down the man's soiled and sunburned cheeks. The Poleander had walked from Buffalo and wanted to go to Pittsburg. He was "foot-sore and travel-stained" and was a pitiable sight. His left foot was swollen until the skin seemed almost ready to burst. The man could not walk out for dinner and Hubert Farrell, whose sympathy was elicited for the stranger, carried dinner to him.

**New Brick Pavement.**  
 Father Brady is having a new sidewalk put down in front of the Catholic church and his residence on Main street. One hundred and seventy-five feet altogether, including walks into church and residence. Red and buff eight inch square and three inch thick tile is being used for the new walk, which will cost about \$200.00. The tile was bought at Clearfield. This kind of a sidewalk is more expensive than a wooden walk, but is cheaper by far in the end, and not only that, but it adds greatly to the appearance of a town. F. K. Arnold, Dr. Bowser and Jacob Booth are talking of putting down the same kind of a walk.

**The Three "W's."**  
 Thursday afternoon a pair of white horses, a white barouche and two colored men dressed in white suits, wearing white hats, made their appearance on the streets of this town. This was the parade for a patent medicine show to be given near Centennial hall in the evening. Dr. G. W. White—who is introducing the three "W" remedies—and the two "coons" were greeted with a large crowd, not only Thursday night, but also Friday and Saturday nights. The show, the Doctor's talk, a sample of the Indian tea and roasting the DuBois Courier, were all free, but the dollars were handed in from all sides for the wonderful medicine the Doctor was selling. One of the colored men had a large opening in his face called a mouth. They went to Brookville Monday morning where they are gathering in dollars this week.

**Will Serve Him Right.**  
 A man from Warsaw township came to Reynoldsville Thursday and had an old horse tied behind his buggy which he did not want to winter, but did want to trade off or sell for three or four dollars. He found a horse jockey here who had an old nag that he did not want and he gave the Warsaw man three dollars on the swap. The Warsaw man lingered in town until evening, got pretty well loaded with beer and got into trouble with a one armed man and the cripple punched him on the chin and the Warsaw man jumped into his buggy and started for home, leaving the old horse he traded for running loose on the streets. On Saturday morning the horse was found on Third street unable to get up and Frank Addlesperger shot it. The Warsaw man will come to town some day this week again by special request of Chief-of-police Addlesperger, agent for Western Pennsylvania Humane Society, and pay a fine of ten dollars for cruelty to the animal and also pay funeral expenses for it.

**The Mouth.**  
 The mouth is the front door of your face. It is the aperture to the cold storage room of your anatomy. Some mouths look like peaches and cream and some look like a hole chopped into a brick wall to admit a new door or window. The mouth is a hot bed of tooth-aches, the bungalow of oratory and a baby's crowning glory. It is the crimson aisle to our liver and nature's apparatus for blowing out the gas. It is patriotism's fountain head and the tool chest for ple. Without it the politician would be a wanderer on the face of the earth and the cornetist and the chorus girl would go down to unhonored graves. It is the grocer's friend, the orator's pride and the dentist's hope. It puts some men on the rostrum and many on the stone pile. It is temptation's lunch corner when attached to a maiden, and a tobaccoist's friend when attached to a man. Without it married life would be a perpetual summer dream and the dude would lose half of his attractions. And most of all and greatest of all if there were no mouths there would be no goodbyes or happy greetings, no words of comfort, of hope, no laughter full of sunshine of songs, full of praise: the hired man could not be called to dinner and no one would ask, "Where did you get that hat?"—Ex.

**Captured Saturday.**  
 Joseph Lesko, the Hungarian who committed the fendish act on a little Hungarian girl five years old near Punxsutawney on the 8th of this month, was captured in Center county last Saturday and taken through Reynoldsville on the 7-40 train Monday morning and lodged in the Brookville jail. It was not known until the officers were almost ready to put the brute into jail who he was and then the news spread rapidly and a large crowd soon gathered around to get a look at the dastardly villain. Joseph was afraid to go to Punxsutawney, and 'tis well he was, for there is no doubt but that the Imp of the infernal regions, who is doing a little of his devilish work before he takes up his abode with his master in the nether habitation, would have met a horrible death at the hands of an angry mob. By not taking the prisoner to the scene of his hellish act Jefferson county was saved from the crime of lynch law. The little girl is still living and is improving as rapidly as could be expected.

**Ditto in Reynoldsville.**  
 The life of a Councilman or a policeman in a town like Kittanning is not a pleasant one. Do what they may they are sure to be condemned always, but never commended. No wonder they gently but firmly refuse to serve a second term.—Kittanning Times.  
 A man who has served as a councilman, school director, Burgess, or held any office of consequence in Reynoldsville, is aware of the fact that Kittanning is not the only town in Pennsylvania where it is not all rose to hold a non-paying office. People, generally speaking, are very ungrateful to the men who do their best to serve for the best interests of a town. One reason for this howl of complaint that breaks out occasionally is that too many people can only see their own interest, and naturally want everything to conform thereto.

**Revival of Toby Coal Mining.**  
 [Brookville Record.]  
 Since Hall & Kaul assumed control of the Shawmut mines they have rapidly restored order out of chaos and started up everything that was possible to infuse new life into. The mines are running at their full capacity, and more orders have been received than the plant can fill. Consequently a part of the contracts have been given to Brook mines to fill. The recent purchase of the Mead Run plant from the Northwest company will add to their capacity, and it is the intention to begin loading coal if possible by the first of next month from the Mead Run tipple. A force of workmen are engaged in building trestles and tram roads to connect the chutes with the Shawmut tract, and as soon as these are ready the new outlet will be filled up with all the men who can work conveniently.

**Have no Lock-up Now.**  
 A Poleander, who has typhoid fever, was thrown on the hands of the poor overseers of this borough last Thursday. D. W. Atwater, one of the overseers, is out of town and M. Mohney, the other overseer, had no place to put the man and he took the responsibility on himself of putting the Poleander in the lock-up, where he is yet. Unless the man is removed and the lock-up thoroughly fumigated some person is liable to get into trouble. The town is without a lock-up as long as the typhoid fever patient is kept there, as an officer would not dare put a prisoner in there now. According to the new ordinance published in the STAR last month, typhoid fever is declared to be communicable and dangerous to the public health.

**Shed the Ranks.**

**S. S. Convention.**  
 We gave a report of the eighth semi-annual session of the Jefferson County S. S. Association held in the Baptist church last week up to and including the Tuesday evening meeting, therefore, will not re-publish the proceedings.  
 The devotional exercises at 9:00 A. M. Wednesday were conducted by J. C. Kelso. Prof. J. H. Hughes, who was to have opened the topic on "Who should attend Sabbath school," was not present and on motion the topic was thrown open for discussion and was participated in by C. E. Temple, J. H. Brown, D. B. Dickey, Mr. Owens, Revs. Geo. Balentine, H. R. Johnson, W. B. Purdy and E. T. Derr.  
 A letter was read before the convention from the Baptist Sunday school of Brookwayville and on motion the secretary was instructed to write them a letter in the name of the Association. J. W. Walker read the report of the committee on resolutions. Orders were granted on the treasurer for dues to State Association and expenses of delegate to same. "Higher qualifications for the teacher," was discussed by several members of the convention. The "Farewell Words" were delivered by Rev. E. T. Derr, pastor of the Reynoldsville Baptist church. Rev. Derr's remarks were well chosen and to the point and were listened to very attentively by those present.  
 The convention adopted the minutes, not unanimously, without hearing them read. Some of the delegates may have been hungry and the time limited for those who wanted to leave Reynoldsville on the noon trains, but it would have been a little more business-like to have read them.  
 It was W. S., not S. M. Stone, who took part in the convention as mentioned last week.  
 Potted plants in bloom were placed around the pulpit to add to the beauty of the pretty interior of the Baptist church.  
 The committee on resolutions, W. B. Purdy, John W. Walker and J. C. Kelso, submitted the following:  
 Resolved, That the Sunday School workers of Jefferson county have reason for thanks to God for the interest in the work, manifested in the large attendance and the unity of spirit prevailing during the sessions of this convention.  
 Resolved, That we recognize the work of missions at home and abroad as pertaining to the instructions in every well regulated Sunday school; that we should use all our influences morally, politically and otherwise, in sustaining the christian Sunday.  
 Resolved, That in view of the alarming prevalence of the use of strong drinks and tobacco in all their forms that every school be hereby urged to provide for instruction upon the subject of temperance and as far as possible secure pledges of total abstinence from the entire membership of their respective schools.  
 Resolved, That the thanks of this convention are due and are hereby tendered to the good people of the Reynoldsville Baptist congregation who have so kindly permitted the use of their church for the sessions of this convention, and to the kind friends of Reynoldsville and vicinity who have so cordially received us to the entertainment of their homes.  
 Resolved, That the convention extends thanks to the young ladies for the beautiful floral decorations; to all who aided in the music at the different sessions, and to the entertainment committee.
