All things have their time and season, and in the changeful temperature of a closing winter rheumatism flourishes. The best treatment is referred to in a letter from Miss Lina Gunckle, Trenton, O., Feb. 22nd, 1893, who says . "I suffered for several years with rheumatism, but was cured by St. Jacobs Oil. I am now well and never feel anything of it. Better get the Oil in time and there will be no season of trouble afterwards.

There are also changes in the income tax part of the bail. One of these changes adds the word "assessed" at the beginning of section 54 and it is afterwards provided that this assessment shall be made by the commissioner of internal revenue. A proviso is as follows: "That all non-resident corporations shall be subject to a tax of 2 per cent upon all undistributed sums sent abroad, which sums for the purposes of this act shall be held to be dividends to foreign stockholders or policy holders and the resident agent, or manager of such foreign corporations, shall withhold said tax of 2 per cent from all such undistributed sums and make return thereof and pay therein."

The senate provision requiring corporations to make returns in accordance with the requirements of section 3,713 of the revised stantes, is stricken out and the house provision restored.

An amendment is also made providing that

requirements of section 3,713 of the revised statutes, is stricken out and the house provision restored.

An amendment is also made providing that corporations shall not only give the amounts paid to employes who receive more than \$4.000 per annum, but also their names and addresses and the amount paid them.

Internal revenue tax on spirits, section 95, is amended so as to read as follows—"That no distiller who has given the required bond and who sells only distilled spirits of his own production at the place of manufacture, or at the place of storage in bond, in the original packages, to which the tax paid stamps are affixed, shall be required to pay the special tax of a wholesale liquor dealer on account of such sales; provided, that he shall be required to keep the books prescribed by section 3,318 of the revised statutes of the United States, or so much as shall show the date when he sent out any spirits; the serial number of the packages containing the same, the kind and quality of the spirits in wine gallons and taxable gallons, the serial numbers of the stamps on the packages and the names and residences of the persons to whom sold and the provision of section 5 of an act entitled, 'An act to amend the laws relating to internal revenue,' approved March 5, 1879, as to transcripts, shall apply to such books. Any failure by reason of refusal or willful neglect to furnish the transcripts shall subject the spirits owned or distilled by the distillery to forfeiture."

Iowa Still Prohibition.

In the Iowa House the question of constitu-tional prohibition was considered and Coop-er's resolution was substituted for the senate resolution. It prohilts the manufacture and sale of liquor for any purpose and leaves the legislature to enact laws for its enforcement. Chassell called up the liquor manufacturing law, and it was lost, years 42, nays 56. This settled it that liquor manufacturing will not be legally carried on in the State.

It will, perhaps, require a little stretch of the imagination on the part of the reader to recognize the fact that the two portraits at the head of this article are of the same individual; and yet they are truthful sketches made from photographs, taken only a few months apart, of a very much esteemed citisen of Illinois—Mr. C. H. Harris, whose address is No. 1,623 Second Avenue, Rock Island, Ill. The following extract from a letter written by Mr. Harris explains the marvelous change in his personal appearance. He writes: "Dr. Pierce's Golden Medical Discovery saved my life and has made me a man. My home physician says I am good for forty years yet. You will remember that I was just between life and death, and all of my friends were sure it was a case of death, until I commenced taking a second bottle of 'Golden Medical Discovery,' when I became able to sit up and the ctugh was very much better, and the bleeding from my lungs stopped, and before I had taken six bottles of the 'Golden Medical Discovery' my cough cessed and I was a new man and rendy for business.

I now feel that it is a duty that I owe to my fellow-men to recommend to them the 'Golden Medical Discovery' which saved my life when doctors and all other medicines failed to do me any good.

I send to you with this letter two of my photographs; one taken a few weeks before I was taken down sick in bed, and the other was taken after I was well." These two photographs are faithfully re-produced at the bead of this article.

Mr. Harris's experience in the use of "Golden Medical Discovery" is not an exceptional one. Thousands of eminent people in all parts of the world testify, in just as emphatic language, to its marvelous curative powers over all chronic bronchial, throat and lung diseases, chronic nasal catarrh, asthma, and kindred diseases.

Eminent physicians prescribe "Golden Medical Discovery" when any of their dear once lives are imperilled by that dread disease, Consumption. Under such circumstances only the most reliable remedy would be depended upon. The following letter is to the point. It is from an eminent physician of Stamps, Lafayette Co., Ark. He says: "Combumption is hereditary in my wife's family; some have already died with the disease. My wife has a sister, Mrs. E. A. Cleary, that was taken with consumption. Bhe used Dr. Fierc's Golden Medical Discovery, and, to the surprise of her many friends, she got well.
