# THE CLERGYMAN'S STORY. PROMINENT MINISTER RELATES DIS REMARKABLE ENPERI-ENCE WITH THE GRIPPE

HOW WE WAS AFFECTED AND NOW HE WAS CURED-AN AUTICLE THAT EVERY ONE SECTIO LEAD AND DEMENSER.

(From the Philadelphia Liem.)

Rev. Thomas L. Lewis, who resides at 2548 Neff Street, is Pastor of the Richmond Baptist Caure's. He is an alumnus of Bucknell Collegent Lawsburg, Pa., where he attained the degree of Master of Arts. With his other work be edits and publishes The Richmond Baptisi, a month'y journal de-voted to the interests of the church. He looks upon the practical side of life, both preaching an 1 publishing the importance of good health, and when asked to tell what Dr. Williams' Pink Pills hat doas for him, he went helory Eugene Ziegler, a Notary Public at 2733 Neff Street, and cheer.ully made affidavit to the following narrative -

"I began taking Dr. Williams' Pin's Pills for Pale People two weeks ago this Sunday. I had the gripps for more than two weeks I had great trouble during that time with my eves and head. The disease also affected my appetite and my stomach.

'In a week's time the efforts of the grippe were completely removed. I then continued the remedy on account of my slounch diffi-

enity, being confident that it would remove that. I want to recommend the use of Pink Pills to all those who are affected as I have here. I believe they will build up grippe

patients. "As for mysself, I cannot say too much for them. I went on the scales two weeks ago to see what I weighed, and ngain to bay, wearing the same clothing. I found I had gained two pounds... a pound a week. "On account of the sedentary habits nat-mal to my occupation, and to some internation injories sustained years ago. I have had a severe stomach affection, and have been troubled, beside, a great deal with indiges-tion. Since taking the Fink Fills my appe-tion has improved, my digestion is better, and my stomach has been relieved of its pain.

I was struck accidentally in the storned "I was struck socidentally in the stomach by an iron bar and once I was kicked by a mule in the same place. It was 20 years ago when I was burt first. Since that time I suf-fered from stomach difficulties. I was treated frequently, but not oursel. I lest better now than at any time since I was burt, and I am so pleased with my implovement that I am glad to bet the public know of my bettered condition. I have heard of other cures effected by the Pick Fills, but I prefer to speak only of my own case.

Speak only of my own case. "Thos, L. Luwis," Sworn and subscribe | before any this 2 hh Sworn and subscripes day of April, A. D., 1823, Everyste Zironan, Notary Public Unit

The discoverse of Dr. Williams' Paste. The discoverse of Dr. Williams' Past Pills for Pale People certainly deserves the high-est tribute that pen can frame. His medicine has done more to aller atte the sufferings of humanity than any medicine known to sei-ence, and his name should be handed down to future generations as the greatest savant of the means are

to infure generations as the greatest savant of the present age. Messrs, Smith, Kline & French, the well-knowa wnoissale druggests, sald that Dr. Wittians Fink Pills have an enormous sale in Philadelphia, and that from all quarters in Philadelphia, and that from all quarters come in glowing reports of the excellent re-sults following there use. In nearly every ensethe gradient by the second state and pro-motioned the patient beyond the hole of hi-man and. An analysis proves that for Wil-iams Pink Pills contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restors shattered nerves. They are no unfailing specific for such discass as locomotor ataxia, partial paralysis, Et. Vitus' dance, solution, deuralgia, rheomatism, nervous headache-the alter effects of in grippe, palpitation of the beart, pale and sallow **co**mplexions, that the deling resoluting from mercous prostratired leebng resulting from nervous prostratired leading resulting from nervous prostra-tion call diseases resulting from vitited hu-mors in the blood, such as seriouis, chronic ergshelas, etc. They are also a specific for frombles peculiar to tender, such as sup-pressions, irregularities and all torus of weakness. Taky build up the blood and re-store the glow of health to pade and 'sallow checks. In men they effect a radicat cure in all cases arging from mental worky out-

checks. In men they end it radiant chieff all cases arising from mental worry, over-work or expresses of whatever nature. They are now manufactured by the Dr. Williams Medicine Company, Schenestady, N. Y. and Brockville, Ont, and are sold in boxes (never in buck) at 50 cents a box, or six toxes for \$2,50, and may be loss of all imaging.

An exchange remarks or acuiarly that the coming girl will cook her own food and will die an old maid. Is there a

# DANGER IN IMPORTED RAGS. Thousands of Tons of Disease Breeding Material Comes in Annually.

Dr. Walter Kempster, wholn November 1892, was sent as special agent of the Treas-

ury department to Europe and the Orient to investigate the causes of the cholera epito investigate the causes of the cholera epi-demic and the danger of transmission of contagious desages to America. h.s. just forwarded to Washington a report of his labors. The report covers about 600 type-written rares and is accompanied by dia-grams, maps and tables. It is full of infor-mation of a nature that will attract the attention of all the health boards and startle American neonle

Attention of all the health boards and startle American people The report although very volumnions no doubt will be printed by the Government, for it deals with subjects and sheds light upon questions which are of most viral impor-innee to the whole nation. The report shows conclusively that thousands of tons of rags are imported annually into the United States without the slightest effort to disinfect them. The rag dealers every-where are violating the regulations of the United States government, and in this they are largely assisted by American consuls. The report shows where all the rags come from describing the different contacions diseases that prevail in the d stricts where they are gathered, and proves by statistical data that rags are the most dangerous trans-mitters of contagion. mitters of contagion

### SUIT OVER MORMON PROPERTY

The Snot Where the Lord is Said to Have

Appeared Is In Litigation. The long delayed equity suit of the reor-ganized Church of Jesus Christ of Latter Day Saints against the Church of Christ, of Independence, Mo., to determine the title

of the famous Mormon temple lot in Inde-pendence has at last been taken up for trial in the United States Granit Court. The suit is a contest between two factions of the Mormon Church to determine the ownerhip of a piece of ground in the city of Indepedence on which the Mormons expect to error some day a termide which which which which

Indenedence on which the Mormons exject to erect some day a temple which shall be the most magnificent ever reared by the hands of a man and from which on the last jay of the world, it is believed all good and taithful followers of Joseph Smith will scend direct to Heaven. It is claimed that in 1832 an angel of the Lord appered to Joseph Smith and informed him that Jack-son county, Mo, was the exact location of the garden of Edm. The solt where the Lord is said to have appeared to Adam and Eve is identical with the location of Tem-ple Lot' and there the prophet determined to erect a temple and dedicate it for that purpose. The property is regarded by the contending factions of the churchings more precious than all the fabled wealth of the world. world.

### A NEW PROCESS

By Which Common Red Ore of Alabama Can Be Made Into Bessemer.

A plant is just reaching completion in Bessemer, Ala., which, if it meets the expectation of preliminary tests, will revolutionize fornace operation and iron produc-

tionize formace operation and iron produc-tionize formace operation and iron produc-tion in that section. It is a furnace proposed to convert the common red ores of the dis-trict into Bessemer ores. The plant consists of a furnace or kiln, so constructed that the ore can be dumped from the tests into the opening. The ore is then subjected to intense heat from the burning ras, which is made in the retort in olose proximity. The roasted ore, with all moisture excelled and much of its phos-phorous and subpart liberated, is passed through rollers and crushed to a powder. It is then rassed over a belt, which is magnet-ized by a process invented by Edison which separates the ore from the silica and sur-plus calcium and magnetizes it so that it or Bessemer ore and closely assays with that ore. The product, after these processes, assays 60 per cent pure metal and will make a genume Dessemer pig. The can activ oilthe kim is 150 tons per day. On its completion and satisfactory test a duplicate will be im-mediately built. Its success is regarded by iron men as the solution of the future of this district for if it does not prove a failure a steel mult will be built at Bessemer at an once.

### BEATS TILLMAN'S LAW

An Iows Proposition to Grant Monopoly

Franchises at Local Option. A joint committee of the lowa House and Senate is now considering Nichol's bill proposing the Gothenburg system of hand-ling the liquor traffic. The bill proposer first local option. If it is decided to grant franchises companies can b-formed com posed of at least 25 persons, with a capital not exceeding \$20,000 which corporation is to be granted the exclusive right to self to be granted the exclusive right to sell liquors in a city. The regulation of sales is very strict All profits over 10 per cent, after running expenses are dejucted are to go to the state and be divided. S0 per cent to the town or city and 20 per cent to the school fund, Where the tranchise proposition is descated the present law will hold good.

# THE GRIP.

A Description of the Disease by One Who Has Suffered.

Ever had the grip? asks the Winons Heraid. I will give you a few point-rs. You will imagine you have a bad cold and can wear it out, but you seed not try it. The grip has fastsned his fangs on to you and will not et go. You have got to give up, go nome and go to bed. In a short time rou will feel the that Calcago dram-mar who took the Keely cure at Dwight, Ill. You will teel like an anarchist and want to bomb. You will realize Brecher's dream of hell. You will think your head has been conoved and an old bechive, with the empty comb, left in its place. Your mouth will taste like a pail of our kront. You have the grip.

The doctor comes, looks you over, puts his thermometer in your mouth. inds your temperature 101 in the thade, your pulse going at the rate of two miles and three laps to the secand. He orders you to stay in bed and gives you medicine that is so strong and sour that simply setting he lottle on the clock shelf stopped he clock. He will tell your wife that she may give you warm drinks and try to get you to sweat, and take his Now all wives are family docfors by right of their position in the i use, and as you have gone to sleep. clifical and exhausted, she begins her treatment by putting a belladonna plaster across your lunas, a flaxeced poultice on one side and a nut tard poultice on the other, a hot flatiron and a jug of hot water to your feet, and a sack of bolled corn in the car, piping hot, to your back. You sleep and dream of being away to the far North in search of the north pole, or out in the center of cinto. beautiful sheet of water like Lake Superior, or the lawn tennis skating-rink, helpless and alone, with the ice breaking all around you, and you slowly sinking. You finally awake, burnt, bilstered, and baked. The dottor calls, finds your temperatu e about eighty degrees at the north sile of the house and your pulse normal, not needing a pace-maker. He p onounces vou better, convalesc-Orders beef tea, chicken soup D.L. gruel and torst as a diet. You take the big rocking chair exhausted, ti ed, discou aged an I ugly; you feel like I cking your wife, kicking the deg, and breaking up the furniture. but you won't do anything but sit there, day after day, weak, helpless nd tired.

### The Music of Chinese Speech.

There is in China not only an inti mate ago in ion between music and poetical speech, but also between music and speech generally. The Chinese being a monesellable language, it depends to a great extent upon musical in'o a ioa to convey meaning. If you listen to the conversation of your listen to the conversation of your Chinese laundrymen you will discover that their ordinary speech is almost as the revitativo secco of the Italian opera. Many words in the Chinese language take from three to six different meanings i.e.o ding to intonation. These intonations, as Dr. S. Wells Williams forcibly urges, have "nothing to do either with a cents or emphasis." They are distinctly musical, and it is much to be regretted that Dr. Williams was snable, for obvious want of the musical tale.t. to study them from a musical joint of view, as it is all but impossible to convey a clear understanding of their nature by description. There seem to be many variations,

but generally there are four of these intonations, or shing, named and de-"ined as follows: 1, ping shing, or "even tone": 2, shang shing, or "ris-ing tone": 3, k'en shing, or declining tone": and 4, juh shing, or "entering tone."—Century.

Royal Buckwheats,

### Knew All About It

A teacher asked a girl how many bouss there were in her body and the glib girl nearly swallowed her chewing-gum in her haste to answer 208. "Wrong; there are only 207," said the teacher. "Yes'm," was the trimphant response. "but I swallowed a fish-bone to-day."—*Philadelphia Record*.

### A Menns Out of the Diffculty.

Any strain or bending of the back for any length of time leaves it in a weakened condition. A means out of the difficulty is always handy and cheap. Do as was done by Mr. Herman Sohwayge), Aberdeen, S. D., who mays that for several years he suffered with a chronic stitch in the back, and was given up by doctors. Two bottles of St. Jacobs Oil completely cured him. Also Mr. John Lucas, Elnora, Ind , says that for several years he suffered with pains in the back, and one bottle of St. Jacobs Oll cured him. There are manifold instances of how to do the right thing in the right way and not treak your bach.

### 103 Bas. Whent From Two Acres.

This remarkable yield was reported by Frank Clove, Minusota, on two acres of Marvel Spring Wheat. Speaking of this wheat, this new sort takes the cake. It is the greatest cropping spring wheat in the world. Farmers who tried it the past season believe seventy-five to one bundred bushels can be grown from one acre, and are going to get this yield for 1831. At such yield wheat pays at 30c a inshel. Salzer is the largest grower of vege-table and farm seed in the world.

IF YOU WILL OUT THIS OUT AND SEND IT WICH postage to the John A. Salzer Seed Co., La entalogue and a package of above spring wheat.

# **GOOD QUALITIES**

Possessed by Hord's Saraaparilla are almost beyond mention. Here of all, it purifies the blood, thus strengthening the norves, it regu-lates the digestive organs, invigor-ates the kidneys and liver, tones and builds up the entire system, pures Scroula, Dyspesia, Catarrh, Rheumatism, Salt Rieum, etc.

# **Kidney Troubles**

As I severe pains in my back resulted from a cold contracted in the war. I received only temporary relief from melicines. After the grip i was physically rus down. Hood's Sar-separilla has done wonders for me. I consider

For generations it has been the custom to mix the batter for buckwheat cakes with yeast or emptyings, retaining a portion of the batter left over from one morning to raise the cakes for the following day.

If kept too warm, or not used promptly, this batter becomes excessively sour and objectionable. Buckwheat cakes raised by this means are more often sour or heavy than light and sweet. If eaten daily they distress the stomach and cause skin eruptions and itching.

Instead of the old-fashioned way we have been making buckwheat cakes this winter with Royal Baking Powder, mixing the batter fresh daily, and find the result wonderfully satisfac-tory. They are uniformly light and sweet, more palatable and wholesome, and can be esten continuously without the slightest digestive inconvenience. Besides they are mixed and baked in a moment, requiring no time to rise. Following is the receipt used :

Two cups of pure buckwheat flour (not "prepared" or mixed), one cup of wheat flour, two tablespoons of Royal Baking Powder and one-half tenspoon-ful of salt, all sifted well together. Mix with milk into a thin batter and bake at once on a hot griddle. Once properly tested from this receipt, no other buckwheat will find its way to your table.-Domestic Cookery.

Hit Him Hard.

"How did my poem strike you?" asked a writer of the editor. "Very foreibly."

"Indeed; I am gratified to hear it." "Yes; I took the manuscript home with me to look it over, and my little boy chewed some of the pages up into paper wads. I don't think I was ever more forcibly struck."-Boston Transcript.
