To Take Effect March 1, Except in Wool-

en Goods. The new tariff bill as given to the pablic

reads as follows: On and after the first day of March, 1894, the following articles for the use of the United States are to be added to the free list:

Bacon and hams, beef, mutton, pork and

meats of all kinds, prepared or unpreserved, not specially provided for in this act.

Baryts, all binding twine manufactured wholly or in part from istic or Tampico fiber, manifa, sisal grass, or sunn. of single ply and measuring not exceeding 600 feet to the pound.

pound. irds stuffed, not suitable for millinery ornaments and bird skins prepared preservation but not further advanced manufacture.

Bue vitriol or sulphate of copper.

Bone char, entiable for use in decolorizing

coal bituminous and shale, and coal slack

Coal bituminous and shale, and coal stack or culm coke, coal far criide, and all preparations and preducts of coal far, not colors or dyes not specially provided for in this set, oxide of colait.

Copper imported in the form of ores; old copper, fit only for manufacture: clippings from new copper and all composition meral of which copper is a component material of chief value not especially provided for in this act, regulus of copper, and black or of chief varies not especially provided this act, regulus of copper and black or coarse copper and copper cement; copper in plates, bars, ingots or pigs and other torms, not manufactured, not specially provided for in this act, copperas or sulphate of

Outon ties of iron or steel, cut to lengths, punched, with or without buckles for bolt-

punched, with or without buckles ing cotton.

Diamonds, dust or bort, and jewels to be businessed and settles of watches or used in the manufacture of watches or Yolks of ergs of birds fish, and insects.

Downs of all kinds, crude, not s, ecially pro-vided for in this act. Fresh fish, Turs, undressed, lodine re-

ublimated.

Iron ore, including manganiferous iron ore, also the dross or residium from burnt pyrites and sulphur ore, and pyrites or sulphure of iron in He natural state. Lard, Lemon juice, lime juice and sour

orange joice.

Mica and metallic mineral substances in a rade state, and metals unwrought, not specially provided for in this act.

Ochre and ochrey earths, siennaland sien-

na earths, umber and umber tearths, not specially provided for in this act.

Cottonseed oil. Paintings, in oil or water colors, and statuary, not otherwise provided for in this act.

Piowa, tooth and disc. harrows, harvest-

ors; roupers, drills, and mowers; rakes, cul-tivators, threshing machines and cotton

gins. Plush, black, for making men's hats.

Quicksitver; sait.

Silk partially manufactured from cocoons or from waste silk, and not farther advanced or manufactured than carded or combed silk. Soap, all not otherwise specially provided for in this act. alphate of soda or salt cake or nitre cake.

Sulphure acid.

Tallow and wool grease, including that known commercially as degras or brown wool grease.

Straw. Burr stones, bound up into mile.

Straw. Burr stones, bound up into mine-stones; free stone, granite, sandstone, lime-stone and other building or ornsmental stone, except marble, manufactured or undressed, not specially provided for in this

act.
All wearing apparel and other personal
effects shall be admitted free of duty without regard to their value upon their identity being established under such rules and regulations as the secretary of the treasury

may prescribe.
Timber, hewn and sawed, and timber us-Timber, hewn and sawed, and timber used for spars and for building wharves; timber squared or sided; sawed board plank ceans, and other lumber laths, picket and palings; shingles, staves of wood of all kinds wood unmannfactured. Provided that if any export duty is laid upon the above mentioned articles, or either of them all said articles imported from said country shall be subject to duty as now provided by law. Chair cane or reeds wrought or man ufactured from rattans or reeds.

Woods, namely cedar, lignum vitae, lance-

wood, ebony, box, granadilla, mahogany resewood, satinwood and all forms of cabiresewood, satinwood and all forms of cau-net woods, in the log, rough or hewn; bam-bee and rattan, unmanufactured; briar root or briar wood and similar wood unmanufac-tured; bamboo, reed and sticks of partridge, tured; bamboo, reed and sticks of partridge, hair wood, pimento, orange, myrtle and other wood, in the rough or not further manufactured than cut into lengths, suitable

for sticks for unbrellas, parasola, suitable for sticks for unbrellas, parasola, sunshades whips or walking canes

All wool of the sheep hair of the camel, goat, alpaca and other like animals and all wool and hair on theskin; noils, yarn, waste,

card waste, burr waste and flogs, including all waste or rags composed wholly or in part of wool.

All manufactures of iron and steel have a tariff of 25 per cent advalorem, excepting cast hollow ware, coated, glazed or tinned, and chains of all kinds made of iron and steel, 30 per cent ad valorem.

and chains of all kinds made of iron and steel, 30 per cent ad valorem.

The bounty on sugar, which was to be so promptly repealed, is, instead, to be repealed by easy graduations and will not reach its conclusive effect until after the end of the present century. The duty on refined sugar is from \$\frac{1}{2}\$ to \$\frac{1}{2}\$ of a cent a pound. Raw sugar remains free of tax. The McKinley bounty is repealed progressively—that is \$\frac{1}{2}\$ each year—so that at the end of eight years it is to cease entirely.

COUGHLIN'S JURY FIXED.

& Revelation That Will Probably Re-

quire an Entire New Venire. Discovery of an alleged attempt to corrupt the jury has brought the progress of the Coughlin trial at Chicago to an abrunt pause. The state's attorney was given information just before court opened that certain jurors, whose names the officials wound not divulge, are intimately connected with some of Coughlin's friends: that they were placed in the venire for the purpose of gett ng them on the jury, and that they were 'coached' how they were to answer all questions put to them in order to qualify themselves as jurors. All their replies as to their acquaintance with persons interested in the case and their knowledge of the previous trial are said to

A dozen detectives were put to work investigating the allegations and affidavits embodying the facts were hastily prepared to be sworn to. It is said the entire jury may be dismissed, as the only escape from the consequences of the alleged plot of Coughlin's friends. It is also said the deferme has used the jury list for six months back in preparation for the trial. One juryman is alleged to have served on another jury inside that time On his ap, carance at the trial be changed the middle initial of his name.

Caught Playing Craps.

A squad of police made a descent on Frank Bennett's crap same on Vine street. Cincinnati, and a number of men were arrested, among them hiarry kill, the fugi-Atlania forger, who is wanted for forgerer amounting to \$22,000. Hut is known as the "Booisty Forger" and used the name of the wife of President Forter, of the Marchante' Bank of Atlanta, in his forgerias. He was quietly released on \$6,000 bond Friday and allipped away from the city. His xictims made no effort to have him jestrested, and the Atlanta happyle have been notstied of his explure here. Caught Playing Craps.

STATE OF TRADE LESS CLEAR.

Uncertainty About Tariff Legislation Causes Stagnation in Business and Little Demand for Legitimate

Investment.
R. G. Dun & Co.'s weekly "Review of Trade says:

It cannot be said that business during the past week has grown better or worse. For some days the gain in demand and in transactions which had been previously noticed, evidently continued. But afterward tariff uncertainties were thought to effect some branches of business and whatever the causes, the state of trade was less clear-Money was everywhere abundant with rates comparatively low and the commercial demand was remarkably small, while the demand for speculative uses appeared to be increasing. When there are sympcome of a transition state, ordinary indications based upon the course of business
fow to a few days ago, are not as valuable
as usual, but on the whole such signs are,
however, less encouraging than they were
a week ago. Reports of different branches
of trade and from different cities frequently
mention the tariff uncertainties as a
cause of natural hesitancy, but it will take
some time to determine whether the general tendency toward improvement has been
checked or to what extent. The volume of
trade has been so tewhat increased and yet
not as much as was expected. The industries are waiting with visible uncertainty
regarding the outcome of tariff legislation.
It is a question whether the work ng force
employed is larger than it was a week ago.
The sales of wool are again larger than
for the same week last year, amounting to
6,619,800 pounds agains; 4,354,500 pounds last
year, but part of the transactions are said
to be speculative, being based on the the ry
that whatever may happen, later the necessites of the country will compel a larger
consumption within the next few months.
The yeast accumulation of idle money tends soms of a transition state, ordinary indica-

sities of the country will compet a large consumption within the next few months consumption within the next few months. The vast accumulation of idle money tends to stimulate speculation, but it is not a good sympton. It shows a remarkable shrinkage in the volume of trade, and the reports from all quarters makes it clear that the demand for money is unusually light for the season. The domestic exports for four weeks from New York amount to \$20,112,330 against \$23,671,173, while the decrease in imports is over \$10,000,007 for the four weeks, so that the excess of exports for the whole country must be large. No gold comes this way and heavy shipments of silver are made to London. Apparently this country is paying off with its surplus loans amounting to London. Apparently this country is paying off with its surplus loans amounting to many millions which were effected in Europe to averi great disasters last sum-

mer.
The failures during the past week number 278 against 237 for the same week of last year and in Canada 48 against 33 last year.

A BATTLE FOUGHT.

Ansurger to Rout Peixoto's Troops Heavy Losses on Both Sides.

The latest dispatch received from Rio de Janeiro is as follows: The insurgents in Rio Grande do Sut have been victorious in a battle with the government forces near Bage, Gen. Isido o of the government forces was taken prisoner. Both sides suffered heavy losses. The report that Curiciba had been captured by the insurgents is denied,

The government toris at Rio de Japeiro continue to cannonade the insurgent warship. The transport Madeira has been set on fire by the expression of a shell from the forts, and the Aquidaban, the most powerful vessel of the insurgent fleet, has been seriously demanded.

vessel of the insurgent fleet, has been seriously damaged.

The insurgent admiral, Gama, states the loss of the monitor Javary is not impor ant. He says that the addition of the Tamandare with ten 6 inch and two 5 inch quick firing guns and a heavy complement of machine and Hotchkiss guns, will more than compensate for the loss.

The artillery fire of the forts continues. The fire from the shore upon Ft. Villignamon continued. The loss on both sides is small. The insurgent general, frar, is reported to be eighty miles south of Saol'aulo. The government has ordered the national guard in the state of Sao Paulo to proceed south to meet the insurgents. The inational south to meet the insurgents. The inational guard refused to comply with the order and the government will therefore send 1,200 men from Rio de Janeiro against the

nemy.

Aumiral Gama will assume command of the insurgent fleet in the harbor on Thursday, when Admiral Mello will leave with the Aquidaban. Admiral Gama states positively that he will not bombard the city unless the city inres upon his whom

the government lorces. Political arrests continue is Rio and 1,500 persons are now in prison. Two Bianilans have been arrested on board the mail steamer Temar.

President Peixoto has become alie ated from the sympathy of all decent people, and a most atom with his army. Many persons join the insurgents daily. The states of Bahia and Para favor the insurgents. The island of Cobras is strongly fortified with a garrison of 300 insurgent sallors.

LATER.— he insurgent admiral, Mello, has finally succeeded in forcing a passage past the foris guarding the entrance of the bay of Rio Janeiro, and that his flagship, the Aquidaban, is now on the high seas. The passage was not effected antil some desperate fighting had been done.

The entrance is guarded by Fort Sao Joac and a water battery on the strip of land extending northea t from the Sugar Loaf, Fort Lage, Fort Santa Cruz and Fort Pico. When the ship, was seen approaching the fortra heavy fire was directed against her. She replied briskly and the fight was kept up until she ran past the fort and was out of range. It was seen that some of the shots from the forts took effect and it is beheved that the Aquidaban sustained considerable damage. The government forces, particularly the troops manning the water battery, suffered severely. It is conjectured at Rio Janeiro that the Aquidaban will effect repairs as radidly as possible at sea and then cruise in the vicinity of Cape St. Roque to intercept the Nictheroy and America, President Peixoto's new ships.

GLOOMY VIEW

Of the Knights' Future Taken by Mine

Worker John McBride.

A decidedly gloomy view of the future of the Knights of Labor is taken by John Mc-Bride, President of the United Mine Workers of America. McBride was a recognized leader of the Powdely forces, but says the Hayas faction had so organized the body that all they could do was to oppose and expose as the Haves crowd had the vote

every time. McBride said to a reporter: every time. McBride said to a reporter:

"I anticipate the complete dissolution of
the Knights of Labor. The official reports
to the assembly showed a nominal membership of but 70,000 and of these but 40,000 are
paid up. When you remember that most
of these have stuck because Terry Powderly was in the lead, it is not hard to see that
they will rapidly drop off now that he has
been turned down. The order owns property
worth about \$60 000. Maybe it will bring
half that at forced sale. I suppose the
assets will all be absorbed in the payment
of the outstanding obligations and in
salaries.

Death of Emin's Son.

A dispatch from Boma reports the death of Dr. Emin's young son, who was detained by the Arabs after the murder of the explorer and was rescued by the Belgian troops near Nyangwe, in the Congo State. The boy's mother was Emin's native mistress.

STUDENTS SUSPENDED

For Raiding Restaurants and Stealing

Everything in Sight.

Eight of the most popular Amherst stufents have been suspended for looting estaurants and disorderly conduct on their eturn from Hanover, where they had been to the Dartmouth-Amherst football game. In Saturday, November 11, 350 Amberst students were returning from Hanover, N. H., to Amherst on a special. The train stopped at various stations for refreshments and the restaurant keepers seized the opporunity to charge exorbitant prices for their

food.

The boys concluded that it was much cheaper to take what they wanted than to may the high prices charged, so they began helping themselves. The stone once started kept on rolling, and as they went on their journey they took more from each new place. At Greenfield they cleaned out the resummant, tood, dishes and all. One young man was so enterprising as to steal a bottle of soda and after he had drank the soda he carried back the bottle and got a nickel for it.

Some others thought that it would be Some others thought that it would be smart to carry home a baggage truck, so at one of the small stations where they stop ed for water a hand truck was taken along and was highly valued as a tropby. The authorities objected to the extent of thefts and reported the matter to the Amherst faculty with the above result.

ADJOURNED TO FIGHT FIRE.

Pastorst Lead Their Congregations to

Prevent a Conflagration of Cotton. A spark from a passing locomotive set fire to some cotton in a big warehouse yard at Livingston, Ala. Almost in a moment several scores of bales caught fire. There was more than 1,000 bales in the yard, and the watchman could do nothing alone. On an impulse he rushed to a church near by

impulse he rushed to a church near by where services were being held. The watchman jumped up on a pew and called out, louder than the preacher or the music:

"The cotton yard is burning; come and help me fight the fire."

The minister threw off his coat and called to his congregation to follow him. They were soon in the midst of the burning cotton and men, women and children were fighting the fire. The news soon reached the other church and it adjourned in like manner and mingled in the battle with the flery element. After two hours' fight all but 400 bales were extinguished and removed from danger. Sixty were entirely destroyed.

LAUDANUM AND MUSH.

The Dose a Utah Woman Gave Her Uncle

in Order to Secure \$2,000.

At Salt Lake Mrs. Emma Van Patten has been arrested on the charge of murdering Soren Neilson, a wealthy banker of Echriam City. The 20th of last October Neil son suddenly and mysteriously died and a post mortem examination revealed the presence of rough on rats and laudanum in his stomach. Mrs. Van Patten, who is a his stomach. Mrs. Van Patten, who is a neice of Neilson, was visiting her uncie at the time. Investigation has elicited the fact that Mrs. Van l'atten had the evening before Neilson's death purchased a vial of laudanum. Mush and milk, which was served the same evening and of which Neilson partoo's, proved fatal when administered toseveral towis. It was learned that \$2,000 which Neilson had in his room the evening before his death had disappeared next day.

AN ARMY OF SPIES.

State Liquor Business in South Carolina

Makes a Poor Showing.
The experiment of State control of the liquor traffic has been in operation in South Carolina for four months and the report of the State Treasurer has just been completed An analysis shows that the State dispensary An analysis shows that the State dispensed back \$100,332, leaving a deficit of \$34,161. It is also shown that the county dispensers owe the State Treasury \$85,000, which includes all the stock on hand in county dispensers.

No statement is given of how much the No statement is given of how much the State owes for liquor, but after all due allowances, the State appears to be \$40,000 allead on the four months operations, which means a profit of \$120,000 a year. But this profit on the books is a very different thing from a c'ean net cash profit, and the indications are that the returns from the dispensary at the end of the year will never be telt by the people in lessening the tax rate.

Hot Fighting in Mexico.

Persons who have just arrived at El Paso, Tex., from Chihauhau confirm reports of a severe battle between the Federal troops and the insurgents. Last Thursday morning a number of officers were brought in ing a number of officers were brought in from the West to the army hospital. It was reported that they were ill of dysentary, but it is positively known that they had been shot in battle. Where it was fought is not known. Neither can it be learn d how many officers were brought in. The reports of continued movement of Federal troops to the west and northwest from Chihushua have also been confirmed.

His Watch Is Missing.

His Watch Is Missing.

The Rev. William Johnson, one of the best known colored preachers of Decatur, Ga., is in jail. Thos. Echols, a financial pillar of the church, notified. Mr. Johnson that one his children was sick unto death and requested prayer. The prayer was at the child's bedside. Mr. Johnson asked the father to pray also. When the men arose from their knees Mr. Echols found that his watch was gone. He studied over the matter and after the preacher had gone decided to have him arrested. The congregation stands by the pastor and insist that Echols is an agent of the devil.

For Charity's Sake.

For Charity's Sake.

General Russell A. Alger, of Detroit, has been id Cleveland several days in consultation, it is said, with some of the heaviest stockholders in the Michigan iron mines He is trying to induce them to resume operations, so that the starving miners may find employment. General Alger says that if the men can be given work only a part of the time the State of Michigan will appropriate money to help them through the winter. winter.

Ore Mine On Fire.

Ore Mine On Fire.

The timbering on the third level of the Pewabic mine, Iron Mountain, Mich., caught fire and 356 men were lorced to the surface. The mine has been hermetically sealed in an attempt to smother the flames and it is impossible to estimate the damage. The Pewabic is the only mine working here and unless the fire is soon smothered it means a hard blow to the miners.

This season's orange crop in Florida is much above the average in quantity, being estimated at 5,000,000 boxes, and is much earlier than usual. While during the whole of last season some 58,000 boxes were shipped through Savannah to New York City, more than 88,000 boxes have already been shipped there this year. Unusually large shipments have also been made to Europe, where Florida oranges are now beginning to compete successfully with Mediterranean fruit.

THE cholera in ituesia is less virulent. The official statistics show that from May to Reptember, 1892, there were throughout the Empire 485,645 cases of the disease and 215,157 deaths, and from January to November, 1998, 76,167 cases and 30,284 deaths.

KEYSTONE STATE CULLINGS.

A 3 YEAR OLD STRO. POTTSTOWN—Three year old John Wanger, son of George F. Wanger, and nephew of Congressman Wanger, is a little hero. His home is in North Cover try township, Chester county. While his mother was absent the kitchen was set on fire was set on fire by an explosion of the stove. Little John's infant brother lay cooing in a cradle near the stove, but before the flames reached it plucky John dragged the babe out of his crib to a place of safety. Both children escared barm, although it will cost \$500 to repair the house.

MADE WHOLE BY PAITH.

John Y. Spayd of Reading had the sight of one eye destroyed six months ago by hot metal. He is a believer in the faith and has prayed incessantly to heaven that his sight be restored. Sunday night, in the church which be attends, he suddenly cried, Thank God," and announced that he was able to see. His sight is now as good as ever. Five hundred people were witnesses to the case.

COL. TYSON PARALTZED.

Col. A. Harvey Tyson, ex-engineer of the State Foresty Commission and ex-member of Gov. Patterson's staff, who is in prison at Reading awaiting trial for defrauding Secretary of the Commonwealth Harrity and other prominent officials, is paralyzed and unable to walk without crutches. His speech is also affected and his appearance in court for trial is doubtful.

A CHANCE FOR PAIR SOUVENIRS.

The furniture in the Pennsylvania state building is being packed and shipped to Harrisburg, where it will be sold at auction December 12. The commissioners think they can realize a better price for the furniture among the people of their own state who will want to secure a souvenir because it was in useduring the Exposition.

FELL ON A RED BOT STOVE. At Beaver Falls a little daughter of Edward Griffin while playing in an upstairs

room fell through a ventilator and alighted on a red bot stove. Before she could be rescued she was terribly burned, perhaps

The will of the late George Sheldon has been filed for probate at Erie. It gives \$20,000 to the Hamot hospital conditionally, \$10,000 to each of five nieces and the balance of his fortune of nearly hafa million is to be divided among his nephews and nieces, having no children of his own.

An execution for \$25,000 was issued against the Harrisburg Boiler Manufacturing Co. of Harrisburg by Edward Bailey, trustee for certain stockholders. Fresident Disbrou says the creditors will be paid in

Newton Gerran, of Somerset county, was thrown under a heavily loaded wagon at Addison and instantly killed. He attempted to draw the lock when the bar broke and threw him under the wheel. AT Bedford, Marion Cessna, son of the Hon John Cessna, committed suicide on Thursday. He had been in poor health, and until recently an inveterate cigarette

Jupes Wickham has decided at Beaver that running street cars on Sunday is a violation of the Sunday observance law of 1812. Ar Johnstown, Michael Dujeck, adjudg-

noed in the city prison, was ORACULAR FOR THE LAST TIME.

Row a Lecture on the Sharpness of Train

Newsboys Was Made Valueless. There is one man in New York who has learned not to display his knowl-

edge of human nature to an unsympathetic world. How he was cured was recently told by him to the Tribune. He was traveling with his wife, and the talk drifted into a discussion of the sharpness of train newsboys. What followed is thus re-"As I told you before, I used to think that my knowledge of man nature was very deep. Well, I let myself loose on this occasion and gave my wife the benefit of quite a dissertation on the subject. I dwelt particularly on the fact that these newsboys become exceedingly good judges of character, and that they depended upon this faculty to a large extent to make a living in their line of business. I went so far as to as-sert that they could even tell, by studying a man's face, pretty nearly what his tastes were in the matter of the books which he liked to read. This is where I got too wise. Soon after making this assertion I was sitting in the seat next in front of that occupied by my wife, when the boy came along with an armful of books. He stopped when he reached my seat, looked at me critically for a few sec-onds, then pulled out a book from the bottom of the pile which he carried in his arms, and, leaning over confidentially, said in a tone which unfortunately was I ud enough for my wife to hear plainly: 'This book has been suppressed.' My wife was suddealy intensely interested in an exceedingly ordinary landscape when I looked around at her, but I could see from the amused expression about the corners of her mouth that she had taken in the situation. You may be sure she laughed when the boy was gone, and everytime I try to grow oracular with her she only has to refer mysteriously to this incident. when I, of course, am compelled to close up as tightly as a clam."

NEWSY GLEANINGS.

Curcago has a deficit of \$1,300,000. THE unclaimed funds in the English courts mount to \$339,252,410.

Government telegraph operators in Italy have gone out on strike.

THE HIGHEST AWARD.

Royal Baking Powder has all the Honors-In Strength and Value 20 per cent. above its Nearest Competitor.

The Royal Baking Powder has the enviable record of having received the highest award for articles of its class -greatest strength, purest ingre-dients, most perfectly combined-wherever exhibited in competion with others. In the exhibitions of former years, at the Centennial, at Paris, Vienna and at the various State and Industrial fairs, where it has been ex-hibited, judges have invariably award-ed the Royal Baking Powder the high-At the recent World's Fair the ex-

amination for the baking powder awards were directed by the chief chemist of the Agricultural Depart-ment at Washington. The chief chem-ist's official report of the tests of the baking powders, which was made for the specific purpose of ascertaining which was the best, shows the leavening strength of the Royal to be 160 cubic inches of carbonic gas per ounce of powder. Of the cream of tartar baking powders exhibited, the next highest in strength tested contained but 133 cubic inches of leavening gas.
The other powders gave an average of
111. The Royal, therefore, was found
of twenty per cent. greater leavening
strength than its nearest competitor, and forty-four per cent. shove the average of all the other tests. Its superiority in other respects, however, in the quality of the food it makes as to fineness, delicacy and wholesome-ness, could not be measured by fig-

It is these high qualities, known and appreciated by the women of the country for so many years, that have caused the sales of the Royal Baking Powder, as shown by statistics, to exceed the sale of all other baking powders combined.

ures

England has no monopoly of "grand old men." Good and great Marshal Caurobert, kneeling in the Chanel of the Invalides, when his fellow veteran MacMahon was brought home to his last rest under the same roof with Napoleon, furnished a splendid example of endurance amid the world's rough usage. Canrobert is eight-four, and the last of the French Marshals. He has seen his fellow campaigners in Algeria and those by whom he fought side by side at Magenta and Solferino depart one by one; yet he lingers, as if unwilling to surrender the baton which represents such historic memories.
