WEDNESDAY, MARCH 28, 1894.

An independent local paper, published every Wednesday at Reynoldsville, Jefferson Co., Pa., devoted to the interests of Reynoldsville and Jefferson county. Non-political, will treat all with fairness, and will be especially friendly towards the laboring class.

Subscriptions \$1.50 per year, in advance. Communications intended for publication must be accompanied by the writer's name, not for publication, but as a guarantee of good faith. Interesting news items solicited.

Advertisers please send bills on application at the office in Arnold's Block.

Lengthy communications and change of advertisements should reach this office by Monday noon.

Address all communications to C. A. Stephenson, Editor and Pub.

Entered at the postoffice at Reynoldsville, Pa., as second class mail matter.

Albert J. Barr, of the Pittsburgh Post, has been appointed surveyor of customs for the Pittsburgh district.

Last Wednesday the law relative to the state board of health granting a license to doctors and surgeons before they can practice in Pennsylvania, went into effect.

On April 1st, by a decision of the postoffice people in Washington, the city of Pittsburgh, which now attaches the final "h," will drop that letter and spell its name Pittsburgh.

Last week's issue of the Emporium Echo contained statistics of the churches of that town. There are not many non-church goers in that place. There are 2,480 inhabitants in the town and out of this number there are only 139 who do not attend church.

Governor Pattison issued a proclamation last week fixing Friday, April 13th, and Friday, April 27th, 1894, to be observed as arbor days in Pennsylvania. The selection of either of the designated days is left to the discretion of the people in the various sections of the commonwealth, each locality observing that day which is deemed to be most favorable on account of climatic conditions.

A scientific authority says that perfectly clean hands are an impossibility. After the most diligent washings and brushings with soap and water, and rinsing with carbolic acid and other disinfectants, the hands remained so impure that upon touching the fingers to sterilized gelatine micro-organism were rapidly developed. On rinsing the hands with a solution of 1 to 1,000 of corrosive sublimate they became "scientifically cleansed" for the time, but in wiping them upon a towel not previously disinfected they returned to their sad condition of uncleanness.

The injurious effect on the eyes caused by wearing dotted veils is an old warning which has been sounded to no purpose and the fact that oculists are growing rich under this reign of fashion does not alarm the wearers of this bit of feminine vanity. The dots are larger or smaller, closer together or further apart, as they are more or less becoming, while the possibility of impaired eyesight is left entirely out of consideration. It has been discovered lately that the dots are not their only harmful quality. There is some substance used in stiffening or coloring the net which is poisonous as it chances to find its way into the eye.

The postoffice clerks of the United States have a just grievance—more than one, in truth—and are appealing to Congress for relief. There are 16,000 of them, and they claim that 65 percent of the postal revenues is the result of their labors. Yet they are treated with small consideration and there is no such a thing as uniformity between the different offices. The clerks ask for a system of uniform classification, so that men doing the same class of work in different offices shall receive the same salaries, and also for rates of compensation that will attract men of ability and character. Their appeal is endorsed by the Postmaster General and several of his predecessors. It ought to be heard and heeded.

A Reynoldsville man, who addressed an audience at Johnsonburg recently, made a few remarks which induced the editor of the Breeze to "spout" in an eloquent style about seeing the beauties of this life, as follows: "This jolly, funny old world that is as full of huge jokes as an egg is of meat, must be an awful dismal place for some folks to live in. They seem incapable of seeing anything in it but one vast chamber of horrors. Their senses are dulled so they cannot see the beautiful flowers and gay plumed birds, feel the grateful sunshine and drink in the drowsy hum of myriad insect wings, stand in rapt awe at the roar of the mighty cataract or gaze out on the ocean's vast expanse with a swelling of the soul and an inward thought perhaps unspoken of reverence for the mighty One, who holds the universe as in the hollow of his hand. All these things seem to escape some of the men and women who are trying to lead the best lives, lives that are purified by the influence of true religion; but 'tis pity that such lives, which should be filled with a great song of gladness, ring only with the minor key of sorrow. 'Tis pity that good souls cannot learn to lean with fuller trust on the arm of Him "who doeth all things well" and look out with broader vision on their surroundings."

Foreign Immigration.

The miners of this neighborhood are thoroughly alive to the fact that the continued stream of immigrants that is pouring into this country from the Old World is highly detrimental to their interest, and this feeling has resulted in the forming of an association at Horatio, the object of which is to secure a law prohibiting immigration for a period of ten years or longer. A public meeting was held at Horatio and an organization formed to be known as the "Citizens Protective Association," and a line of action agreed upon. The association will be non-partisan, and the members mutually agree to support no candidates who will not publicly declare themselves in favor of a law prohibiting immigration. They claim that the cheap labor of Europe is to them what Chinese labor was to California, and that it is doing vastly more real injury to American workingmen—Punxsutawney Spirit.

The two papers above mentioned are excellent monthly papers and the subscription price of each is 50c. a year. This offer is made only to those in Pennsylvania.

About

Prescriptions.

The best of medicines are none too good for sick folks. It's bad enough to be sick without running chances with second grade drugs. That's the reason we buy only the very highest quality of everything. It's a great satisfaction to us to know that every prescription we send out is just as good as drugs will make it. No matter what you paid for it you couldn't get it better.

Life is a Lottery,

Perhaps,

But you can't afford to take any chances when you're sick. Don't let the druggist enrich himself at your expense. Lookout for impure drugs. They are cheaper, of course,—for the druggist—but how about you? Then again, how about accuracy and skill in compounding your prescription? That counts for something too, don't it? We pride ourselves on combining all these features.

H. ALEX STOKE,

Registered Pharmacist.

One hundred and seventy-five acres of coal land, located on the Peter Cox farm, which was bought by Elijah and Elisha Cox from Peter Cox, deceased, is now offered for sale. For particulars inquire of either Elijah or Elisha Cox.

Tomatoes 10 cents a can at Schultze's.
